Port Description

- 1 DC port
- 12.5GE WAN port Support 10/100/1000M/2.5Gbps
- 12.5GE LAN/WAN po Support 10/100/1000M/2.5Gbps
- 1 Console RJ45 port
- 1 Default button
- 2 USB2.0 port(include the side one)

Hardware Specifications

- Size(WxDxH) 201x195x39.8mm
- Weight0.7kg
- Temperature

- Working: 0°C to 45°C
- Storage: -20°C to 60°C Humidity 5% to 95% (No-condensation)
- DC input 12V DC PoE
- Dual Ethernet ports support PoE, 802.3 at power supply
- IP rating IP31

FCC Statment

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference.
2. this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver. that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules. This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and consider removing the no-collocation statement.

Caution!

responsible for compliance could void the user's authority to operate the equipment.
