3. Press MENU and enter 2- or 3-digit code.

4. Press MENU to confirm.

This telephone is built-in with Basic Call Block feature*. This feature will help you avoid nuisance calls by only allowing some numbers to make your phone ring. Default setting of Basic Call Block in this telephone is OFF but you can enable it via your phone settings, as explained in the following paragraphs.

- This feature requires a subscription of Caller Line Identification service from your telephone service provider.

CALL BLOCK OVERVIEW

Setting	Explanations
OFF	Call Block function (Block all call with numbers) is Disabled. This is the default mode.
ON	Call Block function is set to On. Numbers registered in the black list will not go through and the phone will ring silently. Numbers can be added to the list while the phone is ringing and/or after a call (to enable, see part 1).
ANONYM	This extra feature allows you to block call that do not have a number attached to them (ie private calls, international calls, etc). This option can be enabled on top of any of the previous two (to enable, see part 2)

Manual call block mode

Manual call block is the easiest option when starting out. When you chose ON in the call block settings, all calling numbers registered in your blacklist will be blocked. You can add/remove numbers from that list at any time.

How to block an incoming call:

When the phone is ringing and before answering, press will terminate the call and offer you the option to register the number to the blacklist in one click. Then to confirm the registration of this number in the blacklist, press .

IMPORTANT :

if you don't confirm, the number will not be added to the blacklist and the next call will go through normally.

Note:

When you have input number in AREA CODE menu, you should not need to include this area code number in the blocked number stored in Block list.

Enable MANUAL mode

- Press , press or to select CALL BLOCK.
- Press , press or to select BLOCK SET.
- Press , press or to select ON.

OR

In idle mode, press to access BLOCK SET. directly. After you enable this option, the call block icon will be displayed on the LCD.

Add numbers to Blacklist

In idle mode,

1. Press key, BLOCK SET. is displayed, or Press to press or to select CALL BLOCK, press to show BLOCK SET.
2. Press or to select BLOCKLIST.
3. Press , press or to select ADD, enter number to be blocked, press to save.

NOTE :

2 more ways to add incoming and outgoing call numbers in Block list:

1. From incoming call numbers

- Press , press or to select CALL LIST.
- Press , press or to select call list entry.
- Press , press or to select to ADD to BLIST.
- Press to show selected number, press to save to Block list.

2. From outgoing call numbers

- Press , press or to select redial list entry.
- Press , press or to select to ADD to BLIST.
- Press to show selected number, press to save to Block list.

Edit numbers in Blacklist

In idle mode,

1. Repeat step 1 and 2 in Section 1.2.
2. Press , press or to select EDIT, press or to select number to be edited, press to edit, and then press to save.

Delete numbers in Blacklist

Delete a number from blacklist

In idle mode,

1. Repeat step 1 and 2 in Section 1.2.
2. Press , press or to select DELETE, press or to select number to be deleted, press , CONFIRM? is shown, and then press to confirm.

Delete all numbers from blacklist

In idle mode,

1. Repeat step 1 and 2 in Section 1.2.
2. Press , press or to select DELETE ALL, press , CONFIRM? is shown, and then press to confirm.

Anonymous call block mode

This feature allows you to block numbers that do not display a number on your phone. It can be enabled or disabled independently from the previous call block modes.

- Press , press or to select CALL BLOCK.
- Press , press or to select BLOCK ANONYM.
- Press , press or to select one of the options

Block Private Calls

This mode will block incoming calls that have been purposely kept their numbers private from you.

In idle mode,

1. Press key, BLOCK SET. is displayed, or Press to press or to select CALL BLOCK, press to show BLOCK SET.
2. Press or to select BLOCK ANONYM.
3. Press , press or to select PRIVATE, press to confirm.
4. will be displayed on the lower side of LCD.

Block All Anonymous Calls

This mode will block all incoming calls, including private calls, international calls, pay phone and other out-of-area calls.

In idle mode,

1. Repeat step 1 and 2 in Section 2.1.
2. Press , press or to select ALL, press to confirm.
3. will be displayed on the lower side of LCD.

Set Block Anonymous Calls OFF

In idle mode,

1. Repeat step 1 and 2 in Section 2.1.
2. Press , press or to select OFF, press to confirm.
3. will only disappear from the LCD if the regular call block (Section 1) is also set to OFF.

Troubleshooting

If you have difficulty with your phone, please try the suggestions listed below. As a general rule, if a problem occurs, remove the batteries from all the handsets in your installation for about 1 minute, then disconnect and reconnect the power supply to the base and reinstall the handset batteries.

Always check first that:	<p>You have followed all the steps listed in the user manual to install and set up your telephone.</p> <p>All connectors are firmly inserted in their sockets. Mains power to the base unit is switched on at the socket.</p> <p>The handset's batteries are correctly and securely installed and are not run down.</p>
Everyday use "I cannot make or answer calls"	<p>If the handset's display is blank, it may have been switched off. Press and hold the o to switch it back on.</p> <p>Check that the base unit's mains power adapter is plugged in and power is switched on.</p> <p>The base unit needs mains power for normal operation of the phone – not just for charging the batteries.</p> <p>Make sure you are using the telephone line cable supplied with your telephone. Other telephone line cables might not work.</p> <p>Move the handset closer to the base unit.</p> <p>Check the battery level symbol on the display. If it is low, replace the handset on the base unit or charger pod to recharge the batteries.</p> <p>Switch off power at the mains socket, wait for a short time and then switch back on. This may solve the problem.</p>
"When I press on the keys, nothing happens"	<p>Make sure the batteries are fitted in your handset.</p> <p>If the Battery Level symbol on the display shows 'low', put your handset back on the cradle to charge.</p>
"When I key in a number, it appears on the display, but I cannot make an outside call"	<p>Try a different position for the base unit —somewhere higher if possible, or further from other electrical equipment.</p> <p>Try moving the handset closer to the base unit.</p>
"The phone does not ring"	<p>Check that the base unit's mains power adapter is plugged in and power is switched on.</p>
"I hear 'beeps' from my handset while I'm on a call"	<p>You may be going out of range of the base unit. Move closer or your call may be cut off.</p> <p>Check the Battery Level symbol on the display. If it's low, recharge the batteries.</p>
"The volume in the earpiece is low when I'm on a call"	<p>Make sure you're holding the earpiece correctly over your ear. Adjust the volume using the UP/DOWN key.</p>
Batteries	<p>Before you first use the handset, you should have left it on the base unit or</p>
"The handset's battery cells are running low within an hour or two"	<p>charger pod for 15 hours to charge the batteries fully. You may need to replace the batteries.</p>
"I try to recharge the batteries but I still get a warning that they are low"	<p>Check the connection between the base unit and the mains power socket unit.</p> <p>You need to replace the batteries.</p> <p>Dispose of used batteries safely – never burn them, or put them where they could get punctured. Do not use non – rechargeable batteries in your handset – they may explode, causing damage. Disconnect all other instruments connected to the same line and try to make a call.</p>

The store where you bought your telephone can also provide you with information and after – sales support.

SAFETY

This telephone is not designed for Emergency calls when the main power fails. Do not use your telephone to notify a gas leak or other potential explosion hazard!

Do not open your device or its power supply to avoid risk of electrical shock. Do not attempt to open the batteries, as they contain hazardous chemical substances. Your telephone must be located in a dry place away from hot, humid and direct sunlight condition. To avoid radio signal interference, place the phone at least 1 meter away from other electrical appliances or other phones.

ENVIRONMENT

This symbol means that your inoperative electronic appliance must be collected separately and not mixed with the household waste.

Help us protect the environment in which we live!
