			In all lighting effects with RGB color mode, this shortcut allows you to set the backlight color to 7 single color with RGB loop effect.

	“j”		Bright	The adjustments on the left is for generic lighting effects. Some lighting effects cannot be tweaked. For example, effects with constant light can only adjust brightness as they don't have animation speed and direction.
	“t”		Dim	
	” “		Set animation direction to left	
	” “		Set animation direction to right	
			Slower Animation	
	“+”		Faster Animation	

Key/Lighting Effects Customization Instruction

1. The key/lighting effects customization must be completed in wired mode with Akko driver.
2. In wired mode, the lighting effects can also achieve music rhythm effects with Akko driver.
3. Please download the Akko Cloud driver on our website.
4. Users can download the driver via en.akkogear.com

Akko Warranty and Service Statement

1. Akko provides 1-yr warranty for customers in mainland China. For other regions, please contact your seller (Akko distributor) for a specific warranty policy.
2. If the warranty window expires, customers need to pay for repairs. Akko will also provide instructions if users prefer to repair the keyboard by themselves. However, users shall take full responsibility for any loss happened during self-repair.
3. Disassembling the keyboard without the manufacturer/seller's instruction will immediately void the warranty.
4. The return and warranty policy may vary in different platforms and are subject to the specific distributor at the time of purchase.

Man-made damage is not limited to immersion, falling off, and pulling off the wires with excessive forces, etc.
