6. Right-click keys to copy, paste or delete them.

Copy
Paste
Delete

7. Use a special stand to support the Stream Dock, adjust the stand to get the best support.

Information About Electrical And Electronic Equipment

The following notice is for private end users who use electrical and electronic equipment.

1. **Separate recycling of old equipment**

   Electronic and electrical equipment that has become waste is called scrap equipment. Owners of old equipment must collect them separately from unclassified urban waste. Especially when old equipment is not considered household waste It belongs to a special collection and recycl ing system.

2. **Options for returning old equipment**

   If you have old equipment, you can hand it over to the public waste disposal authority for setting and providing options for proper disposal of the old equipment. It is also possible to hand over elect rical and electronic equipment there,In order to reuse these devices. You can obtain more detailed information from the corresponding collection points or collection points.

3. **Privacy Statement**

   Old devices typically contain sensitive personal data. This is particularly applicable to information and telecommunications technology devices, such as computers and smartphones. Please note that for your own benefit, each end user It is the responsibility of both part ies to delete the data on the old devices to be disposed of.

4. **The meaning of crossing out the trash can symbol**

   The symbol commonly used on electrical and electronic equipment for forked garbage bins indicates that the equipment must be collected separately from unclassified urban waste at t he end of its service life.
