CKGO-12-G

Generic CKGO Portable Ice Maker Machine User Manual

Model: CKGO-12-G

Introduction

The Generic CKGO Portable Ice Maker Machine is designed to provide a convenient and efficient way to produce ice for various settings, including homes, offices, bars, and outdoor activities. This compact and lightweight appliance can produce 9 ice cubes in approximately 6-10 minutes, with a 1.3L water tank capacity and storage for up to 60 ice cubes. It features smart sensor technology for alerts and an automatic self-cleaning function for easy maintenance.

Important Safety Information

Upon receiving the product, it is crucial to allow the machine to stand upright for at least 4 hours before plugging it in or using it. This allows the refrigerant to settle properly, ensuring optimal performance and preventing potential damage.

Setup

1. Unpack the ice maker and all accessories.
2. Place the machine on a stable, level surface, ensuring adequate ventilation around it.

3. Allow the unit to stand upright for 4 hours before plugging it into a power outlet.
4. Clean the interior of the ice maker before first use (refer to the Maintenance section).

Operating Instructions

Making ice with your CKGO ice maker is a simple process:

1. **Add Water:** Open the lid and manually pour clean water into the water tank up to the maximum fill line.
2. **Power On:** Plug the ice maker into a 110V power outlet. Press the power button to turn on the machine.
3. **Select Ice Size (if applicable):** The machine may offer adjustable ice cube sizes (e.g., small or large). Refer to the control panel for selection options.
4. **Ice Production:** The ice maker will begin its cycle. You can observe the ice-making process through the transparent window. Each cycle produces 9 bullet-shaped ice cubes in 6-10 minutes.
5. **Ice Full/Add Water Alerts:** The advanced infrared sensor technology will alert you when the ice basket is full or when the water level is low, indicating the need to add more water.
6. **Collect Ice:** Once ice is produced, use the provided ice scoop to remove cubes from the basket.

Image: A diagram illustrating the two adjustable ice cube sizes: approximately 25mm*20mm (refreshing thin ice) and 30mm*25mm (sturdy thick ice).

Maintenance

The CKGO ice maker features an automatic self-cleaning program for convenient maintenance:

1. **Initiate Self-Cleaning:** Ensure the machine is powered on. Press and hold the On/Off button for more than 5 seconds to activate the self-cleaning program.
2. **Cleaning Cycle:** The self-cleaning process takes approximately 30 minutes. During this time, the "S" and "L" indicators on the control panel will flash alternately.
3. **Drain Water:** After the cleaning cycle is complete, unplug the machine. Locate the drainage outlet at the bottom of the machine and drain all water from the inner tank.
4. **Regular Cleaning:** For optimal hygiene and performance, it is recommended to perform the self-cleaning function

regularly and to manually wipe down the interior surfaces as needed.

Troubleshooting

The CKGO ice maker is equipped with smart features to assist with common operational issues:

- **Ice Basket Full:** If the ice basket is full, the infrared sensor will detect it and alert you. Empty the ice basket to resume ice production.
- **Low Water Level:** When the water tank is running low, the machine will provide an alert. Add water to the tank to continue operation.

For any issues beyond these alerts, please refer to the product's official support channels.

Specifications

Model CKGO-12-G	**Ice size** Size ice adjustable
Rated VoltFrequency 110-120V/60Hz 220-240V/50Hz	**self-cleaning** Yes
Water injection mode Manually add water	**Water/Ice tank Storage** 1. 3L/60pcs
Quantity of ice cube 9pes per cycle	**Exterior** Plastic enclosure, plastic top
Ice cube shape Bullet	**Cycle of ice making** 6-12minutes
Ice full detecting Infared sensor	**Refrigerant** R600a
Control panel Soft touch, LED display	**Color** Black or White
Net/Gross Weight(KG) 6.3/6.9 kg	**Package size mm(WxDxH)** 315x256x330 mm
