PKPOWER ANU-120200A

PKPower 12V AC/DC Adapter Power Cord Instruction Manual

Model: ANU-120200A

1. Introduction

This manual provides instructions for the safe and effective use of your PKPower 12V AC/DC Adapter Power Cord. This adapter is designed to provide power and charge compatible AVAPOW Car Jump Starters, including models A58, A68, A28, A08, A18, 4000A, 6000A, 2000A, and 3000A. Please read this manual thoroughly before use and retain it for future reference.

2. Safety Information

Your PKPower AC/DC Adapter is equipped with multiple safety mechanisms to ensure reliable operation and user protection. Adhere to the following safety guidelines:

- Do not expose the adapter to water, moisture, or extreme temperatures.
- Do not disassemble or modify the adapter.
- Ensure the power outlet voltage matches the adapter's input specifications.
- Keep the adapter away from children.
- Unplug the adapter from the power outlet when not in use.

The adapter incorporates the following built-in safety protections:

- **Over Charge Protection:** Prevents damage from excessive charging.
- **Over Voltage Protection:** Safeguards against voltage surges.
- **Short-circuit Protection:** Protects against electrical shorts.
- **Over Current Protection:** Prevents damage from excessive current flow.
- **Over Temperature Protection:** Guards against overheating.

This product has passed FCC testing and obtained relevant certifications, ensuring compliance with safety standards.

3. Product Overview

The PKPower 12V AC/DC Adapter is a compact and lightweight power supply designed for portability and ease of storage. It features a durable casing and a 6.6-foot (approximately 2-meter) charging cable, providing ample reach for convenient charging.

Image 2: PKPower AC/DC Adapter showing its approximate dimensions: 2.76 inches (length), 1.18 inches (width), and 1.57 inches (height).

4. Specifications

Feature	Specification
Model	ANU-120200A
Input Voltage	100-240V AC, 50/60Hz
Output Voltage	12V DC (as per product title)
Product Dimensions	5 x 2.5 x 1.2 inches (approx. 2.76 x 1.18 x 1.57 inches for main body)
Item Weight	3 ounces
Cable Length	6.6 feet (approx. 2 meters)
Color	Black
Power Source	Corded Electric
Main Power Connector Type	2 Pin (US Standard)

5. Setup

1. **Inspect the Adapter:** Before first use, visually inspect the adapter and cable for any signs of damage. Do not use if damaged.
2. **Connect to Jump Starter:** Locate the charging input port on your compatible AVAPOW Car Jump Starter. Insert

the adapter's output connector firmly into this port.

3. **Connect to Power Outlet:** Plug the adapter's AC input prongs into a standard 100-240V AC wall outlet.

Ensure all connections are secure before proceeding.

6. Operating Instructions

Once the adapter is properly connected to both the jump starter and a power outlet, the jump starter should begin charging. Refer to your AVAPOW Car Jump Starter's manual for specific charging indicators (e.g., LED lights, display messages) and expected charging times.

- Allow the jump starter to charge fully as recommended by its manufacturer.
- Once charging is complete, disconnect the adapter from the jump starter first, then unplug it from the wall outlet.

7. Maintenance

- **Cleaning:** Use a dry, soft cloth to clean the adapter. Do not use liquid cleaners or solvents.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures when not in use. Avoid wrapping the cable too tightly around the adapter to prevent damage.
- **Inspection:** Periodically inspect the adapter and cable for any signs of wear or damage. Replace if necessary.

8. Troubleshooting

- **Adapter Not Supplying Power:**
  - Ensure the adapter is securely plugged into a working wall outlet.
  - Check if the wall outlet has power by testing it with another device.
  - Verify that the adapter's output connector is firmly seated in the jump starter's input port.
- **Jump Starter Not Charging:**
  - Confirm that your jump starter model is listed as compatible with this adapter.
  - Ensure the adapter is functioning correctly (see 'Adapter Not Supplying Power' above).
  - Consult your jump starter's manual for specific charging requirements or troubleshooting steps.

If issues persist, discontinue use and contact customer support.

9. Warranty and Support

This PKPower AC/DC Adapter comes with a 12-month warranty, providing protection for your purchase. For any questions, concerns, or assistance, please contact PKPower customer service. We are committed to providing quality service and support.
Please refer to the seller's contact information on your purchase platform for direct support.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
