alexa Connection with Third Party Applications

Connection With Third Party Applications

This guide provides instructions on how to connect your devices with third-party applications such as Alexa and Google Home.

Alexa Integration

Link Setup

- 1. Click "Me" in the app.
- 2. Click the Alexa icon.

- 3. Click "Sign in with Amazon".
- 4. Click "Link" to connect HomeBud with Alexa.

- 5. Wait for the binding process, which may take up to 30 seconds.
- 6. Once linked, HomeBud is now connected to Alexa. You can control linked devices with voice commands.

Google Home Integration

- 1. Click "Me" in the app.
- 2. Click the Google Assistant icon.
- 3. Click "Link with Google Assistant".

- 4. The screen will pass through the Google Home app.
- 5. Click "Agree and Link" to connect your HomeBud account with Google.

- 6. Choose the device you want to connect and click "Next".
- 7. Select the home and click "Next".
- 8. Select the room and click "Next".

9. HomeBud is now connected to Google Home. You can now reopen the HomeBud app.

Specifications

Feature	Description
Alexa Integration	Allows control of devices using Amazon Alexa voice commands.
Google Home Integration	Enables device control through Google Assistant voice commands.

FAQS

How do I connect my device to Alexa?

Follow the link setup instructions for Alexa to connect your device.

What should I do if the binding process takes too long?

Ensure your internet connection is stable and try again.

Can I connect multiple devices to Google Home?

Yes, you can select and connect multiple devices through the Google Home app.
