Internal cable connectors

USB 2.0 Connector   Front Panel Connector
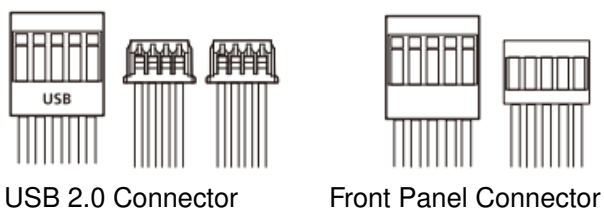

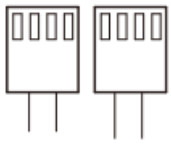

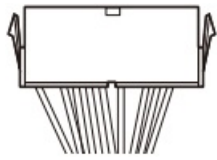

Fan 4-pin Connector   24-pin PSU Connector

Connect the case internal cable connectors to the corresponding Compute Element headers.
NOTE : If the connectors are not apparent on the board, do consult your Compute Element manual. Connecting the panel to the wrong headers may result in Compute Element damage.

CAUTION
Electrostatic discharge (ESD) can damage system components. If an ESD-controlled workstation is not available, wear an antistatic wrist strap or touch an earthed surface before handling any PC components.
**WARNING**
Please be careful when unpacking and setting up this product as metal edges can cause injury if not handled with care. Keep away from children.

Installation
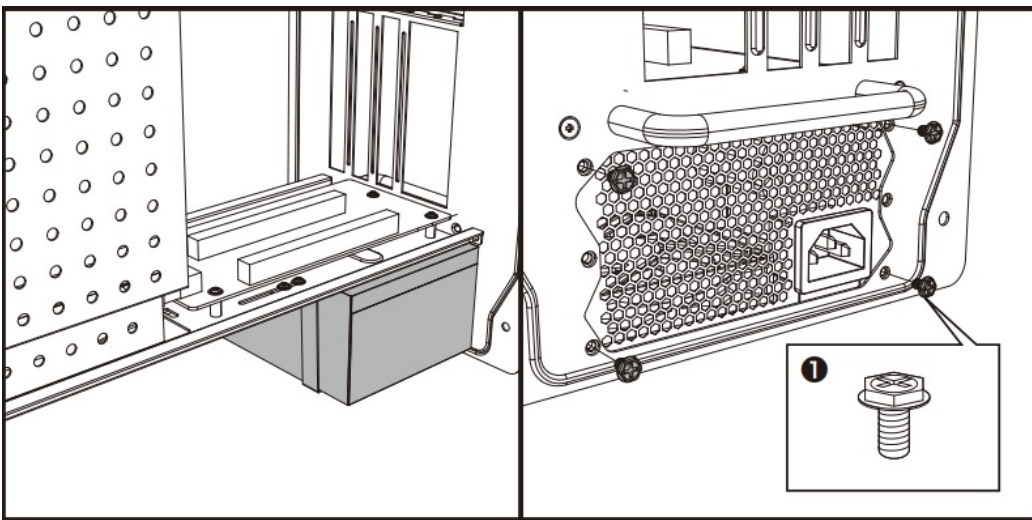

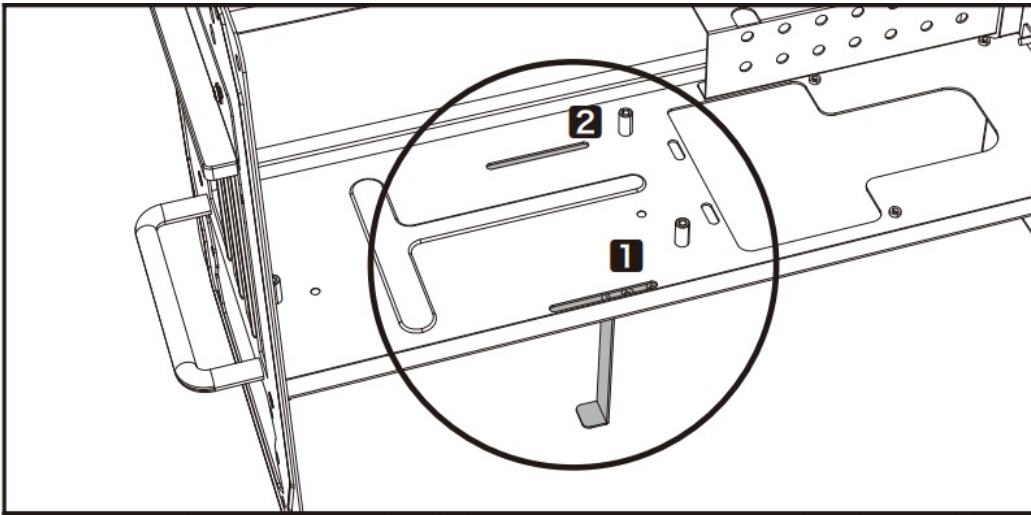

Component Tray Release

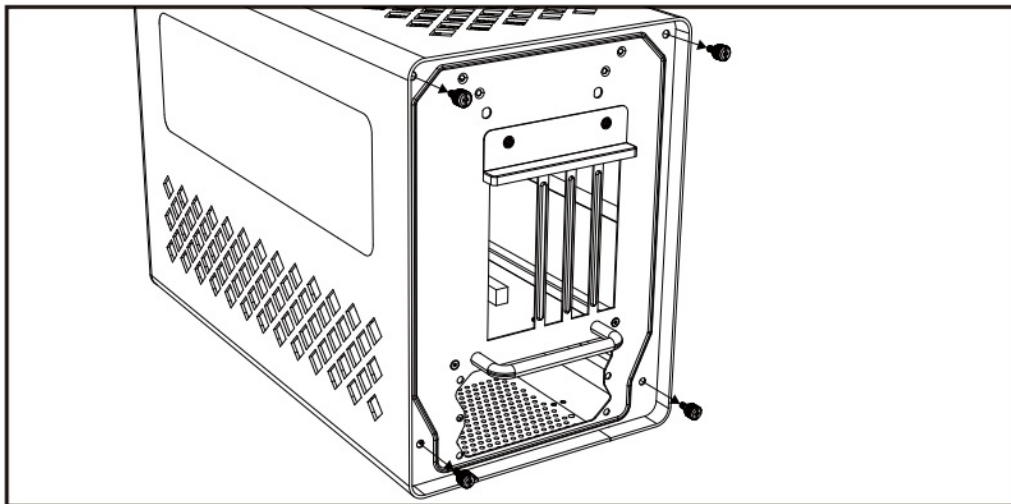

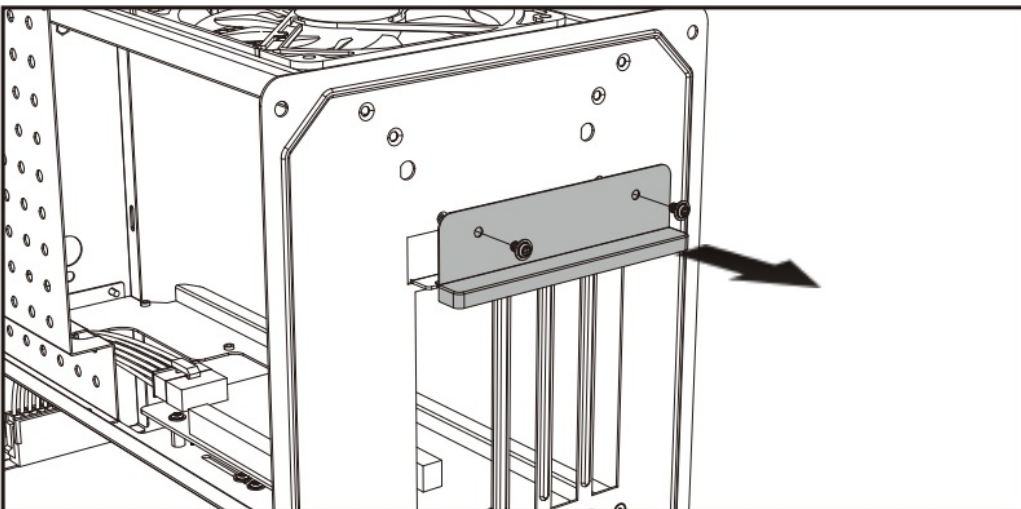

Component Tray Pullout

PSU Installation

Check the orientation of the PSU cable. Position the PSU hold bracket on position **1** or **2** which is on the opposite
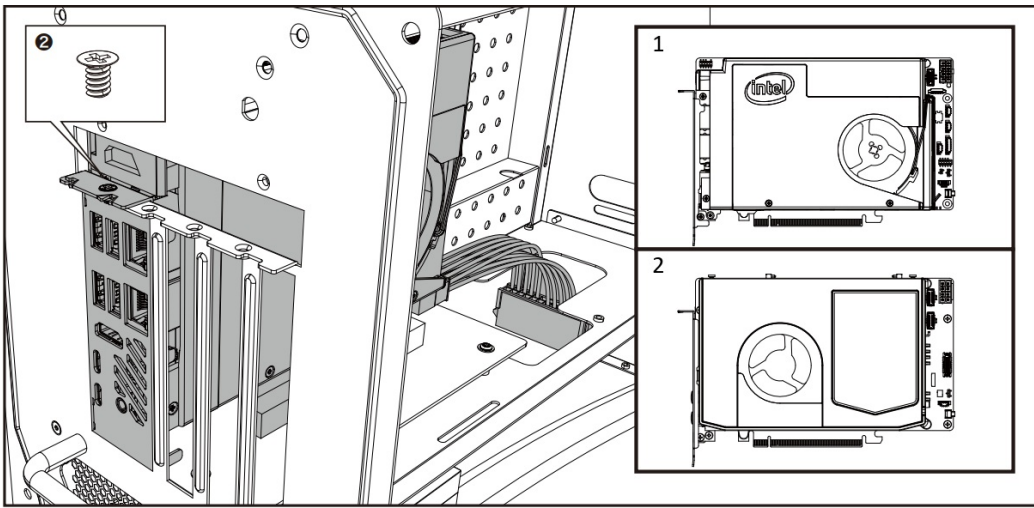

end of the cable.
