ALLEGION Zentra Simpler Smarter and More Secure Access Control

Zentra, Allegion's access control platform, was purpose built to simplify access for multifamily properties. Use this guide as a reference to the latest Al legion hardware powered by Zentra.

Types

Schlage Control® Smart Lock

The Schlage Control® mobile enabled smart lock was designed specifically for multifamily resident doors. It allows properties to offer smart security to residents and intelligent efficiency to property managers.

Applications: Resident Units.

SchlageNDE Series Wireless Cylindrical Locks

NOE wireless locks simplify installation by combining the lock, credential reader, door position sensor and request-to-exit switch all in one unit, eliminating the need to install additional components or run wires to each opening.
Applications: Perimeter Exits, Amenity Spaces, Common Areas

PureIP IP-Bridge2.0

The IP-Bridge 2.0 connects the modern IP-network world and legacy wiegand installations. Simply unplug existing panels and attach wiegand readers directly to the IP-Bridge 2.0.
Applications: Perimeter Exits, Amenity Spaces, Common Areas

Schlage RC Series Reader Controller

The RCIS wall mount is a next-generation IP reader controller designed for scalable and flexible real-time access control in perimeter and high security applications.
Applications: Perimeter Exits, Amenity Spaces, Common Areas.

Schlage XE360™ Wireless Lock

The innovative FleX Module™ allows the XE360 Series to be easily upgraded in the field to allow migration from an offline to networked solution and to adapt to emerging trends in security and connectivity down the road.
Applications: Resident Units, Perimeter Exits, Amenity Spaces, Common Areas

Schlage LE Series Wireless Mortise Locks

This mortise lock is designed to affordably extend electronic access control deeper into the building beyond traditional perimeter and high security openings and offers users the security and convenience of using a smart device to gain access.
Applications: Resident Units, Perimeter Exits, Amenity Spaces, Common Areas.

Schlage CTE Single Door Controller

This single opening controller allows perimeter and common area openings to be managed in a single system.
Applications: Perimeter Exits, Amenity Spaces, Common Areas.
