VEVOR FBL650329

VEVOR Sliding Tub Transfer Bench with 360 Degree Swivel Seat Instruction Manual

Model: FBL650329

1. Safety Information

Read all instructions carefully before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Weight Capacity:** Do not exceed the maximum weight capacity of 400 lbs (180 kg).
- **Secure Placement:** Ensure all legs are evenly adjusted and firmly placed on a stable, non-slip surface.
- **Locking Mechanisms:** Always ensure the seat's sliding and swivel locking pins are fully engaged before transferring or using the bench.
- **Safety Belt:** Use the waist safety belt to prevent imbalance and tipping during transfers.
- **Regular Inspection:** Periodically check all components for wear, damage, or loose parts. Do not use if any part is damaged.
- **Professional Assistance:** If you have mobility limitations, consider seeking assistance from a caregiver or healthcare professional for safe transfers.
- **Hot Water Warning:** Test water temperature before entering the shower/tub to prevent burns.

2. Package Contents

Verify that all components are present before beginning assembly:

- 1 x Seat Frame
- 1 x Seat Cushion (EVA)
- 1 x Backrest (EVA)
- 1 x Safety Belt
- 1 x Shower Head Holder
- 2 x Seat Frame Tubes
- 2 x Armrests
- 1 x Backrest

- 4 x Chair Legs
- 4 x Screws (M6x16)
- 4 x Spacers
- 1 x Hex Wrench
- 1 x Instruction Manual

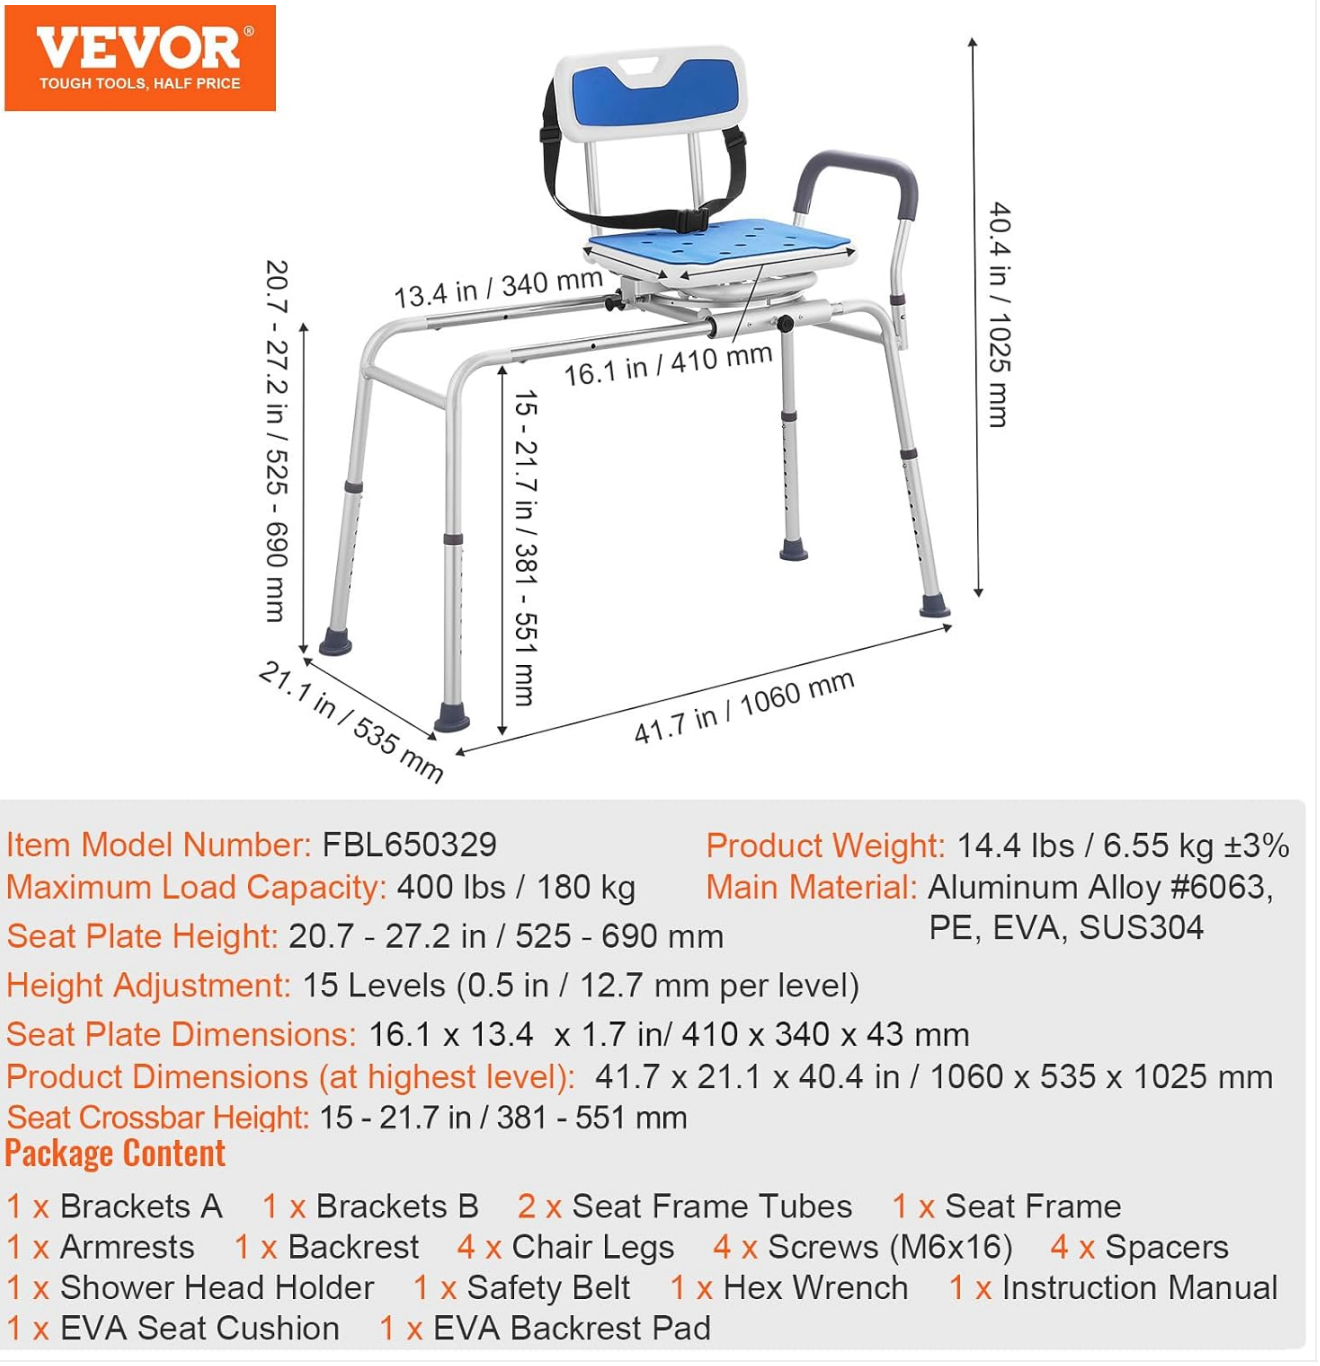

Figure 1: Package Contents Diagram. This image illustrates all parts included with the VEVOR Sliding Tub Transfer Bench, including the seat frame, cushion, backrest, safety belt, shower head holder, seat frame tubes, armrests, chair legs, screws, spacers, and hex wrench.

3. Setup and Assembly

Follow these steps for proper assembly:

1. **Attach Seat Frame Tubes:** Connect the two seat frame tubes to the main seat frame using the provided screws and hex wrench. Ensure they are securely fastened.
2. **Install Chair Legs:** Insert the four chair legs into the designated slots on the frame. Adjust the height of each leg

by pressing the spring-loaded push-buttons and sliding the leg to the desired height. Ensure all legs are set to the same height for stability.

3. **Attach Armrests and Backrest:** Secure the armrests and backrest to the main seat frame. The armrests should pivot freely.
4. **Apply Seat Cushion and Backrest Pad:** Place the EVA seat cushion onto the seat plate and the EVA backrest pad onto the backrest. These are designed for comfort and quick drying.
5. **Attach Safety Belt:** Thread the waist safety belt through the designated slots on the seat and secure it.
6. **Install Shower Head Holder:** Attach the shower head holder to one of the armrests or a convenient part of the frame, ensuring it is within easy reach.
7. **Position the Bench:** Place the assembled transfer bench over your bathtub. Ensure the legs on both sides of the tub are stable and the bench is level.

Figure 2: Assembled Transfer Bench. This image shows the VEVOR Sliding Tub Transfer Bench fully assembled and correctly

positioned over a bathtub, ready for use.

Figure 3: Height Adjustment Mechanism. This image details the spring-loaded push-button system for adjusting the bench's height, allowing for 15 different levels.

4. Operating Instructions

This section details how to safely use your VEVOR Sliding Tub Transfer Bench.

1. **Entering the Tub:**
    - Position the seat on the outer side of the tub.
    - Ensure the seat's sliding mechanism is locked.
    - Sit down carefully on the seat, using the armrests for support.
    - Fasten the waist safety belt securely.
    - Unlock the sliding mechanism by pulling the knob.
    - Gently slide the seat over the tub until you are positioned inside.

- Lock the sliding mechanism once you are in the desired position.
- If needed, unlock the swivel seat by pulling the locking pin and rotate to face the showerhead, then re-lock.

2. **Showering:**
    - Use the showerhead holder to keep the showerhead within easy reach.
    - Maintain a stable posture while showering.
3. **Exiting the Tub:**
    - Ensure the swivel seat is locked in the forward-facing position (if applicable).
    - Unlock the sliding mechanism.
    - Gently slide the seat back to the outer side of the tub.
    - Lock the sliding mechanism.
    - Unfasten the safety belt.
    - Use the armrests for support to stand up from the bench.

Secure Your Bath Time, Enter and Exit with Confidence

Video 1: Product Demonstration. This video demonstrates the VEVOR Sliding Tub Transfer Bench in use, showing how to safely enter and exit a bathtub, utilize the swivel seat, and position the shower head.

Figure 4: Safety Features in Use. This image highlights the waist safety belt and the convenient shower head holder, designed to enhance user safety and comfort during bathing.

5. Maintenance and Care

- **Cleaning:** Clean the bench regularly with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the materials.
- **Drying:** The seat plate features drainage holes for quick drying. Wipe down the entire bench after each use to prevent water buildup and mildew.
- **Inspection:** Periodically check all screws, pins, and connections to ensure they are tight and secure. Inspect the non-slip foot pads for wear and tear. Replace any worn or damaged parts immediately.
- **Storage:** Store the bench in a dry place when not in use for extended periods.

Figure 5: Easy Cleaning and Quick Drying. This image demonstrates the ease of cleaning the bench's seat plate, which is designed with drainage holes to prevent water accumulation and promote quick drying.

6. Troubleshooting

Problem	Possible Cause	Solution
Seat does not slide smoothly.	Sliding mechanism is locked; debris in tracks; worn bearings.	Ensure sliding knob is pulled out to unlock. Clean tracks. If bearings are worn, contact customer support.
Seat does not swivel freely.	Swivel locking pin is engaged; debris in swivel mechanism.	Ensure swivel locking pin is pulled out. Clean swivel mechanism.
Bench feels unstable or wobbly.	Legs are not evenly adjusted; loose connections; uneven floor surface.	Adjust all legs to the same height. Tighten all screws. Ensure the bench is on a flat, stable surface.

Problem	Possible Cause	Solution
Water accumulates on the seat.	Drainage holes are blocked.	Clean the drainage holes to ensure proper water flow.

7. Specifications

Feature	Detail
Model Number	FBL650329
Maximum Load Capacity	400 lbs (180 kg)
Seat Plate Height Range	20.7" to 27.2" (525 - 690 mm)
Height Adjustment Levels	15 levels (0.5" / 12.7 mm per level)
Main Material	Aluminum Alloy #6063, PE, EVA, SUS304
Product Weight	14.4 lbs (6.55 kg)
Seat Plate Dimensions	16.1" x 13.4" x 1.7" (410 x 340 x 43 mm)
Product Dimensions (at highest level)	41.7" x 21.1" x 40.4" (1060 x 535 x 1025 mm)
Seat Crossbar Height	15" - 21.7" (381 - 551 mm)
