HIROHRTV cuna para bebe

HIROHRTV 5-in-1 Convertible Crib User Manual

Model: cuna para bebe

Introduction

This manual provides comprehensive instructions for the assembly, operation, maintenance, and troubleshooting of your HIROHRTV 5-in-1 Convertible Crib. Please read this manual thoroughly before assembly and use to ensure safe and proper operation.
The HIROHRTV 5-in-1 Convertible Crib is designed to adapt to your child's growth, transitioning from a crib to a toddler bed, daybed, and full-size bed (conversion kits sold separately). It features adjustable mattress heights and is constructed from sustainable New Zealand pinewood.

Safety Information

WARNING: Failure to follow these warnings and the assembly instructions could result in serious injury or death.

- Always ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not use this crib if any parts are missing, damaged, or broken. Contact HIROHRTV for replacement parts. Do not substitute parts.
- The stationary (non-drop side) rail design provides added security. Do not attempt to modify this design.
- Ensure the mattress used with this crib is the correct size to prevent gaps that could entrap a child.
- Keep all cords, strings, and window blind cords out of reach of children.
- Do not place the crib near windows where cords from blinds or drapes could strangle a child.
- This product meets/exceeds CPSC/ASTM safety standards.

Components List

Please verify all components are present before beginning assembly. If any parts are missing, contact customer

support.

- Crib End Panels (2)
- Side Rails (2)
- Mattress Support Frame (1)
- Hardware Pack (screws, bolts, barrel nuts, Allen wrench)
- Teething Rail (pre-attached or separate, depending on model)

Image: Exploded view of the crib showing various components and their connections. This image highlights the durable New Zealand pine construction, safe surface decoration, embedded connections for product life, 4 height adjustments, non-fixed connections, soft connection structure for comfort, and high-quality wooden legs.

Setup and Assembly

Tools Required: Included Allen wrench (and possibly a Phillips head screwdriver, not included).

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a soft, clean surface to prevent scratching.
2. **Attach Side Rails to End Panels:** Align the holes on the side rails with the pre-drilled holes on the end panels. Secure using the provided bolts and barrel nuts. Do not fully tighten yet.
3. **Install Mattress Support Frame:** Insert the mattress support frame into the designated slots on the end panels. Choose one of the four adjustable height positions based on your child's age and mobility. Ensure it is level and secure.
4. **Tighten All Hardware:** Once all components are in place, systematically tighten all bolts and screws until secure. Do not overtighten.
5. **Final Check:** Ensure the crib is stable and all connections are firm.

Operating Instructions and Conversions

Adjusting Mattress Height:

The crib offers four mattress height positions to accommodate your child's growth and ensure safety. The highest position is for infants who cannot push up on their hands and knees. Lower the mattress as your child grows and becomes more mobile.

1. Remove the mattress from the crib.
2. Carefully lift the mattress support frame and reposition it to the desired height. Ensure all four corners are securely seated in their respective slots.
3. Replace the mattress.

5-in-1 Conversion Options:

This crib is designed to convert into a toddler bed, daybed, and full-size bed. Conversion kits are sold separately.

Image: A visual guide illustrating the five conversion stages of the crib: Crib, Day Bed/Kid Sofa, Toddler Bed, Full Size Bed (Without Footboard), and Full Size Bed (With Footboard). Note that conversion kits are sold separately.

- **Toddler Bed Conversion:** Remove one side rail and replace it with a toddler guard rail (sold separately).
- **Daybed Conversion:** Remove one side rail completely.
- **Full-Size Bed Conversion:** Requires full-size bed rails (sold separately) to connect the crib end panels as headboard and footboard.

Maintenance and Care

- **Cleaning:** Wipe surfaces with a damp cloth and mild soap. Do not use abrasive cleaners or strong chemicals. Dry thoroughly.
- **Hardware Check:** Periodically check all bolts, screws, and fasteners to ensure they are tight. Re-tighten as needed.
- **Storage:** If storing the crib, disassemble it carefully and store all parts in a dry, temperature-controlled environment to prevent warping or damage.
- **Teething Rail:** The crib comes with a teething rail to protect your baby’s gums and the crib's finish. Inspect it regularly for damage.

Troubleshooting

Problem	Possible Cause	Solution
Crib feels wobbly or unstable.	Loose hardware.	Check and tighten all bolts and screws. Ensure mattress support is properly seated.
Parts do not align during assembly.	Incorrect orientation of parts or overtightened initial screws.	Review assembly steps. Loosen previously tightened screws, align parts, then re-tighten.
Mattress support does not fit.	Incorrect mattress size or frame not properly aligned.	Ensure you are using a standard crib mattress. Verify the mattress support frame is correctly positioned in the slots.

Specifications

- **Model:** cuna para bebe
- **Dimensions:** 54"L x 31"W x 40"H
- **Material:** Sustainable New Zealand Pinewood
- **Color:** White (5-in-1 Crib White Without Wheels)
- **Weight:** Approximately 35 lbs
- **Maximum Weight Recommendation:** 50 lbs
