Key Features:

- Soft and squishy silicone construction.
- Three adjustable brightness settings.
- Automatic shut-off function (1-3 hours).
- Rechargeable internal battery via USB-C.
- Cordless operation for portability.

2. Package Contents

- 1 x Paladone Stitch Squishy Lamp
- 1 x USB-C Charging Cable

Note: A USB power adapter (not included) is required for charging.

3. Setup

3.1 Initial Charging

1. Locate the USB-C charging port on the lamp.
2. Connect the provided USB-C cable to the lamp.
3. Connect the other end of the USB-C cable to a compatible USB power adapter (e.g., phone charger, computer USB port).
4. Allow the lamp to charge fully before first use. The charging indicator (if present, or refer to product specific instructions for charging status) will typically change color or turn off when fully charged.

For optimal battery life, it is recommended to fully charge the lamp before its initial use.

4. Operating Instructions

4.1 Power On/Off and Brightness Control

1. To turn the lamp on, gently tap Stitch's head. The lamp will illuminate at its lowest brightness setting.
2. Tap Stitch's head again to cycle through the three available brightness settings (low, medium, high).
3. To turn the lamp off, tap Stitch's head after the highest brightness setting, or hold your tap for a few seconds.

4.2 Auto-Off Function

The lamp features an automatic shut-off function that will gently dim and turn off the light after 1 to 3 hours of continuous operation. This feature is designed to conserve battery life and provide a comforting sleep aid without needing manual intervention.

5. Maintenance

5.1 Cleaning

To clean the Stitch Squishy Lamp, gently wipe the silicone surface with a soft, damp cloth. Do not use abrasive cleaners, solvents, or immerse the lamp in water, as this may damage the electronic components.

5.2 Storage

When not in use for extended periods, store the lamp in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the battery is partially charged before storing to maintain battery health.

6. Troubleshooting

- **Lamp does not turn on:**
  - Ensure the lamp is fully charged. Connect it to a USB power source using the provided cable.
  - Verify that the USB-C cable is securely connected to both the lamp and the power adapter.
- **Light is dim or flickers:**
  - The battery may be low. Recharge the lamp.
- **Battery life is shorter than expected:**
  - Ensure the lamp is fully charged before each use.
  - Operating the lamp on the highest brightness setting will consume battery power more quickly.
  - Environmental factors such as extreme temperatures can affect battery performance.
