Maintenance

Regular maintenance ensures the longevity and optimal performance of your MERACH Recumbent Exercise Bike. Keep the bike clean by wiping it down with a damp cloth after each use. Periodically check all bolts and connections to ensure they are secure. The upgraded crank structure is designed for durability and requires no specific maintenance.

Troubleshooting

- **No Display on LCD:** Check battery installation. Ensure batteries are correctly oriented and have sufficient charge.
- **App Connectivity Issues:** Ensure Bluetooth is enabled on your device and the bike. Restart the MERACH app and try reconnecting. Make sure no other devices are actively connected to the bike via Bluetooth.
- **Unusual Noises:** Verify all assembly bolts are tightened. If noises persist, inspect moving parts for any obstructions or wear.
- **Resistance Not Changing:** Check the resistance knob for proper function. Ensure it turns smoothly through all 8 levels.
