ALGOT

Storage across the home

DESIGN

Francis Cayouette

QUALITY

Designed for use throughout the home. ALGOT shelves are hardwearing, stain resistant and easy to keep clean. Brackets are made of high-strength steel and can support heavy loads.

SAFETY

Floor-standing solutions with baskets must be secured to the wall, unless fitted with castors. See page 12 in this buying guide for information about which frames can be fitted with castors.

Different wall materials require different types of fixing devices. Use fixing devices (sold separately) suitable for the walls in your home.

Also please note that different wall materials are able to support different loads of weight. For instance, walls made of plaster cannot support as much weight as walls made of wood, concrete or brick.

If you have any doubts regarding what kind of walls you have in your home, how much load they can carry or how to securely fix ALGOT onto your walls you must contact a specialised local dealer for advice.

GOOD-TO-KNOW

Max. load for ALGOT shelves, second value refers to metal shelves:

40 cm width

38 depth; 15 kg/20 kg

58 depth; 23 kg/30 kg

60 cm width

38 depth; 22 kg/30 kg

58 depth; 34 kg/45 kg

80 cm width

38 depth; 30 kg/40 kg

58 depth; 46 kg/60 kg

Wherever you need to store things, ALGOT has a solution that makes every square centimetre count. And a smart design with clean lines means you can optimise storage without compromising on style.

You can use ALGOT to make both floor-standing and wall mounted solutions. And with different accessories, ALGOT is easy to customise to different rooms and situations. From sorting clothes in the laundry room to organising coats in the hall and storing tins and jars in the pantry ALGOT is designed to work across your home.

Brackets, shelves and other accessories simply click into place, which means assembly is a cinch. It also means ALGOT can easily adapt and change, just like your life does. Need more storage in the wardrobe for a new family member? Add baskets. Want to rearrange your laundry room? Shelves move easily. Need more workspace? You can use the deepest ALGOT shelf as a desktop. With ALGOT there's a solution for every storage need.

All the products (shown here) may not be available at the store. Please contact the staff or look at www.IKEA.co.th for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

COMBINATIONS

WALL MOUNTED STORAGE

ALGOT wall upright/shelves/rod.
Overall size: 65×40×196 cm.

HOW TO PLAN

What do you want to store?

When planning for storage in your home, start by asking yourself what you need to store. Do you need somewhere to hang your clothes, store your bed linen or towels? Perhaps you need bookshelves or baskets to store your hats and gloves? ALGOT can offer many different storage solutions throughout your home.

How much space do you have?

Before you start to plan your new storage solution, find out what space you have to work with. Sketch out your working space, taking measurements from the floor to the ceiling and between the walls. Make a note of any window or door that might affect the size of your storage solution, take detailed measurements and make allowances for opening and closing doors. Don't forget to take into account any radiators, pipes, ventilation or other features that could affect your storage solution.

Ready-made or tailor-made?

You can choose one of our ready-made combinations or you can design your own tailor-made ALGOT storage solution. Start by taking a look at the ready-made combinations included in this buying guide. Our in-store sales staff can help you compile a picking list of your chosen combination to guide you through the Self-Serve area and they can also inform you about other services such as pick-up and home delivery services.

Please note: You can find a wider selection of ALGOT combinations on the IKEA website. You can also plan your combinations by using our Planner online or instore.

TIP: How to calculate the width of a tailor-made solution?

If you are planning your wall mounted storage solution yourself, you need to allow for 2.6 cm for the width of the outer wall uprights and 1.6 cm for each centre wall upright (since the shelves overlap the centre wall upright). You must also add the width of the shelves or accessories you have chosen.

Widths of shelves and accessories

40 cm (shelves)

60 cm (shelves, baskets, drying rack, shoe organiser, trouser hanger, rod for brackets)

80 cm (shelves)
122 cm (drying rack)

Quick calculation guide

- 1 wall uprights +0 cm
- 2 wall uprights +5.2 cm
- 3 wall uprights +6.8 cm
- 4 wall uprights +8.4 cm

Example no 2 $2.6+60+1.6+60+1.6+60+2.6= 188.4$
cm

Example no 1 $2.6+60+2.6= 65.2$
cm

IMPORTANT!

When installing a wall mounted ALGOT solution follow the assembly instructions that come with the wall uprights to ensure you get the correct distance between drilling holes.

9

HOW TO BUILD

WALL MOUNTED STORAGE

Note! Screws and any other fixing devices you might need to fix your solution securely to the wall (e.g. wall plugs) are not included. Different wall materials require different types of fixing devices. FIXA 260-piece screw and plug set can be used for walls made of wood, plaster, concrete and brick, sold separately.

1. Install ALGOT mounting rail on the wall to help you hang the wall uprights evenly and with the right spacing between them. Use countersunk screws with a 4 mm diameter (screw head max. 7 mm). You will need 3 screws for the 66 cm, 4 screws for the 88 cm and 7 screws for the 190 cm long mounting rail.
2. Hang the wall uprights from the mounting rail, space them and then secure them to the wall. Use roundheaded screws with a 4-4.5 mm diameter (screw head max. 9 mm). You will need 3 screws for the 56 cm, 4 screws for the 84 cm and 8 screws for the 196 cm high wall upright.

3. Click brackets into ALGOT wall uprights wherever you want to have a shelf or accessories like a basket or shoe organiser. One bracket holds two ALGOT shelves or other accessories. Brackets and shelves come in two different depths: 38 and 58 cm. Shelves also come in three different widths: 40, 60 and 80 cm. See the front cover of this buying guide for all ALGOT shelving max. loads.
4. Click the shelves, shoe organisers, drying racks and/or other accessories into the brackets. Use different bracket depths to hold up to three shoe organisers: a 38 cm deep bracket holds two and a 58 cm deep bracket holds three.
5. Click ALGOT pull-out rail for baskets into the brackets where you want to have baskets. Install the fittings and slide the basket into the pull-out rail.
6. Click ALGOT rack with 4 hooks into a bracket to hang things on the ends of your ALGOT wall mounted storage solution. Use one rack or several, max. three can be mounted in a row in the deepest ALGOT bracket, 58 cm.
7. Place the cover strips on top of each bracket to keep shelves and accessories firmly in place and give a clean finish.
8. Accessories with bracket you click right into ALGOT wall upright, no separate brackets required. In above example you'll see ALGOT triple hook with bracket.

For this combination you need:

mounting rail wall uprights brackets shelves

rods rails for baskets mesh baskets shoe organisers

1. Choose the 70 cm frame or storage bag with stand to create a combination with castors. Note, for safety's sake, these are the only frames that can have castors. Do not add castors to these frames if they are stacked with another frame.
2. Add ALGOT top shelf on top of the frame for extra storage space.
3. Add castors. For safety's sake, add tip-over protectors (included with castors) on the two front castors of the 70 cm frame.
4. Add wire and/or mesh baskets, available in two different heights: 14 and 29 cm. Use the pull-out stop fittings (included with each basket) to keep baskets in place and moving smoothly.

For this combination you need:

frame 70 cm high top shelf for frame mesh basket

mesh baskets castors

BASKET AND FRAME STORAGE WITHOUT CASTORS

1. Choose your frames, available in 70 cm, 100 cm and 100 cm with rod. Use clips (included with frames) to attach one frame on top of another.
2. Add ALGOT top shelf on top of the frame for extra storage space.
3. Click ALGOT rod for frame in place. It extends between 40 and 60 cm.
4. You can adjust the feet on the frame to make sure it's level.
5. Adjust the distance of the frames from the wall using the fittings (included with frames) before you secure the frames to the wall. All frames must be secured to the wall for safety, regardless of whether you stack them on top of each other or use them individually. The only exception is the 100 cm frame with rod, which may be used without securing if it is not stacked with another frame.
6. Add wire and/or mesh baskets, available in two different heights: 14 and 29 cm. Use the pull-out stop fittings included with each basket to keep baskets in place and moving smoothly.

For this combination you need:

+

frames 70 cm high

frame 100 cm high

frame 100 cm high with rod

rod for frame

Top shelves for frames mesh baskets mesh baskets
