JUSTHERO Lightweight Foldable Intelligent Electric Wheelchair

JUSTHERO Lightweight Foldable Intelligent Electric Wheelchair User Manual

Comprehensive user manual for the JUSTHERO Lightweight Power Wheelchair, covering setup, operation, safety, maintenance, and specifications for adults.

Introduction

This manual provides essential information for the safe and effective operation, maintenance, and care of your JUSTHERO Lightweight Foldable Intelligent Electric Wheelchair. Please read this manual thoroughly before using the wheelchair to ensure proper understanding and to prevent injury or damage.
Brand: JUSTHERO
Model: Lightweight Foldable Intelligent Electric Wheelchair

Safety Information

Always prioritize safety when operating the electric wheelchair. Adhere to the following guidelines:

- Ensure the power is off and brakes are engaged before transferring in or out of the wheelchair.
- Avoid turning off power directly when going uphill to prevent sliding. Always engage hand brakes first.
- Do not hang heavy items on the joystick, as this can cause damage.
- Do not step directly on the footrest when getting off the wheelchair. Place both feet on the ground first.
- Always wear a seatbelt when operating the wheelchair.
- Be aware of your surroundings and avoid obstacles.
- Do not exceed the maximum weight capacity of 350 LBS.

Important Safety Videos

Video: Shows the correct method for dismounting the wheelchair by placing feet on the ground first, rather than

stepping on the footrest.

Setup and Assembly

Your JUSTHERO electric wheelchair comes pre-assembled. Follow these steps to prepare it for use:

1. Carefully remove the wheelchair from its packaging.
2. Before opening, ensure the control joystick is placed on the ground to prevent accidental falling.
3. Open the footrest and expand the wheelchair frame until it locks into place.
4. Flip up the backrest to secure it.
5. Place the seat cushion onto the seat.
6. Install the control joystick by tightening the screw.
7. Attach the battery and connect the cables.
8. Retrieve the two anti-tip wheels from the bag at the back of the wheelchair and install them.

Components Overview

Familiarize yourself with the main components of your electric wheelchair:

- **360-Degree Joystick:** Provides flexible control for movement and speed adjustment. Features power on/off, speed reduction/increase, speed display, horn, and battery display.
- **Liftable Armrests:** Allow for easier transfers and closer access to tables.
- **Foldable Footrest:** Can be folded for compact storage and transport.
- **Anti-Tip Wheels:** Located at the rear, these wheels enhance stability and prevent overturning, especially on inclines or uneven terrain.
- **Dual 250W Motors:** Provide powerful and reliable propulsion.
- **12AH Lithium Battery:** Offers a travel range of up to 20 miles on a full charge.
- **Handbrake:** For additional safety and secure stopping.

Operating Instructions

Operating your electric wheelchair is intuitive with the 360-degree joystick. Ensure the battery is charged and all components are securely in place before operation.

Switching Between Electric and Manual Modes

The wheelchair can be operated in both electric and manual modes. To switch between modes:

- **Manual to Electric:** Turn on the power on the control joystick.
- **Electric to Manual:** Turn off the power on the control joystick and wait approximately five seconds. The wheelchair can then be pushed manually.

Video: Demonstrates how to seamlessly switch the wheelchair between electric and manual operating modes.

Driving and Maneuvering

- Use the joystick to control direction and speed. The wheelchair has 5 levels of speed adjustment.
- The small turning radius allows for easy maneuvering in tight spaces.
- The wheelchair is suitable for various terrains, including bumpy roads, parks, and indoor environments.
- Maximum operating slope is 9°.

Suitable for All Terrains to Meet Your Daily Needs

9° Climbing Gradient

Electric wheelchair's maximum operating slope is 9°, satisfying the needs of daily life.

Image: Illustrates the wheelchair's ability to handle a 9-degree climbing gradient, suitable for daily life needs.

Folding and Portability

The JUSTHERO electric wheelchair features a one-step folding design for easy transport and storage.

1. Remove the seat cushion.
2. Fold the backrest down.
3. Press the button to lift the armrests.
4. Fold the footrest effortlessly.
5. Collapse the wheelchair frame.

Once folded, it can be easily stored in vehicle trunks or other compact spaces.

Video: Demonstrates the simple process of folding and unfolding the electric wheelchair for convenient storage and transport.

Image: The compact, folded electric wheelchair fitting into a car trunk, illustrating its portability.

Battery and Charging

The wheelchair is powered by a 12AH lithium battery, providing a travel range of up to 20 miles. Charging time is approximately 7 hours.

- Connect the charger to the controller for charging.
- Ensure the charger is connected to a suitable power outlet.
- Monitor the battery display on the joystick for charge status.

Maintenance

Regular maintenance ensures the longevity and optimal performance of your electric wheelchair:

- Keep the wheelchair clean and dry. Wipe down surfaces with a damp cloth.
- Regularly check tire pressure (if applicable for pneumatic tires) and inspect for wear.
- Ensure all screws and fasteners are tight.
- Inspect battery connections for corrosion or damage.
- Store the wheelchair in a cool, dry place when not in use.

Specifications

Feature	Detail
Max Load Capacity	350 LBS
Motors	2 x 250W
Battery	12AH Lithium Ion (included)
Travel Range	Up to 20 miles
Charging Time	7 hours
Max Speed	5.5 MPH
Max Operating Slope	9°
Material	Alloy Steel
Brake Style	Hand brake
Package Dimensions	39 x 24.5 x 13.5 inches
Weight	64.7 Pounds

Size
