AKOMID

Akomid Ak-001 Rechargeable Reading Light

INTRODUCTION

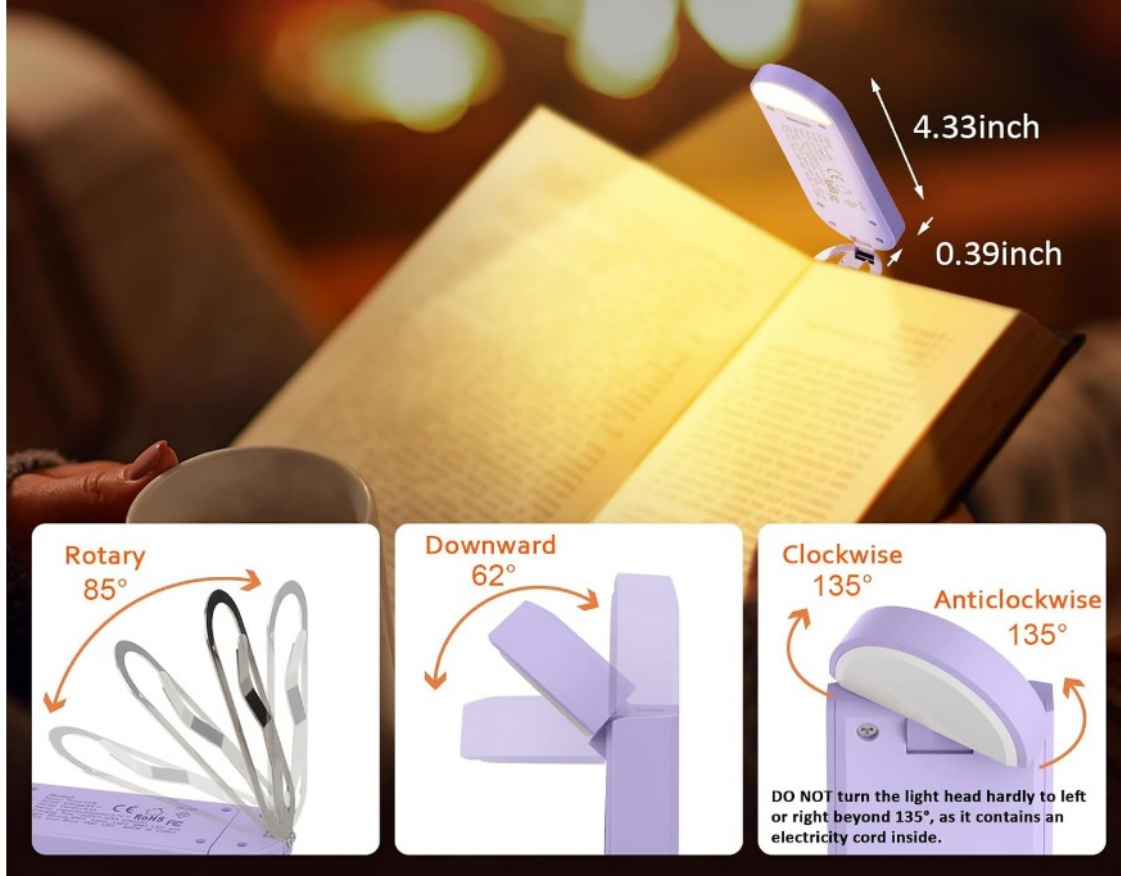

With the Akomid Ak-001 Rechargeable Reading Light, an incredibly portable and eye-friendly option made for both bookworms and night owls, you can improve your nighttime reading. This stylish reading companion, which was released by Akomid on November 11, 2023, costs only **\$6.29**, which is reasonable considering its high-end features. This USB rechargeable LED book light weighs just 1.27 ounces and has a 500mAh lithium battery that can run it for up to 80 hours at low brightness and 12 hours at maximum brightness. Whether you're reading, working, or just lounging, its eight LEDs, three color temperature settings, and stepless dimming provide the versatility to meet any illumination requirement. Its flexible light head enables accurate positioning, and its metal clip opens up to 85°. Additionally, its amber mode filters out 99.95% of dangerous blue light, making it easy on the eyes and ideal for travelers, students, and late-night reading.

SPECIFICATIONS

Product Name	Akomid AK-001 Rechargeable Reading Light
Model Number	AK-001
Brand	Akomid
Price	\$6.29
Color	Purple
Light Type	LED, Eye-Cared, USB Rechargeable Book Light
LED Count	8 SMD LEDs (3 amber, 5 cool white)

Base Material	Metal
Product Dimensions	0.39"D x 1.38"W x 4.33"H
Item Weight	1.27 ounces
Battery Requirement	1 Lithium-Ion battery (included)
First Available Date	November 11, 2023
Manufacturer	Akomid
Safety Note	Do not twist light head beyond 135° to avoid damaging internal cord

Akomid Bookmark Shaped Clip on Book Light with Multi-angle Adjustable

Adjust the eye-cayed book light to vit your reading needs

WHAT'S IN THE BOX

- Reading Light
- Batteries included
- User Guide

FEATURES

- **Eight LED lights:** These provide a flexible and aesthetically pleasing lighting experience. There are three amber LEDs and five cool white LEDs.
- **Amber Light Mode:** Ideal for reading before bed without disturbing sleep because it blocks 99.95% of dangerous blue light.

- **Stepless Dimming:** For personalized lighting, use the long-press feature to change the brightness from 5% to 100%.
- **Up to 80 hours** Of operation at low brightness and 12 hours at maximum brightness are possible with the included 500mAh rechargeable battery.

- **USB Rechargeable:** Saves time and money by charging easily and environmentally without requiring new batteries.

- **Flexible Lighting Head:** This light head provides exact light direction by rotating 135° to the left or right and 62° downward.
- **Sturdy Metal Clip:** A sturdy metal clip that firmly fastens to books, tablets, or shelves and can be opened up to 85 degrees.
- **Compact and Lightweight:** At just 1.27 ounces, it is incredibly compact and convenient to travel with.
- **Dual Function:** Combines convenience and usefulness by acting as a bookmark and reading light.
- **No Flashing or Flickering:** Stable, flicker-free lighting is intended to shield the eyes from harm when using the device for extended periods of time.
- **Charging Indicator Light:** For convenient monitoring, a blue light illuminates while charging and shuts off when the battery is fully charged.
- **Multifunctional Use:** Perfect for studying, reading, camping, taking nighttime walks, and serving as an emergency light.
- **Stylish Coated Finish:** A smooth, coated exterior adds a sleek purple appearance and increases durability.
- **Excellent Gift Idea:** It is appropriate for all age groups, making it a considerate and practical present for children, students, and voracious readers.

SETUP GUIDE

- **Carefully unpack:** The lamp and charging wire by taking them out of the box.

- **Charge Before Using**: Make sure the gadget is completely charged using a USB cord until the blue indication goes out.
- **Clip It Tightly**: Make sure the metal clip is securely fastened to the book or edge of the surface.
- **Light Head Adjustment**: To get the desired angle, tilt the light head up to 135° left or right and 62° downward.
- **Choose Color Temperature**: Toggle between amber, mixed, and cool white light modes by briefly pressing the button.
- **Adjust Brightness**: To gradually lower or brighten the light to your preferred level, long press the same button.
- **Use as a Bookmark**: Close the light when not in use, then place it inside your book like a conventional bookmark.
- **Before packing for a trip**: Make sure the light is completely charged and operational by testing it.
- **Avoid Overbending**: To prevent internal wire damage, never twist the light head past its intended angles of 135°.
- **Charge via USB Port**: To charge, connect to a laptop, power bank, or USB adapter (not provided).
- **Examine the indicator light**: A blue light denotes charging, while a blank light indicates that it is ready and fully charged.
- **Select the Appropriate Brightness**: Turn it up for studying or intricate work, and turn it down for reading at night.
- **Mount on Other Surfaces**: When necessary, clip onto shelves, desktops, or headboards.
- **Combine with Sleep Routines**: To encourage the creation of melatonin, use the amber light setting half an hour before bed.
- **Keep Close by for Emergencies**: In the event of a power outage or low light, it's convenient to have by your bedside or in a bag.

CARE & MAINTENANCE

- **Clean with a Soft Cloth**: Use a dry or slightly moist microfiber cloth to gently wipe the surface.
- **Steer clear of harsh cleaners**: Chemicals and solvents can harm plastic components and coatings.
- **Avoid Overcharging**: To extend battery life, unplug the device after it is fully charged.
- **Store in a Dry Place**: When not in use, keep out of damp areas and moisture.
- **Protect the Clip**: To keep the clip's grip strength, don't open it with too much effort.
- **To maintain a good charging contact**: Regularly check the charging port to make sure it is clear of dust or debris.
- **Charge Monthly if Not in Use**: Even if the light is not being used, it should be recharged at least once a month to preserve battery health.
- **Avoid Dropping**: Despite being lightweight, dropping could harm the internal battery or LED panel.
- **Stay Out of the Heat**: Avoid exposure to hot conditions or direct sunshine.
- **Don't Over-Bend the Light Head**: To prevent internal wires from breaking, stay between the specified 135° and 62° angles.
- **Professional Battery Replacement**: Seek out a skilled technician to replace your battery if its performance noticeably declines.
- **Transport Protected**: To avoid scratches, keep it in a case or pouch while putting it in a bag.
- **Keep Out of the Reach of Young Children**: Batteries and small parts can be dangerous if handled improperly.
- **Test Charging Cable Often**: To guarantee effective charging, only use the suggested USB cable.
- **Use Often**: Regular use guarantees that LEDs stay responsive and active while also preserving battery

performance.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Light not turning on	Battery depleted or switch not activated	Recharge the device; ensure switch is properly pressed
Light flickers or dims	Low battery or loose internal wiring	Fully charge battery; avoid over-bending light head
Cannot change light color	Button not properly pressed	Use short presses for color changes; long press for brightness
Light won't hold charge	Battery degradation or faulty USB connection	Replace USB cable or contact manufacturer if issue persists
Light not responding during charge	Improper USB connection or faulty port	Check for secure connection; try different charging adapter
Charging indicator not showing	Low visibility in bright light or LED issue	Observe in a dark room; contact support if LED never lights up
Clip feels loose or wobbly	Overuse or worn spring	Gently adjust or contact for replacement if stability is compromised
Light head stiff or not rotating	Overextension beyond limit	Avoid rotating beyond 135° as specified; reposition gently
Uneven brightness between LEDs	Potential LED failure	Contact support for product replacement or repair
Stepless dimming not working	Button press duration not correct	Ensure a long press is held for smooth dimming function

PROS & CONS

Pros:

- Blocks harmful blue light with amber mode.
- Long battery life—up to 80 hours.
- Lightweight, compact, and portable.
- Three adjustable color temperatures with stepless dimming.
- Doubles as a flashlight, bookmark, or emergency light.

Cons:

- Limited to clip-on usage.
- Must handle light head gently to avoid damage.
- Charging indicator may be too dim in bright rooms.
- Requires USB access for charging.
- Not water-resistant.

WARRANTY

The Akomid AK-001 Reading Light is backed by standard manufacturer support, ensuring quality and functionality. While it does not include a written extended warranty, Akomid provides responsive customer service for assistance with defects, replacements, or product-related inquiries. Users are encouraged to reach out for any issues to ensure complete satisfaction with their purchase.

FREQUENTLY ASKED QUESTIONS

How many color temperature modes does the Akomid AK-001 offer?

The Akomid AK-001 provides 3 color temperature modes: amber light (1400-1800K), amber + cool white (2200-3400K), and cool white (6000-7000K), allowing users to adjust based on their preference.

How long does the Akomid AK-001 last on a full charge?

The Akomid AK-001 offers up to 80 hours of use on the lowest brightness setting, and up to 12 hours on the highest brightness setting, providing long-lasting light for reading and other activities.

How does the metal clip on the Akomid AK-001 work?

The Akomid AK-001 comes with a metal clip that opens up to 85 degree, making it compatible with most book sizes. It can also be adjusted for use as a bookmark.

What is the maximum angle for adjusting the light head of the Akomid AK-001?

The Akomid AK-001 has a light head that can be rotated up to (135 left, 135 right, and 62) degree downward, providing flexible lighting angles.

How do I charge the Akomid AK-001 Rechargeable Reading Light?

The Akomid AK-001 is USB rechargeable, with a 500mAh lithium battery. When charging, the blue indicator light will illuminate, and it will turn off once fully charged.

What should I do if the Akomid AK-001 does not turn on after charging?

If the Akomid AK-001 does not turn on, check for a faulty connection in the charging port or a damaged battery. Try using a different charging cable or recharging the light.

How do I adjust the brightness of the Akomid AK-001?

To adjust the brightness on the Akomid AK-001, short press the button to cycle through the color temperatures, and long press the button to adjust the brightness level from 5 to 100 percent
