LISEN 2E7130

LISEN Retractable Car Charger Instruction Manual

Model: 2E7130 | Brand: LISEN

1. Product Overview

The LISEN Retractable Car Charger is a versatile 69W USB car accessory designed for efficient charging of multiple devices. It features dual retractable cables (Lightning and USB-C) and additional USB-A and USB-C ports, providing a comprehensive charging solution for various smartphones, tablets, and small electronics. Its compact design and 180° rotatable plug ensure a tidy and adaptable fit in most vehicle cigarette lighter sockets.

Figure 1: LISEN Retractable Car Charger with cables extended, showcasing its compact design.

This image displays the LISEN Retractable Car Charger in its operational state, with both the Lightning and USB-C retractable cables fully extended. The charger itself is a sleek, grey rectangular unit designed to fit into a car's 12V cigarette lighter socket. The image highlights the integrated cable management system, which helps keep the car interior organized by eliminating loose cables.

2. Setup and Installation

1. **Locate Vehicle Power Outlet:** Identify a standard 12V car cigarette lighter socket in your vehicle. Ensure there is approximately 3 inches of fan-shaped clearance around the socket for optimal rotation.
2. **Insert the Charger:** Firmly insert the LISEN Retractable Car Charger into the 12V power outlet. The charger is designed for a secure fit.
3. **Adjust Angle (Optional):** The charger features a 180° rotatable plug. Gently rotate the main body of the charger to your desired angle for convenient access and to minimize obstruction.
4. **Verify Power:** Once properly inserted, a blue LED indicator light on the charger will illuminate, confirming that it is receiving power and is ready for use. Note: The charger requires the vehicle's ignition to be on to function.

Figure 2: Charger installed in a car's 12V power outlet.

This image shows the LISEN car charger securely plugged into a vehicle's 12V power outlet, located within the center console. The charger's compact form factor is evident, designed to integrate seamlessly into the car's interior without protruding excessively. The blue indicator light is visible, signifying that the device is powered on and ready to charge.

Figure 3: 180° Rotatable Plug for flexible positioning.

This image illustrates the 180-degree rotatable feature of the LISEN car charger. The main body of the charger can pivot relative to its 12V plug, allowing users to adjust its orientation to best suit their vehicle's interior layout and access needs. This flexibility helps prevent obstruction of other controls or cup holders.

3. Operating Instructions

Using Retractable Cables:

1. **Extend Cable:** Gently pull the desired cable (Lightning or USB-C) from its housing. The cable extends up to 31.5 inches (approximately 2.6 feet).
2. **Connect Device:** Plug the cable into your compatible smartphone, tablet, or other electronic device.
3. **Retract Cable:** To retract the cable, pull it gently an additional 1 cm (approximately 0.4 inches) further out, then release. The cable will automatically retract back into the charger's housing. Ensure to pull gently to avoid damage to the retraction mechanism.

Figure 4: Retraction Instruction for integrated cables.

This diagram visually explains the proper method for retracting the integrated charging cables. It shows a hand gently pulling the cable slightly

further out before releasing it, which allows the internal mechanism to smoothly pull the cable back into the charger's body. This ensures the cables remain tidy and protected when not in use.

Using Additional USB Ports:

- The charger includes a 30W PD USB-C port and a 12W USB-A port.
- Simply plug your own USB-C or USB-A charging cable into the respective port on the charger.
- These ports allow for simultaneous charging of up to four devices when combined with the retractable cables.

Figure 5: Charging multiple devices simultaneously.

This image demonstrates the multi-device charging capability of the LISEN 4-in-1 car charger. It shows the charger in a car, with various smartphones and tablets connected and charging simultaneously, highlighting its efficiency in powering multiple gadgets during travel. The image also indicates the power distribution across different ports.

4. Features

- **4-in-1 Charging Solution:** Integrates two retractable cables (Lightning and USB-C) and two additional ports (USB-A and USB-C) for comprehensive device compatibility.
- **High Power Output:** Delivers up to 69W total power, including a 30W Power Delivery (PD) USB-C port and a 12W USB-A port, supporting fast charging protocols like QC4, PD3.0, DCP, Samsung fast charging, PPS, and Apple 2.4A.
- **Retractable Cables:** Cables extend up to 31.5 inches (approx. 80 cm) for flexible use and retract neatly for clutter-free storage.
- **180° Rotatable Plug:** Allows for flexible positioning within the car's 12V cigarette lighter socket, adapting to various vehicle interiors.
- **Durable Construction:** Features a military-grade stable and shockproof structure, ensuring stable charging even on bumpy roads.
- **Broad Compatibility:** Compatible with a wide range of devices including iPhone 16/15/14/13/12 models, Android Samsung devices, tablets, and other small electronics.
- **Safety Certifications:** Passed certifications such as FCC SDOC, CE-EMC, ROHS-CE, REACH SVHC 240, and UL.

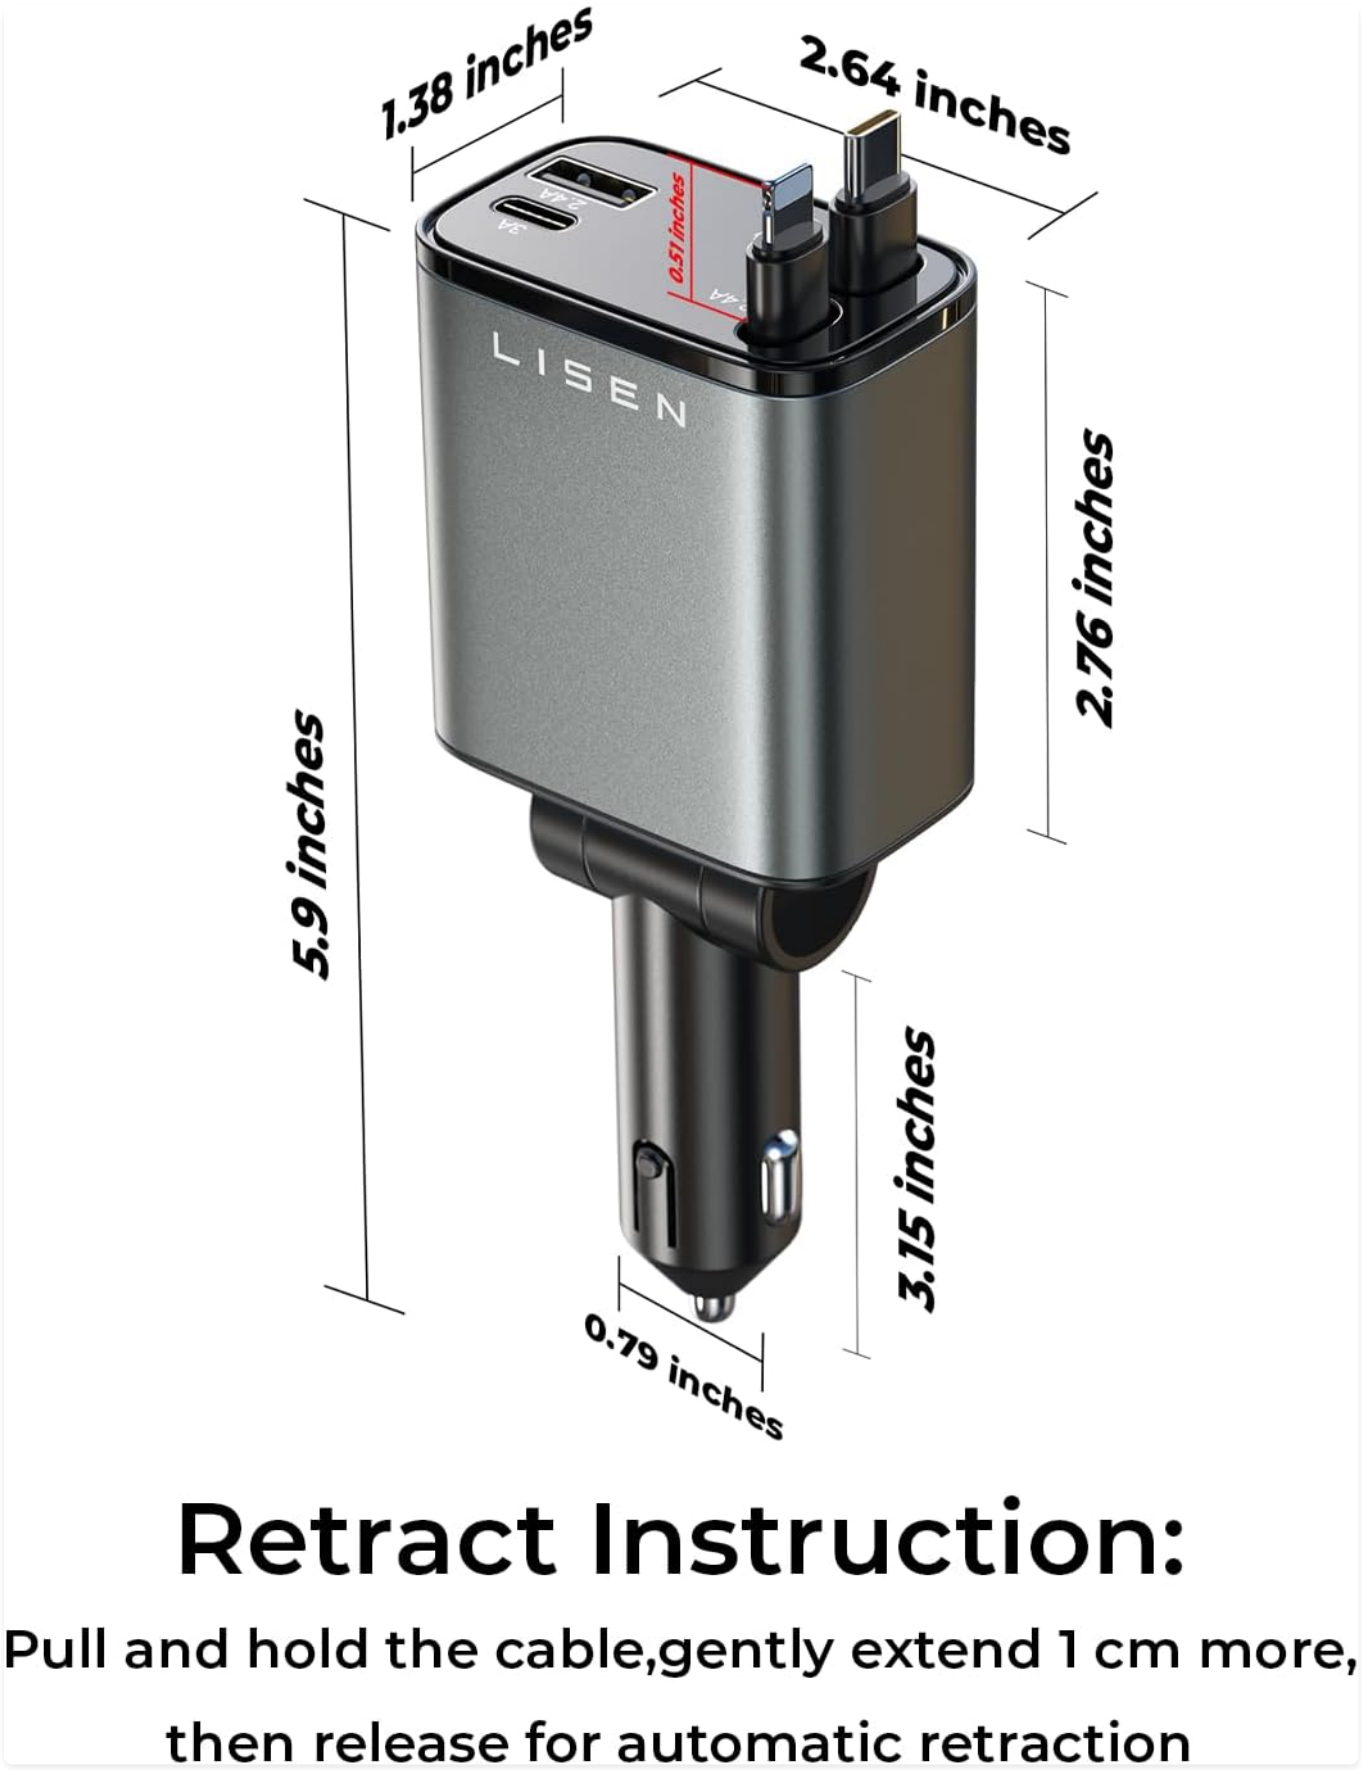

Figure 6: Product Dimensions.

This image provides a detailed view of the LISEN Retractable Car Charger's dimensions, including its length, width, and height. The measurements are clearly labeled, offering precise information for users to assess its fit within their vehicle's console or dashboard area. The compact size is highlighted, emphasizing its space-saving design.

5. Maintenance

To ensure the longevity and optimal performance of your LISEN Retractable Car Charger, follow these simple maintenance guidelines:

- **Cleaning:** Use a clean, soft cloth to gently wipe the exterior of the car charger and the retractable cords.
- **Avoid Chemicals:** Do not use chemical cleaners or abrasive materials, as these can damage the product's finish or internal components.
- **Moisture:** Avoid excessive moisture. Do not submerge the charger in water or expose it to heavy rain.
- **Cable Care:** When retracting cables, always follow the instruction to pull gently an additional 1 cm before releasing to prevent damage to the retraction mechanism. Avoid forcing the cables.

6. Troubleshooting

Q: Does this product support connection to laptops or the CarPlay system?

A: The LISEN Retractable Car Charger does not support CarPlay connections. It is designed for low-power devices like smartphones and tablets. Due to higher power requirements, it is not suitable for laptops, as they exceed the capabilities of most vehicle charging systems. However, the LISEN development team is actively working on solutions to address diverse charging needs, including potential high-power car charging options. Stay tuned for future versions that may support more powerful electronics.

Q: What charging protocols does the LISEN 4 in 1 Retractable Car Charger support?

A: The LISEN 4 in 1 Retractable Car Charger supports QC4, PD3.0, DCP, Samsung fast charging, PPS, and Apple 2.4A protocols, ensuring quick and efficient charging for various devices. It has also passed certifications such as FCC SDOC, CE-EMC, ROHS-CE, REACH SVHC 240, and UL, confirming compliance with safety and performance standards. This makes it a reliable choice for staying connected on the road.

Q: What are the main features of the 4 in 1 retractable car charger?

A: The 4 in 1 retractable car charger includes four charging ports: iPhone Cable, USB-C, and Micro-USB, compatible with most modern devices, including iPhones and other electronic accessories.

Q: What devices are supported by this car charger?

A: iPhone 16/15/14/13/12/X/XS/XR/8/SE Pro Pro Max Mini Samsung.

Q: How long is the retractable cord?

A: The retractable cord extends up to approximately 2.6 feet, offering flexibility for car organization and usage in various positions.

Q: Does this car charger support fast charging?

A: This car charger supports fast charging if your device and the car charger are both compatible with fast charging protocols.

Q: Will the car charger heat up during use?

A: It is normal for the car charger to experience slight heating during use. If it becomes excessively hot or shows unusual heat, please stop using it immediately and check the connections.

Q: How should I clean the car charger and cord?

A: Use a clean, soft cloth to gently wipe the car charger and cord. Avoid using chemical cleaners or excessive moisture to prevent damage to the product.

Q: Is this car charger compatible with all types of vehicles?

A: The car charger is designed to be universal, but it may not be suitable for vehicles with very narrow or angled cigarette lighter ports, such as those located in tight spaces or at sharp angles.

Q: What should I do if there is an issue with the car charger?

A: If you experience issues with your car charger, first ensure all connections are secure and inspect the cord for damage. Should the problem continue, reach out to the Lisen team directly. We'll promptly troubleshoot further or facilitate a seamless

return/replacement to get you back on track.

7. Specifications

Feature	Detail
Product Dimensions	2.19 x 1.33 x 5.35 inches
Item Weight	5.9 ounces
Model Number	2E7130
Brand	LISEN
Connectivity Technology	USB
Connector Type	USB Type C, USB Type A
Input Voltage	12 Volts
Mounting Type	Car Cigarette lighter
Special Features	Travel, Multi Device Charging, Automatic Off, Retractable Plug, Fast Charging
Included Components	4 in 1 Retractable Car Charger

8. Warranty and Support

The LISEN Retractable Car Charger comes with a **2-year warranty**. For any product-related inquiries, technical assistance, or warranty claims, please contact the LISEN customer support team directly through the retailer's platform or the official LISEN website. Ensure to provide your purchase details for efficient service.
