GS CHIER 8825-8826-NEW

GS CHIER 10'x13' Aluminum Louvered Pergola Instruction Manual

Model: 8825-8826-NEW

1. Safety Information

Please read and understand all instructions before assembly and use. Failure to follow these instructions may result in injury or property damage.

- Ensure the pergola is securely anchored to a stable foundation to withstand winds up to 50mph.
- Do not overload the structure.
- Take precautions during assembly to prevent injuries. It is recommended that 3-4 people assist with assembly.
- Keep children and pets away from the assembly area.
- Wear appropriate safety gear, such as gloves and eye protection, during assembly.

2. Package Contents

Verify all parts are present before beginning assembly. Refer to the included parts list in your physical manual for detailed component identification.

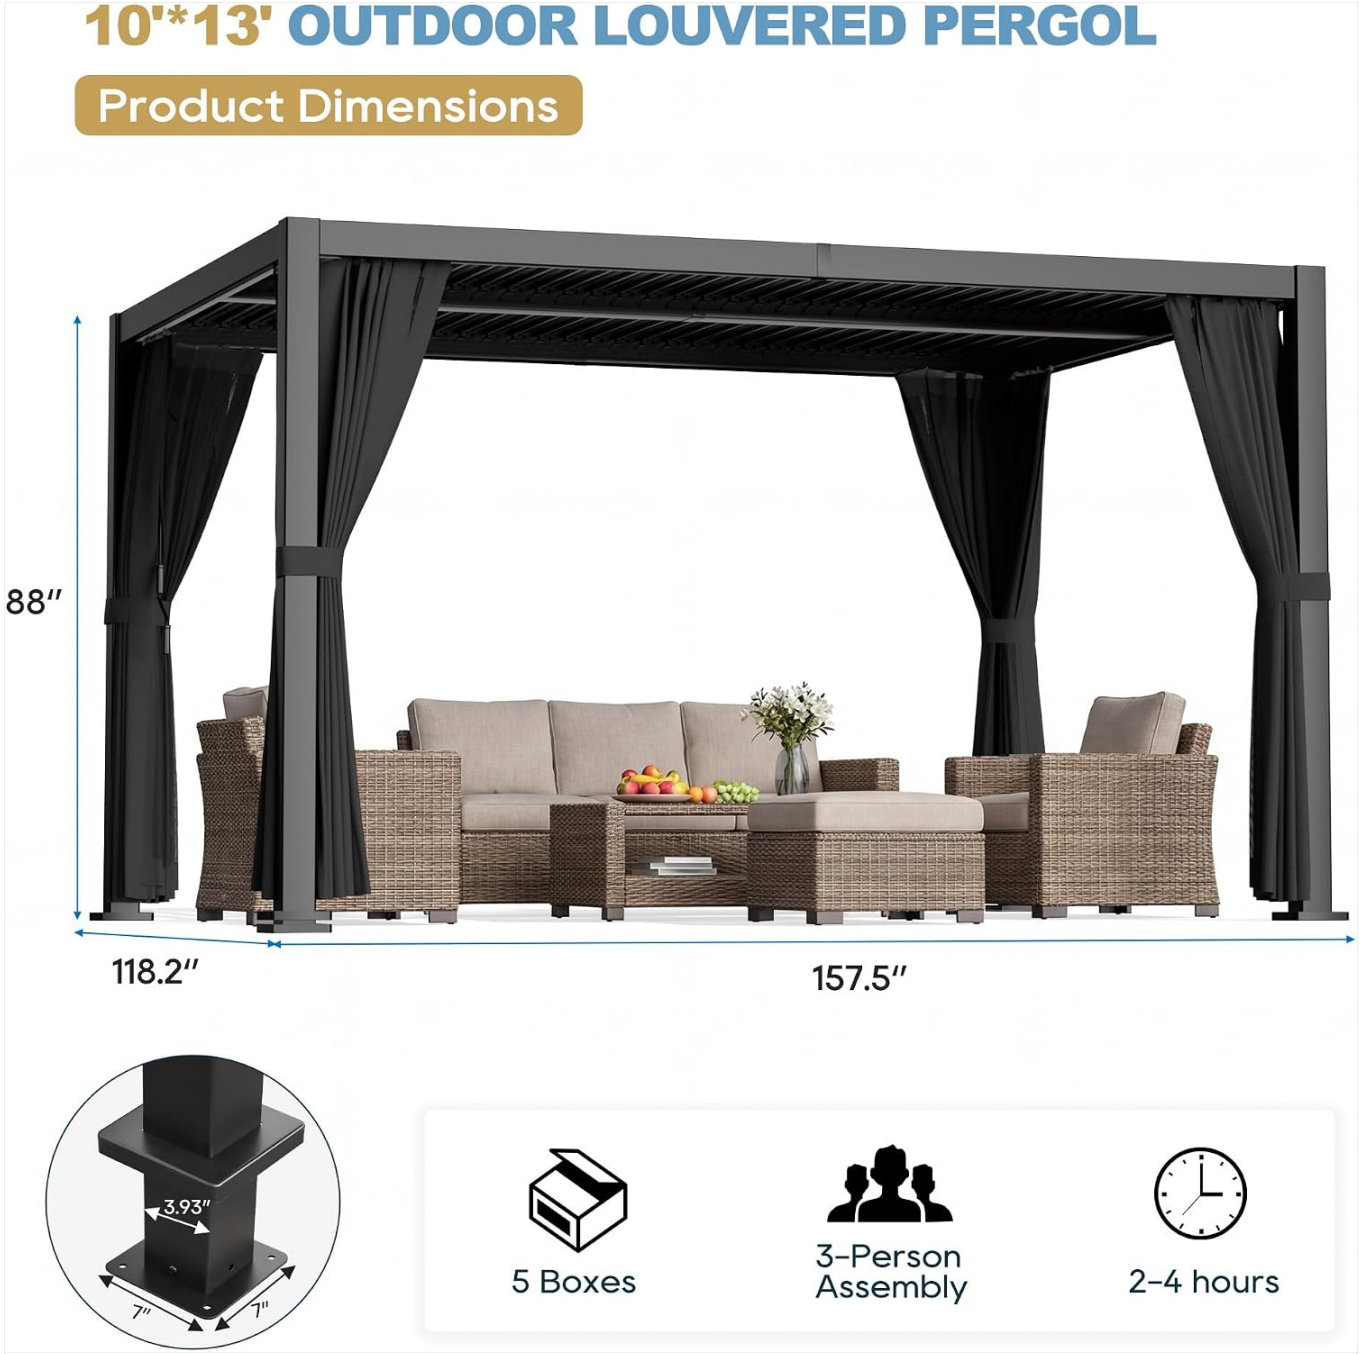

Image: Overview of pergola dimensions and the five boxes it ships in, indicating a 3-person assembly taking 2-4 hours.

Image: Comparison highlighting the rust-proof, scratch-resistant, and easy-to-clean benefits of the all-aluminum construction.

3. Setup and Installation

This pergola requires assembly. Detailed step-by-step video guidance is available to assist with the process. A team of 3-4 people can assemble the patio pergola in 2-3 hours.

Key Assembly Steps:

1. **Assemble the Main Frame:** Connect the horizontal beams to the vertical posts using the provided hardware. Ensure all connections are secure.
2. **Install Louvered Roof Panels:** Carefully place and secure the louvered panels onto the frame. Follow the instructions for proper alignment and attachment.
3. **Attach Curtains and Netting:** The dual-track design allows curtains and mosquito netting to slide independently. Attach them to the designated tracks on the pergola frame.
4. **Secure the Pergola:** Use the included anchor bolts to secure the pergola to a flat concrete surface. This ensures stability against wind.

4. Operating Instructions

The GS CHIER pergola features an independent adjustable louvered roof and a hidden fast dry drainage system for versatile outdoor use.

Adjusting the Louvered Roof:

The louvered roof can be adjusted effortlessly from 0° to 90° to control the amount of sun or shade. When closed completely, it provides shelter from rain.

Image: Visual representation of the adjustable louvered roof, demonstrating its ability to open for sunlight and close for rain protection.

Hidden Fast Dry Drainage System:

The built-in gutter system along the roof diverts rainwater to the columns, preventing water accumulation and keeping the area underneath dry.

Image: Illustration of the pergola's integrated gutter system, showing how rainwater is collected and drained through the posts.

Curtains and Netting:

The dual-track design allows for independent movement of the waterproof, UV-resistant curtains and insect-blocking mesh netting, providing flexible privacy and protection.

5. Maintenance

Regular maintenance will ensure the longevity and optimal performance of your pergola.

- **Cleaning:** Clean the aluminum frame and louvered panels with mild soap and water. Avoid abrasive cleaners.
- **Drainage System:** Periodically check the built-in gutter system for debris (leaves, dirt) and clear any blockages to ensure proper water drainage.

- **Fasteners:** Inspect all bolts and screws regularly and tighten them as needed to maintain structural integrity.
- **Curtains & Netting:** Clean curtains and netting according to their care instructions. Store them in a dry place during extreme weather conditions or off-season to prolong their life.

6. Troubleshooting

If you encounter any issues with your pergola, refer to the following common troubleshooting tips:

- **Difficulty Adjusting Louvers:** Check for any obstructions in the louver mechanism. Ensure the hand crank is properly engaged and not damaged.
- **Water Accumulation:** Verify that the drainage system is clear of debris. Ensure the pergola is level and properly installed to allow water to flow into the gutters.
- **Pergola Instability:** Re-check all frame connections and ensure anchor bolts are securely fastened to the ground.
- **Curtains/Netting Not Sliding Smoothly:** Inspect the tracks for dirt or damage. Clean the tracks and ensure the curtain/netting hooks are not bent or obstructed.

7. Specifications

Feature	Detail
Brand	GS CHIER
Model Number	8825-8826-NEW
Material	Aluminum
Product Dimensions	157.5"L x 118.2"W x 88"H
Floor Area	130 Square Feet
Water Resistance Level	Waterproof
Ultraviolet Light Protection	Yes
Assembly Required	Yes

8. Warranty and Support

For warranty information or technical support, please refer to the warranty card included with your product or contact the seller directly. Keep your purchase receipt for proof of purchase.
Contact Information for ChierDirect (Seller):

- Visit the GS CHIER Store on Amazon.
- Refer to your product packaging or included documentation for specific contact details.
