R20K Wall Mount SIP Video Door Phone with Numeric Keypad

Unpacking

Before you begin using the device, please check the version you got and ensure that the following items are included in the shipped box:

Mainframe Accessories (Please find in device box) :

R20K x 1

Back cover x 1

Cable locking plate x 1

Rope x 1

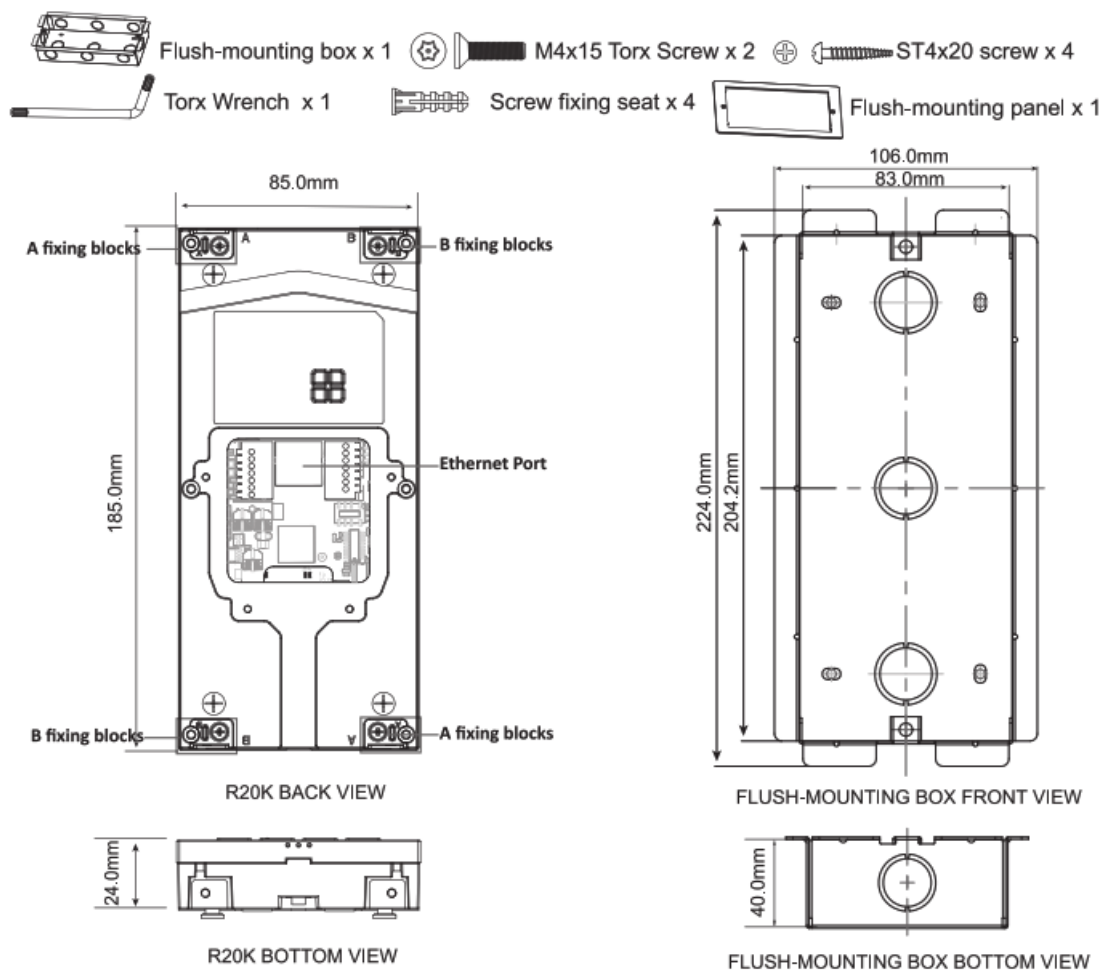

Rubber Plug x 3 (S,M,L)

M2.5x6 screw x 6

Flush – mounting Accessories:

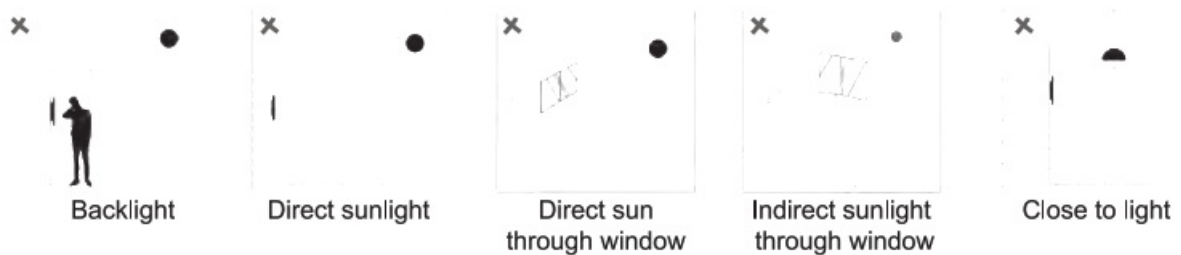

Installation Environment

Indoor and outdoor installation are supported.

If installing the device outdoors, please don't place device under direct sunlight, it will bring a bad effect or be broken with the high temperature.

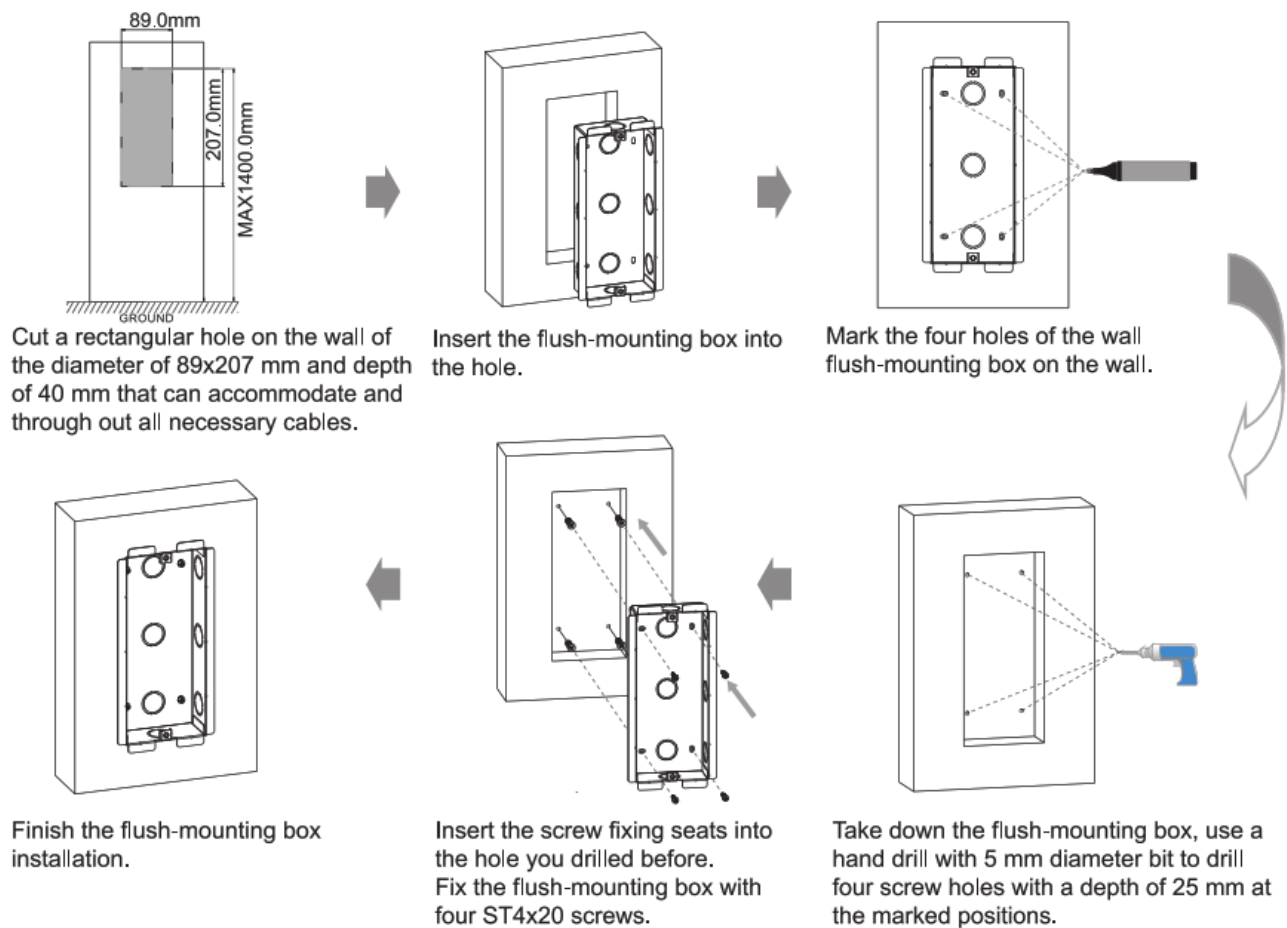

If installing the device indoors, please keep device at least 2 meters away from light, and at least 3 meters away from window and door .

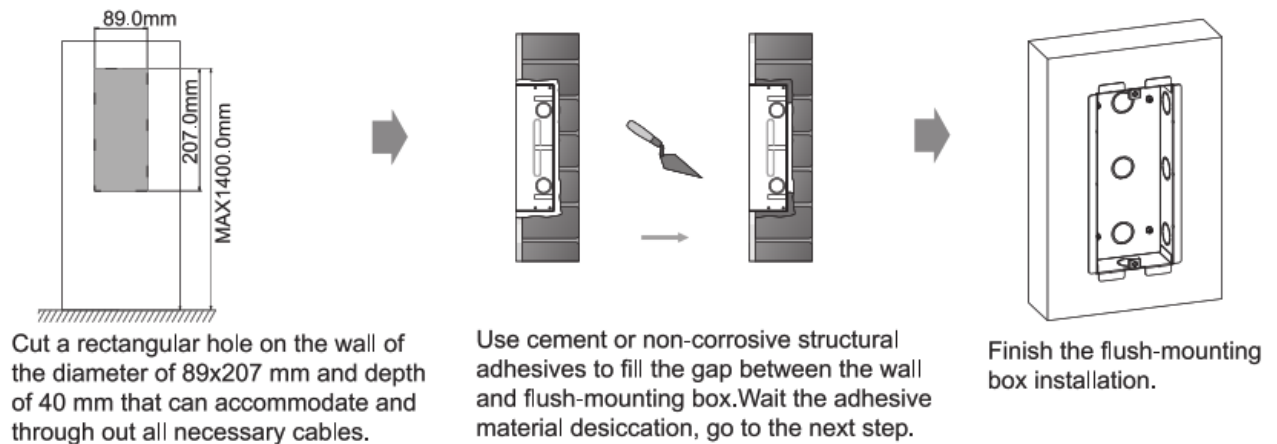

Flush-mounting Installation

Step1: Flush-mounting Box Installation

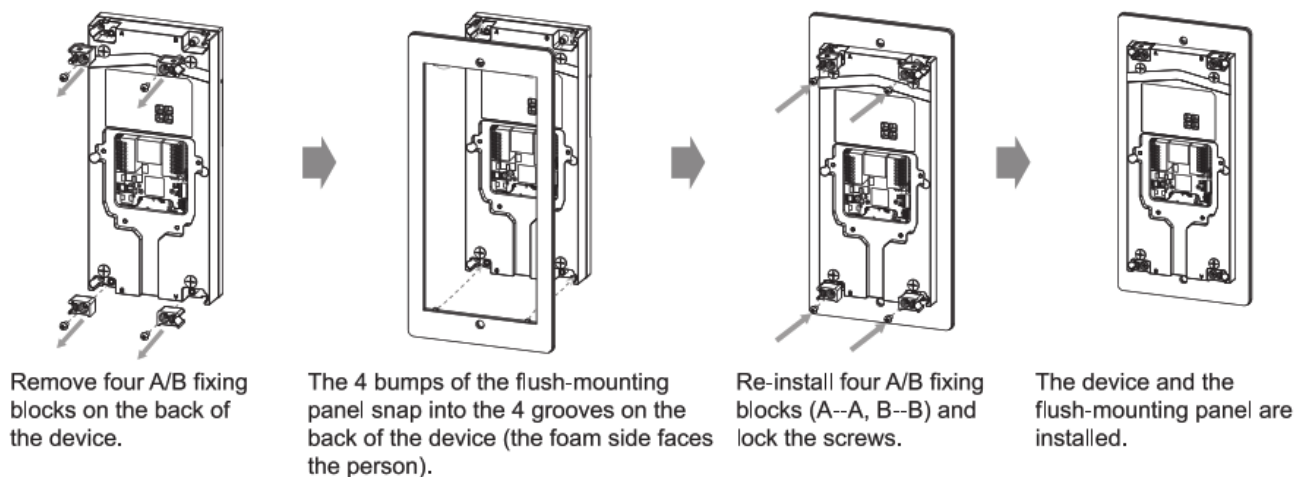

1. Normal Installation

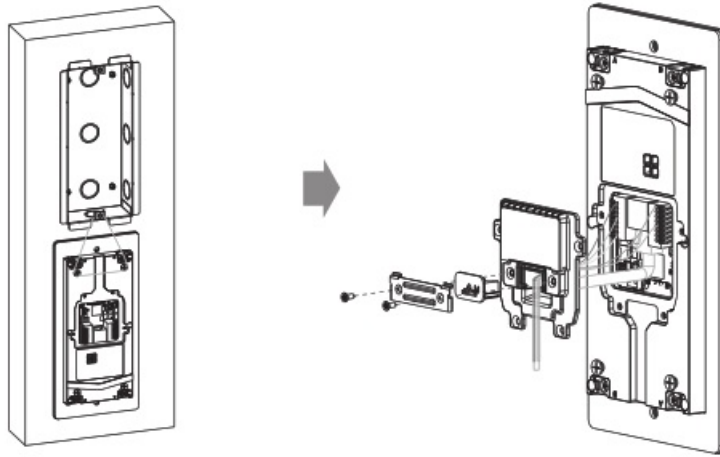

2. Or you can choose another simple method without fixing ST4x20 screws

Step2: Flush-mounting panel installation

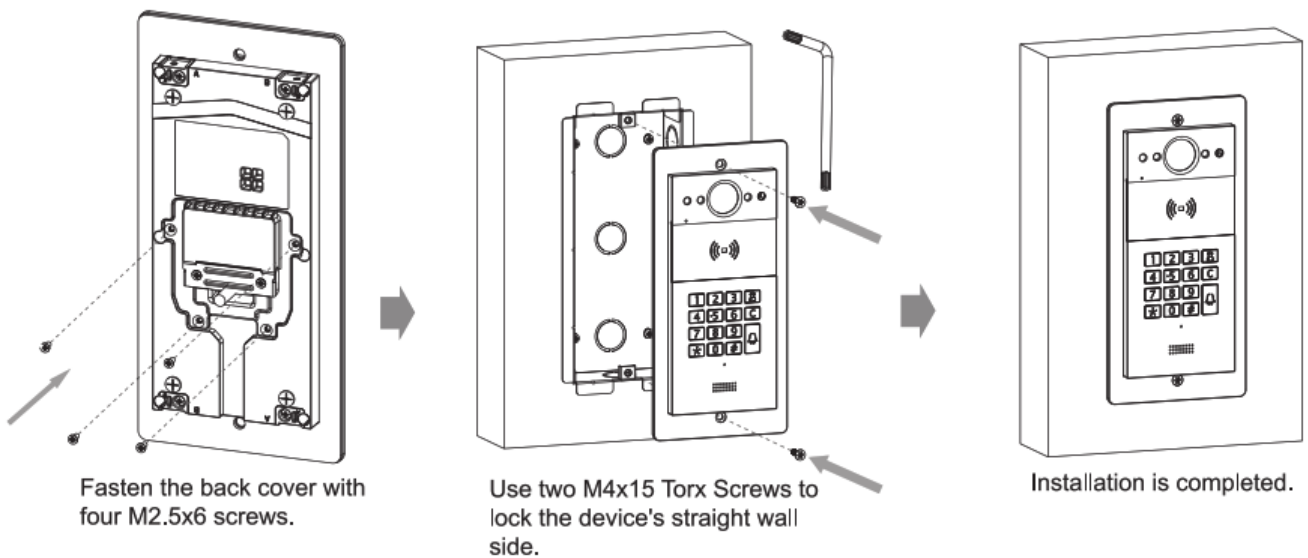

Step3: Back Cover Installation

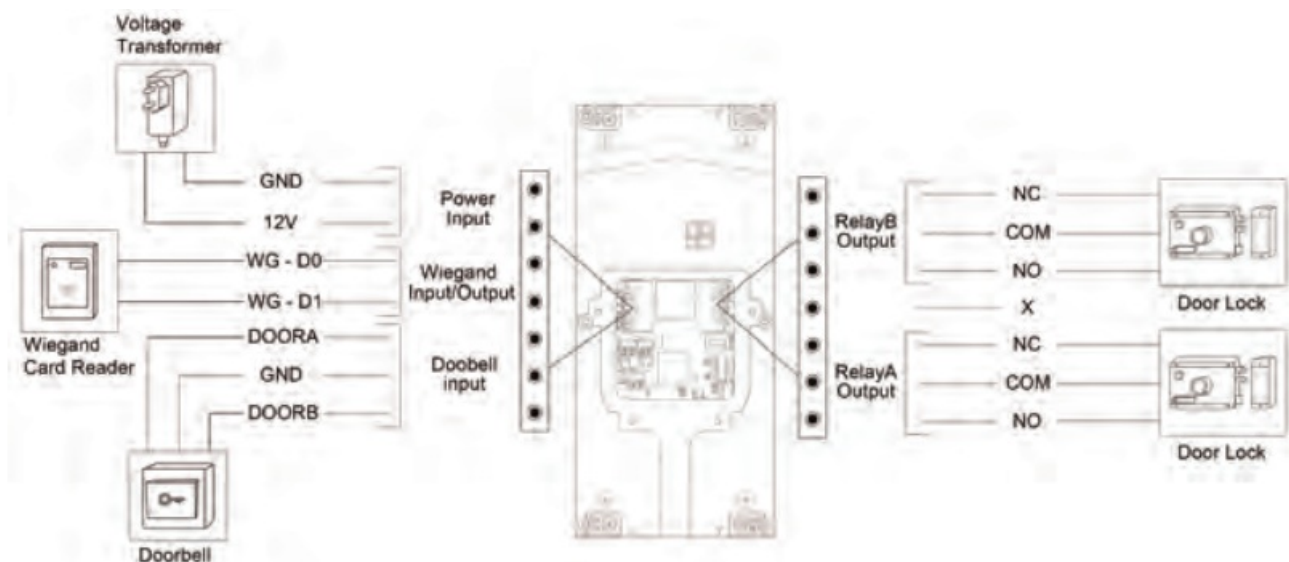

For convenient wiring, hang R20K on the flush-mounting box with rope.

Make cables go through the back cover, connecting to the corresponding interfaces of the main board. Select a suitable size rubber plug to push all the cables into the back cover. Fix cable locking plate to the back cover with two M2.5×6 screws,

Note: In the case of less than 6 signal cables, use S-size rubber plugs. In the case of 7 to 10 signal cables, use M-size rubber plugs. When there are more than 11 signal cables Please use L-size wiring rubber plug.

Device Wiring
