BEEBEST A108OS

BEEBEST A108OS 5-Watt UHF Two-Way Radio Instruction Manual

Model: A108OS | Brand: BEEBEST

Introduction

The BEEBEST A108OS is a robust 5-watt UHF two-way radio designed for reliable long-range communication. It features APP programming capabilities, a high-gain antenna, and a durable design suitable for various environments. This manual provides essential information for setting up, operating, and maintaining your device.

Key Features

- **APP Programming:** 16 preset channels with 122 privacy codes, configurable via a dedicated mobile application (FCC ID: 2BCYIA108OS; UHF: 430-440 MHz).
- **High-Gain Antenna & Battery:** Detachable 120mm antenna for enhanced signal. 2000mAh rechargeable battery offering up to 5 days standby and Micro USB charging.
- **Quick-Sync Frequency Sharing:** Simple button settings allow cloning frequencies from one radio to multiple units.
- **Military Grade Noise Cancellation:** Built-in companding technology filters ambient noise for clear audio.
- **Grouping:** Includes 3 different colored antenna rings (red, white, green) for easy group identification.

Package Contents

- BEEBEST A108OS Two-Way Radio
- Antenna
- Micro USB Charging Cable
- Belt Clip
- User Manual
- 2 Red, White, and Green Antenna Color Rings

Setup Guide

1. Antenna Installation

Rotate the antenna clockwise onto the threaded connector at the top of the radio until it is securely fastened. Ensure it is tight to optimize signal performance.

2. Belt Clip Installation

Align the belt clip with the designated grooves on the back of the radio. Slide the clip downwards until it clicks firmly into place. To remove, push the upper lock of the belt clip outward, push the left thumb against the bottom of the belt clip and gently upward to remove the belt clip.

Operating Instructions

1. Power On/Off and Volume

To power on the radio, rotate the top knob clockwise. Continue rotating to increase the volume. To power off, rotate the knob counter-clockwise until it clicks.

2. Channel Selection

The radio features 16 preset channels. Rotate the channel knob on the top of the radio to select your desired channel. Ensure all radios in your group are set to the same channel for communication.

3. Push-to-Talk (PTT)

To transmit your voice, press and hold the large orange PTT button located on the side of the radio. Speak clearly into the microphone. Release the button to stop transmitting and listen for incoming messages.

4. VOX Function (Voice-Operated Exchange)

The VOX function enables hands-free transmission, activating when you speak. To activate VOX: 1. Set the radio to channel 5. 2. Turn the radio off. 3. Press and hold the PTT button and the Monitor (SK3) button simultaneously while turning the radio on. Ensure all three keys are held down at the same time during power-on.

5. APP Programming

Enhance your radio's functionality by connecting it to the BEEBEST mobile application. Download the app from your device's app store (App Store for iOS, Google Play for Android). Once installed, connect your radio via Bluetooth to customize channels, set privacy codes, and manage other advanced settings. This allows for quick frequency writing and batch configuration for multiple radios.

6. Quick-Sync Frequency Sharing

The quick-sync feature allows for easy cloning of frequencies from one radio to another. This simplifies the setup process for groups, ensuring all radios are synchronized without requiring individual manual programming.

Maintenance

- **Cleaning:** Keep the radio clean and dry. Use a soft, damp cloth to wipe the surface. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the radio in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** Use only the approved charging cable and power sources. Do not attempt to open or replace the internal battery.
- **Antenna:** Ensure the antenna is always securely attached. Avoid bending or forcing the antenna, as this can damage the radio's performance.

Troubleshooting

- **No Power:** Check if the battery is charged. Ensure the power/volume knob is rotated clockwise to the 'on' position.
- **Cannot Communicate with Other Radios:** Verify that all radios are set to the same channel and privacy codes (if enabled). Ensure radios are within the effective communication range and there are no major obstructions.
- **App Connection Issues:** Confirm that Bluetooth is enabled on your mobile device and the radio. Try

restarting both the radio and the mobile application.

- **Poor Audio Quality:** Adjust the volume level. Ensure the antenna is securely attached. Move to an open area with fewer physical obstructions.
- **Radio Unresponsive/Frozen:** If the radio becomes unresponsive, perform a factory reset. Press and hold the power button and the PTT button simultaneously for approximately 10 seconds until the radio resets.

Product Specifications

Feature	Detail
Item Weight	8.4 ounces
Package Dimensions	6.34 x 3.5 x 1.46 inches
Item Model Number	A108OS
Batteries	1 A battery required (included)
Manufacturer	BEEBEST
Brand	BEEBEST
Color	Black
Number of Channels	16
Special Features	Lightweight, Long Range, Noise Reduction, Rechargeable
Frequency Range	UHF (430-440 MHz)
Talking Range Maximum	3 Mile
Voltage	5 Volts
Water Resistance Level	Water Resistant

Warranty and Support

The BEEBEST A108OS Two-Way Radio comes with a 1-year warranty from the date of purchase. For technical support, troubleshooting assistance, or warranty claims, please refer to the contact information provided in your product packaging or visit the official BEEBEST website.
