CubicFun MC211h

CubicFun 3D Puzzle: Esztergom Basilica Saint Adalbert Cathedral (Model MC211h) Instruction Manual

Model: MC211h | Brand: CubicFun

Introduction

This manual provides comprehensive instructions for assembling the CubicFun 3D Puzzle of the Esztergom Basilica Saint Adalbert Cathedral. Please read all instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience. This puzzle is designed to enhance concentration, patience, problem-solving skills, spatial awareness, logical thinking, and pattern recognition.

Safety Information

WARNING: CHOKING HAZARD - Small Parts.
Not suitable for children under 3 years due to small parts which could be swallowed. Adult supervision is recommended during assembly, especially for younger users. Keep all packaging materials away from children.

Package Contents

Before starting, verify that all components are present in the package:

- 111 x Puzzle Pieces (made of plastic)
- 1 x Instruction Manual

If any pieces are missing or damaged, please contact CubicFun customer support.

Setup: Assembly Instructions

Follow these steps to assemble your 3D puzzle. Refer to the diagrams in the instruction manual included in the box for visual guidance.

1. **Unpack Components:** Carefully remove all puzzle sheets from the packaging. Identify the different sheets,

usually labeled with numbers or letters.

2. **Identify Pieces:** Each puzzle piece is numbered. Match the numbers on the pieces with the corresponding numbers in the instruction manual's diagrams.
3. **Start with the Base:** Begin by assembling the base structure of the basilica. This typically involves larger, foundational pieces.
4. **Follow Numerical Order:** Assemble the puzzle pieces in the numerical order indicated in the manual. This ensures the correct construction sequence.
5. **Connect Pieces:** Gently push the tabs of one piece into the slots of another. Ensure a snug fit without forcing, which could damage the pieces.
6. **Build Layers:** Construct the model layer by layer, following the architectural details of the Esztergom Basilica. Pay attention to the orientation of each piece.
7. **Complete Details:** Attach smaller decorative elements and roof sections as you progress.
8. **Final Check:** Once all pieces are assembled, review the model to ensure all connections are secure and the structure is stable.

Image: The fully assembled CubicFun 3D Puzzle of the Esztergom Basilica Saint Adalbert Cathedral, showcasing its intricate details and architectural design. The model measures approximately 38 cm in length, 32 cm in width, and 27 cm in height.

Operating: Display and Enjoyment

Once assembled, your CubicFun 3D puzzle is ready for display. Place it on a stable, flat surface where it can be admired. This model serves as an educational tool and a decorative piece, perfect for desks, shelves, or display

cabinets.

- **Educational Value:** Use the model to learn about the architecture and history of the Esztergom Basilica.
- **Display:** Position the model in a prominent location to showcase your accomplishment.

Maintenance

To keep your 3D puzzle in excellent condition:

- **Cleaning:** Gently dust the model with a soft, dry cloth or a soft brush. Avoid using water or chemical cleaners, as these may damage the plastic material or printed details.
- **Storage:** If disassembling for storage, keep pieces organized to prevent loss. Store in a cool, dry place away from direct sunlight to prevent material degradation or fading.
- **Handling:** Handle the assembled model with care to avoid accidental breakage of delicate parts.

Troubleshooting

Missing or Damaged Pieces:

If you find any pieces missing or damaged upon opening the package, please contact CubicFun customer support with your product model number (MC211h) and a description of the issue. Do not attempt to force damaged pieces together.

Difficulty Assembling:

Ensure you are following the numerical sequence in the instruction manual. Double-check the orientation of pieces. If a piece does not fit easily, do not force it; re-examine the manual for the correct placement.

Model Instability:

Verify that all connections are secure. Sometimes, a piece may not be fully pushed into its slot. Review the base and foundational layers first, as instability often originates there.

Specifications

Model Number:	MC211h
Brand:	CubicFun
Product Name:	3D Puzzle: Esztergom Basilica Saint Adalbert Cathedral
Number of Pieces:	111
