VEVOR SS-QPG

VEVOR Horizontal Cylinder Storage Cabinet SS-QPG Instruction Manual

Model: SS-QPG | Brand: VEVOR

Introduction

This manual provides essential information for the safe and efficient use of your VEVOR Horizontal Cylinder Storage Cabinet, Model SS-QPG. This cabinet is designed for secure storage of gas cylinders, such as propane, freon, oxygen, and nitrogen, in industrial or workshop environments. Please read these instructions thoroughly before assembly and operation to ensure proper installation and safe handling.

Safety Information

Adhering to safety guidelines is crucial when handling and storing gas cylinders. Failure to follow these instructions can result in serious injury or property damage.

- **Ventilation:** Ensure proper ventilation in the storage area for gas cylinders.
- **Careful Handling:** Always handle gas cylinders with care to prevent damage.
- **Secure Fastening:** Securely fasten the storage cabinet to prevent tipping. Pre-drilled holes are provided for ground installation to enhance stability.
- **Cylinder Orientation:** While this cabinet is designed for horizontal storage, always consult local regulations regarding the storage orientation of specific gas types. Some regulations may require certain cylinders to be stored upright to ensure safety valve functionality.
- **Flammable Materials:** This cabinet is designed for flammable materials. Always observe the "DANGER

FLAMMABLE MATERIALS" warning label.

- **Locking Mechanism:** Utilize the provided stainless steel lock and keys to secure the cabinet and prevent unauthorized access.

Product Overview

The VEVOR Horizontal Cylinder Storage Cabinet is constructed from durable materials and features multiple safety designs for secure gas cylinder storage.

Key Features:

- **Robust Construction:** Made from 1.4mm thick carbon steel with a yellow powder coat finish for corrosion resistance and durability.
- **High Load Capacity:** Each of the two layers can support up to 66 lbs (30 kg), with a total maximum weight capacity of 132 lbs (60 kg).

- **Enhanced Security:** Equipped with a stainless steel lock and four keys to secure stored cylinders.
- **Layered Storage:** Two internal shelves with guardrails prevent cylinders from slipping or moving during storage or transport.
- **Stability:** Cage design and reinforced structure enhance overall stability.

Setup and Assembly

The VEVOR Horizontal Cylinder Storage Cabinet requires assembly. Follow these steps carefully for proper installation.

Included Components:

- 1 x Cylinder Storage Cabinet (unassembled parts)
- 1 x Stainless Steel Lock
- 4 x Keys
- Assembly Hardware (screws, nuts, washers, hinges, handle)
- 1 x Instruction Manual (this document)

Assembly Steps:

1. **Step 1: Assemble Corresponding Parts.** Refer to the included assembly diagram. Begin by connecting the

base and side panels according to the manual.

2. **Step 2: Align Holes and Tighten Screws.** Carefully align all pre-drilled holes and secure the panels using the provided screws, nuts, and washers. Ensure all connections are tight and stable.
3. **Step 3: Assemble the Frame and Install the Lock.** Complete the main frame assembly. Attach the door hinges and handle. Install the stainless steel lock mechanism onto the door.
4. **Step 4: Install the Shelves.** Place the internal shelves into their designated positions. Ensure they are securely seated within the cabinet.

Note: Assembly is typically a two-person job due to the weight and size of the components. Ensure a firm, level base for the cabinet.

Operating Instructions

Follow these guidelines for safe operation of your cylinder storage cabinet.

1. **Placement:** Position the cabinet on a firm, level surface in a well-ventilated area, away from ignition sources.
2. **Loading Cylinders:** Open the cabinet door using the key. Carefully place gas cylinders onto the shelves. Ensure

cylinders are stable and do not protrude beyond the shelf edges or interfere with the door closing mechanism. The guardrails are designed to help prevent slippage.

3. **Securing Cylinders:** Once cylinders are placed, close the cabinet door and engage the lock using the provided key. Always keep the cabinet locked when not in use to prevent unauthorized access and ensure security.
4. **Unloading Cylinders:** Unlock and open the cabinet door. Carefully remove cylinders one by one.
5. **Capacity:** Do not exceed the maximum weight capacity of 66 lbs per layer or 132 lbs total for the cabinet.

Maintenance

Regular maintenance ensures the longevity and safe operation of your VEVOR Horizontal Cylinder Storage Cabinet.

- **Cleaning:** Wipe the cabinet surfaces with a damp cloth as needed to remove dust and debris. Avoid abrasive cleaners that could damage the powder coat finish.
- **Inspection:** Periodically inspect the cabinet for any signs of damage, such as dents, rust, or loose components. Pay close attention to hinges, the locking mechanism, and shelf integrity.
- **Hardware Check:** Ensure all screws, nuts, and bolts remain tight. Retighten if necessary.
- **Lock Functionality:** Test the lock mechanism regularly to ensure it operates smoothly. Lubricate if needed.

Troubleshooting

This section addresses common issues you might encounter with your storage cabinet.

Problem	Possible Cause	Solution
Cabinet door does not close or lock properly.	• Cylinders obstructing the door. • Cabinet not on a level surface. • Hinges are loose or misaligned. • Lock mechanism is stiff or damaged.	• Adjust cylinder placement. • Relocate cabinet to a level surface. • Check and tighten hinge screws; realign if necessary. • Lubricate lock or contact support if damaged.
Cabinet feels unstable or wobbly.	• Not all assembly hardware is tightened. • Cabinet is on an uneven surface. • Cabinet is not anchored (if applicable).	• Check and tighten all assembly screws and bolts. • Move cabinet to a level surface. • Utilize pre-drilled holes to anchor the cabinet to the ground.
Rust spots appearing on the cabinet.	• Damage to the powder coat finish. • Exposure to harsh environmental conditions.	• Clean the area, sand lightly, and apply rust-inhibiting paint. • Consider additional protective measures if exposed to extreme weather.

Specifications

Detailed technical specifications for the VEVOR Horizontal Cylinder Storage Cabinet.

Specification	Detail
Model Number	SS-QPG
Brand	VEVOR
Product Dimensions (D x W x H)	30.04" x 35" x 31.02" (763 x 889 x 788 mm)
Shelf Size	30.31" x 27.83" x 1.57" (770 x 685 x 40 mm)
Material	Alloy Steel (Q235 Cold Rolled Steel)
Material Thickness	1.4 mm
Finish	Yellow Powder Coated
Number of Shelves	2
Weight Capacity (per layer)	66 lbs (30 kg)
Total Weight Capacity	132 lbs (60 kg)
Item Weight	84.44 lbs (38.3 kg)
Lock Type	Stainless Steel Keyed Lock
Installation Type	Freestanding, Floor Mount (with pre-drilled holes for anchoring)
Recommended Uses	Gas Cylinder Storage (Freon, Gases, Oxygen, Nitrogen)
