akyga HDMI Cables Display Port

Specifications

- **Product:** HDMI Cables
- **Color:** Green
- **Manufacturer:** EC BOX
- **Website:** www.akyga.com
- **Compliance:** RoHS Directive (2002/95/EC)
- **Intended Use:** Domestic use, indoors

Description

The cable Akyga® AK-AV-05 1.8m long allows to connect a monitor, projector or TV with HDMI input to a laptop or computer with DisplayPort output. The signal transmission is possible only one way, from DisplayPort to HDMI. The cable supports HDMI 2.0 technologies which guarantees high quality of transmitted audio and video.

Features

- Product code AK-AV-05
- Product type Audio-video cord
- Series HDMI
- Responsible Entity Akyga Europe Sp. z o.o., 52-200 Suchy Dwór, Wrocławska 1c, Polska/Poland, contact@akyga.com
- Directivity Display Port -> HDMI
- Cable length 1.8 m
- The cable plug #1 Male connector HDMI

- The cable plug #2Male connector DisplayPort
- Plated plugsYes – golden plated
- MaterialABS
- Product colorBlack
- PackageUniBag
- Product size (L x W x H)200 x 150 x 20 mm
- Package size (L x W x H)250 x 180 x 21 mm
- Net weight114.6 g
- Gross weight122.6 g
- EAN code5901720131195
- Warranty24 months

Product Usage Instructions

Safety Precautions:

1. Product heats up during operation. Avoid placing it in a restricted ventilation area to prevent overheating.
2. Do not allow the working cable to touch soft surfaces like pillows, blankets, or clothing.
3. Avoid touching electrical outlets, wires, and electronic circuits to prevent electrostatic discharge that can damage components.

Usage Guidelines:

1. Keep the product and packaging out of reach of children and animals.
2. Do not subject the product to mechanical loads like strong shocks, impacts, dropping, or crushing.
3. Avoid operating the product in adverse conditions such as direct sunlight, extreme temperatures, vibrations, high humidity, or exposure to gases, dusts, or liquids.

Maintenance:

- If the product is damaged, not functioning correctly, or stored in unfavorable conditions for an extended period, discontinue use and protect it to prevent safety hazards.
- Avoid touching the product with moist or wet hands and ensure the power cord is not damaged.

Symbols explanation:

-  There is a particular danger connected with service.
-  There is a risk of losing health or life (e.g. by electric shock).
- → Important tips and information.
-  The CE standard description on the product is the manufacturer's declaration that the marked product meets the requirements of the directive so-called The "New Approach" of the European Union (EU). For security and certification (CE) reasons, the device can not be rebuilt or change in any way. In the reason of

using the power supply for other purposes than those described, the product may be damaged. The incorrect use may also cause hazard such as short-circuits, burns, electric shocks, etc. Read the users manual carefully and keep it for later use. The product could be shared to third parties only with the user manual included.

- Product accordance with the EU directive 2002/96/EC. The symbol of the crossed-out basket placed on the product means that the marked product can not be disposed of with other household waste. After use, the product must be returned to collection point for used electrical and electronic equipment or to the seller.

Appropriate segregation of rubbish for subsequent processing, recovery or destruction contributes to avoiding negative effects on the environment and health, and also allows the recovery of raw materials from which the product is made.

- **RoHS** The RoHS mark on the product is the manufacturer's declaration that the marked product meets the requirements of the EU Restriction of Hazardous Substances (2002/95/EC) directive, which aims to reduce the amount of hazardous substances penetrating into the environment from electrical and electronic waste.

- The device is intended only for domestic use, indoors.

Safety

Precautions

- **WARNING!** Product heats up during operation. To reduce the risk of burns or overheating the power supply, do not place it in restricted ventilation area. Also, do not allow the working cable to touch soft surface such as pillows, blankets or clothing. The power supply meets the limits on the surface temperatures available to the user, as defined in the International Standard for Safety of Information Technology Equipment (IEC 60950).
- An electrostatic discharge occurs when two objects touch each other, for example, an electric charge that occurs when a user touches a metal door handle after walking on a carpet. Discharging electrostatic charges from fingers or other electrostatic conductors can damage electronic components. To avoid damaging the computer, abstain from touching electrical outlets, wires and electronic circuits. The user's contact with electronic components should be kept to a minimum.

The manufacturer of the product is not responsible for damage or insults caused in effect of disobeying the safety instructions and informations contained in this user manual.

- Keep the product and the packaging out of range of children and animals. The package includes a foil that a child could choke while playing.
- It is forbidden to apply the mechanical load to the product – strong shocks, impacts, dropping or crushing may cause its damage.
- The product operation in adverse conditions is not allowed. Adverse conditions are primarily: exposure to direct sunlight, high or very low ambient temperatures, strong vibrations, high humidity, surrounds of gases, dusts or flammable and aggressive liquids.
- If the product has been damaged, does not work properly or has been stored for a long period of time in bad or unfavorable conditions, safe operation of the device is not possible. It is essential to stop using the product and to protect it against re-use for security purposes.

- Product should not be touched with moist or wet hands under no circumstances.
- Make sure that the power cord is not crushed, bent, twisted, rubbed against sharp edges or mechanically loaded in any other way. Avoid thermal load of the cable – in particular keep away from heat sources (such as stoves, radiators, fireplaces).
- Power cords should be laid in such a way as to eliminate the risk of stumbling or hooking over.
- Its forbidden to modify the power cord. In the case of modifications, the cable may be damaged, causing threats to life, health and property.
- In case of any doubts regarding operation, safety or connection of the product, please contact the manufacturer or a qualified specialist for this purpose.
- All maintenance, adjustment and repair work on the product may only be carried out by a qualified person in a specialist facility.
