## In the Box

Web camera with built-in USB cable & privacy shutter and attached monitor mount

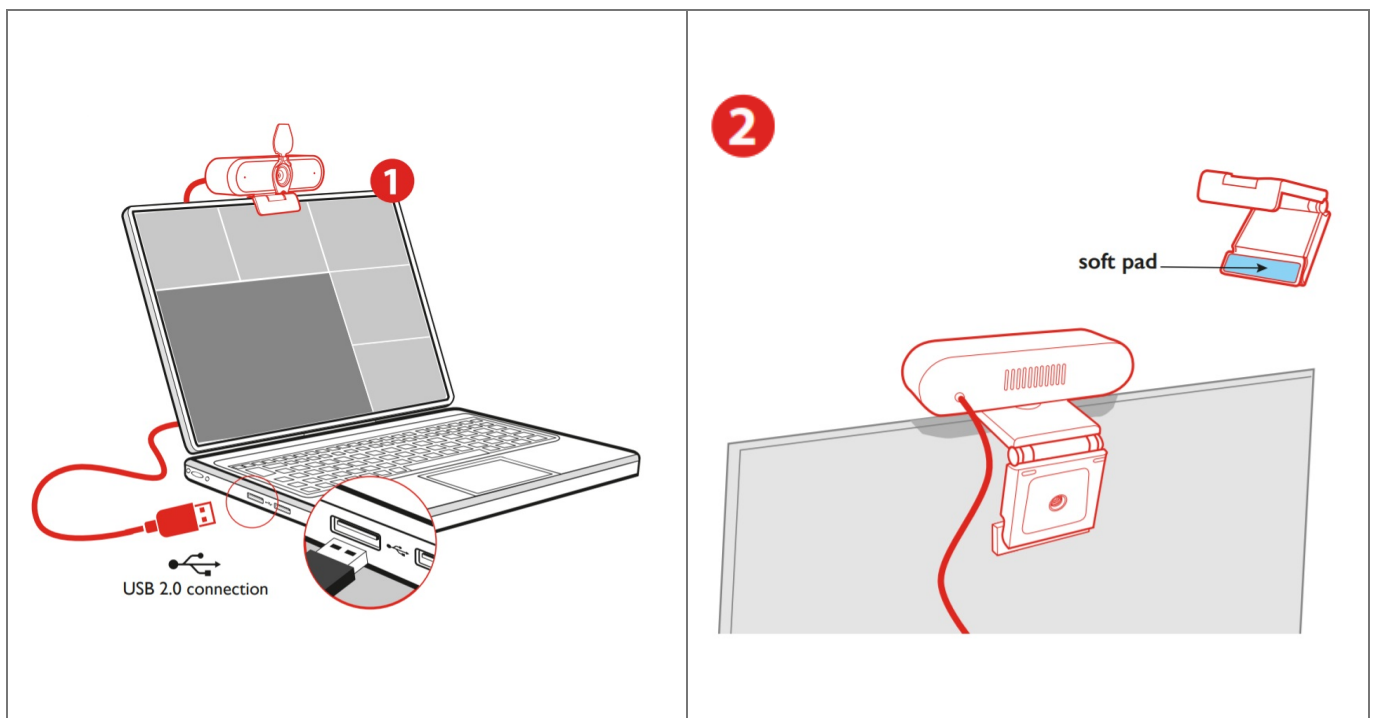

Flexible Tripod Stand

Quick Start Guide

## Easy Installation

1. Plug the cable from the back of the camera into the USB port of your laptop, or monitor.

2. Place front monitor mounts on the front edge of the monitor, or laptop screen.

Then, adjust the monitor mount backing as needed to the angle of the monitor.

Once positioned in place, the soft pad should rest against your monitor.

### 3. Plug & Play Installation

No need for software drivers or additional software installation, your camera supports all UVC standards, it will run by itself automatically. (Compatible with Mac OS 10.10 and higher, Windows 7, 8, 10, Chrome, and Android)

**NOTE:** On certain applications, you might have to select the camera.

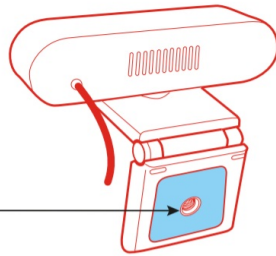

If asked, choose the following: "UVC Camera".

Then, your webcam should work automatically.

#### 4. **Flexible Tripod**

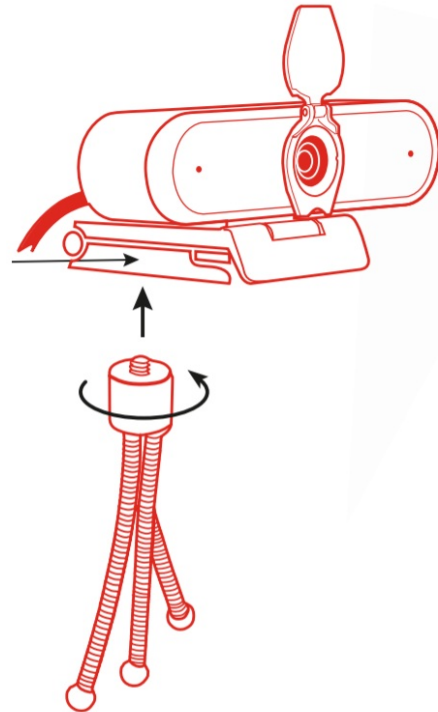

On the bottom of the monitor mount is a

*1/4"-20 standard tripod threaded hole.*

Fold monitor mount flat against webcam.

Then, the screw tripod stands into the threaded hole in the clockwise direction.
