Unpacking

Before you begin using the device, please check the version you got and ensure that the following items are included in the shipped box:

- Rotary bracket x1

- M4X10 crosshead screw x5

Installation

As figure shown, mark four screw holes on the position that according to the cable place. The horizontal distance of two holes should be 50 mm, and the vertical distance of two holes should be 180 mm. Then use a hand drill with a diameter of 6 mm to drill the four marked holes with a depth of 20 mm.

Insert the four plastic wall anchors into the drilled holes.

Rotate right in 30 degrees

Or
Rotate left in 30 degrees

Rotate right 30 degrees

Or
Rotate left in 30 degrees

Place the rotary bracket closely against the wall while lining up its four holes with their corresponding drilled holes. And then fasten the rotary bracket on the wall by tightening four ST4x20 crosshead screws to the plastic wall anchors.

Fix wall-mounting bracket with five M4x10 crosshead screws on the rotary bracket.
