ALIGATOR

ALIGATOR WAL001 Wi-Fi Smart Socket

Product Information

Specifications

- Product Name: Aligator Smart Plug Wi-Fi
- Max. Load: 16A / 3680W
- Wi-Fi Frequency: 2.4GHz
- Manufacturer: ADART COMPUTERS s.r.o.
- Website: www.aligator.cz

Product Usage Instructions

1. Download and install the Tuya Smart app on your smartphone.
2. Open the app and create an account or log in if you already have one.
3. Follow the on-screen instructions to add a new device.
4. Enter the password for your Wi-Fi network when prompted.
5. Plug the smart plug into an AC socket.
6. Press the button on the side of the socket for 5 seconds until it starts flashing.
7. Continue with the app setup wizard and confirm the addition of the socket.
8. You can now control the socket using the Tuya Smart app.

ATTENTION! Even if the smart plug is in the off state, the output socket may still be live! When handling the appliance, always disconnect it from the smart socket first.

Button switch

There is a button on the side of the socket. Press the button to switch the smart socket output on/off. When switched on, the button lights up.

Download the app

Download the Tuya Smart app to your mobile phone or scan the QR code – see page 11.

Once installed, launch the app and create an account (Register). If you already have an account, enter the email address you registered with in the “account number” field.

Add your smart plug to the app

1. On the main screen of the app, press the “+” icon in the top corner or press the “Add Device” button. You will be prompted for access permissions for the first time – enable all permissions.
2. In the list of devices, tap on “Socket (Wi-Fi)”.
3. When prompted, enter the password for your Wi-Fi network and continue with the “Next” button.
4. Plug your smart plug into the AC socket and press the button on the side of the socket for 5 sec. until the button starts flashing
5. Continue with the application following the wizard and finally confirm the addition of the socket with the “Done” button.
6. You can now control the socket using the app.

ATTENTION! Important notice.

Even if the smart plug is in the off state, the output socket may still be live!!! Even if the connected appliance is switched off, it may still be live!!! When handling the appliance, always disconnect it from the smart socket first.

Declaration of Conformity

ADART COMPUTERS s.r.o. hereby declares that the type of radio device Aligator Smart Plug Wi-Fi, WHDZ01, complies with Directive 2014/53/EU.

The full text of the EU Declaration of Conformity is available on the following website: www.aligator.cz

FAQ

Q: Can I use the Aligator Smart Plug with appliances that exceed 3680W?

A: No, it is not recommended to use the smart plug with appliances that exceed the specified maximum load of 3680W to ensure safety and proper functionality.

Q: What should I do if I encounter connection issues during setup?

A: If you experience connection problems during setup, make sure you are connected to a 2.4GHz Wi-Fi network

and try restarting both your smartphone and the smart plug before attempting setup again.

Q: How can I reset the Aligator Smart Plug to the factory settings?

A: To reset the smart plug to factory settings, press and hold the button on the side of the socket for 10 seconds until the LED indicator flashes rapidly. Then, follow the setup instructions to reconfigure the device.
