PETNF 4 Pack Filters Replacement

PETNF Pet Water Fountain Filters Instruction Manual

Model: 4 Pack Filters Replacement

Introduction

This manual provides essential information for the proper use and maintenance of your PETNF Pet Water Fountain Replacement Filters. These filters are designed to ensure your pets always have access to clean, fresh, and great-tasting water, promoting their overall health and hydration.

Product Compatibility

These replacement filters are specifically engineered to be compatible with the following PETNF pet water fountain models:

- D2341
- D2223
- D2322
- D2340

Please ensure your pet water fountain model matches one of the listed compatible models for optimal performance.

Advanced 7-Layer Vertical Filtration System

Our unique 7-layer vertical filtration system provides comprehensive purification, ensuring superior water quality for your pets. This advanced design surpasses standard flat filters by offering genuine multi-layered filtering.

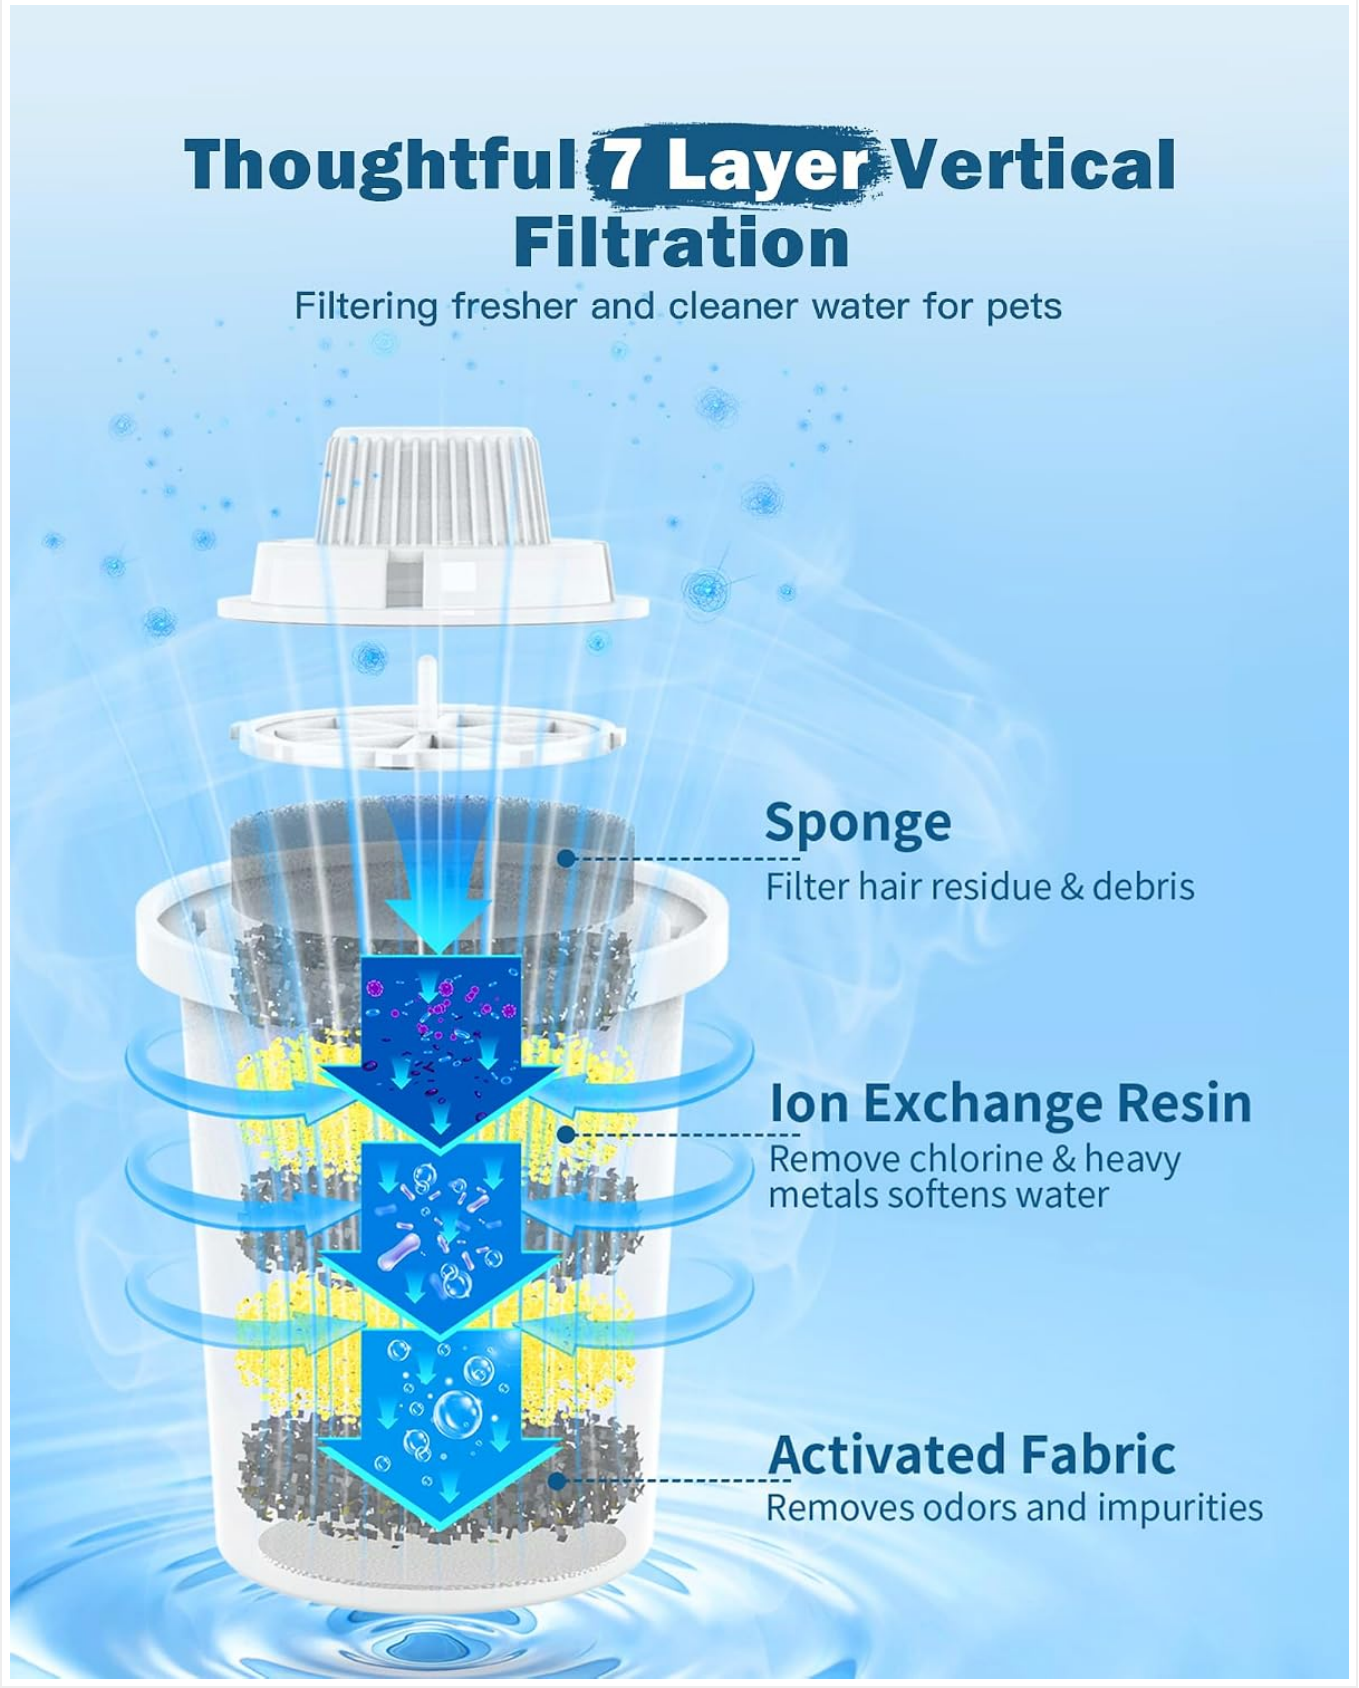

Image: Detailed diagram of the 7-layer vertical filtration process.

Filtration Layers:

- **Sponge:** Filters hair residue and larger debris.
- **Ion Exchange Resin:** Removes chlorine and heavy metals, softening the water.
- **Activated Carbon:** Eliminates odors and impurities, improving water taste.
- **Non-woven Fabric:** Further filters saliva and fine sand particles.
- Additional layers work in conjunction to provide thorough purification.

Setup and Installation

Follow these simple steps to prepare and install your new PETNF replacement filter:

1. **Soak the Filter:** Before first use, soak the new filter completely in clean water for 2 to 5 minutes. This helps to remove any loose carbon dust and ensures optimal filtration performance.
2. **Rinse Thoroughly:** After soaking, rinse the filter thoroughly under running tap water for a few seconds.
3. **Insert into Fountain:** Place the prepared filter into the designated filter slot of your PETNF pet water fountain. Ensure it is seated correctly according to your fountain's specific design.
4. **Assemble Fountain:** Reassemble your pet water fountain, ensuring all components are securely in place.
5. **Fill with Water:** Fill the water fountain with fresh water. The filtration system will begin working immediately.

Maintenance and Filter Replacement

For the continuous freshness of your pet's water and to maintain their well-being, regular filter replacement is crucial. We advise replacing the filter every **2 weeks**. Frequent replacement prevents the accumulation of impurities and ensures the filtration system remains effective.

Image: Visual reminder to regularly change filters for pet health.

Always dispose of used filters responsibly. Do not attempt to clean and reuse old filters, as their filtration capacity will be

compromised.

Specifications

Feature	Detail
Material	Carbon Fiber
Product Benefits	Encourages pet hydration with clean, great-tasting water
Brand	PETNF
UPC	709127115160
Unit Count	1.0 Count (4 Pack Filters)
Item Weight	2.82 ounces
