# **Alecto DVM-75 Registering Camera**

#### **Product Information**

The DVM-75 is a camera designed for video recording and registering. The product comes with a power adapter manufactured by Ten Pao Industrical Co., Ltd. The model identifier for the power adapter is S005BNV0600060. It has an input voltage range of 100-240VAC and operates at a frequency of 50/60 Hz. The output voltage is 6.0V DC with an output current of 0.6 A and output power of 3.6 W. The average active efficiency of the power adapter is 77.6%, and it has no load efficiency at low 10% load. The power consumption of the adapter is 0.04 W.

#### **Product Usage Instructions**

To use the DVM-75 camera, follow the steps below:

- 1. Register the camera by connecting it to a power source using the provided power adapter.
- 2. Once the camera is registered, connect it to your device using the appropriate cable.
- 3. Ensure that the camera is positioned properly in a location where it can capture the desired footage.
- 4. Turn on the camera and begin recording.
- 5. After recording, transfer the footage to your device for viewing or storage.

If you encounter any issues with the DVM-75 camera, please contact Commaxx B.V. at Wiebachstraat 37, 6466 NG Kerkrade, The Netherlands or visit <u>www.alecto.nl</u> for support.
