PKPOWER ANU-0500100A

PKPOWER AC Adapter Charger Instruction Manual

Model: ANU-0500100A

1. Introduction

This manual provides essential information for the safe and efficient use of your PKPOWER AC Adapter Charger, Model ANU-0500100A. This adapter is designed to provide reliable power to compatible portable solar generators, including the ENOFLO G200, HP100, and HP200S models.
Please read this manual thoroughly before using the product and retain it for future reference.

2. Safety Information

To ensure safe operation and prevent damage, observe the following safety precautions:

- Do not expose the adapter to water, rain, or excessive moisture.
- Do not disassemble or modify the adapter. Refer all servicing to qualified personnel.
- Ensure the power outlet voltage matches the adapter's input voltage (100-240V AC).
- Avoid placing the adapter in direct sunlight or near heat sources.
- Keep the adapter away from children and pets.
- Do not use the adapter if the cord or plug is damaged.
- Always unplug the adapter from the power outlet when not in use or before cleaning.

3. Product Overview

The PKPOWER AC Adapter Charger is a compact and durable power supply designed for specific portable solar generators. It features a robust construction and a 6.6-foot (approximately 2-meter) charging cable for convenient placement.

Figure 3.1: PKPOWER AC Adapter Charger with its integrated power cord. This image shows the compact design of the adapter and the attached cable.

Figure 3.2: Dimensions of the PKPOWER AC Adapter. The adapter measures approximately 2.8 inches in length, 1.6 inches in width, and 1.2 inches in height.

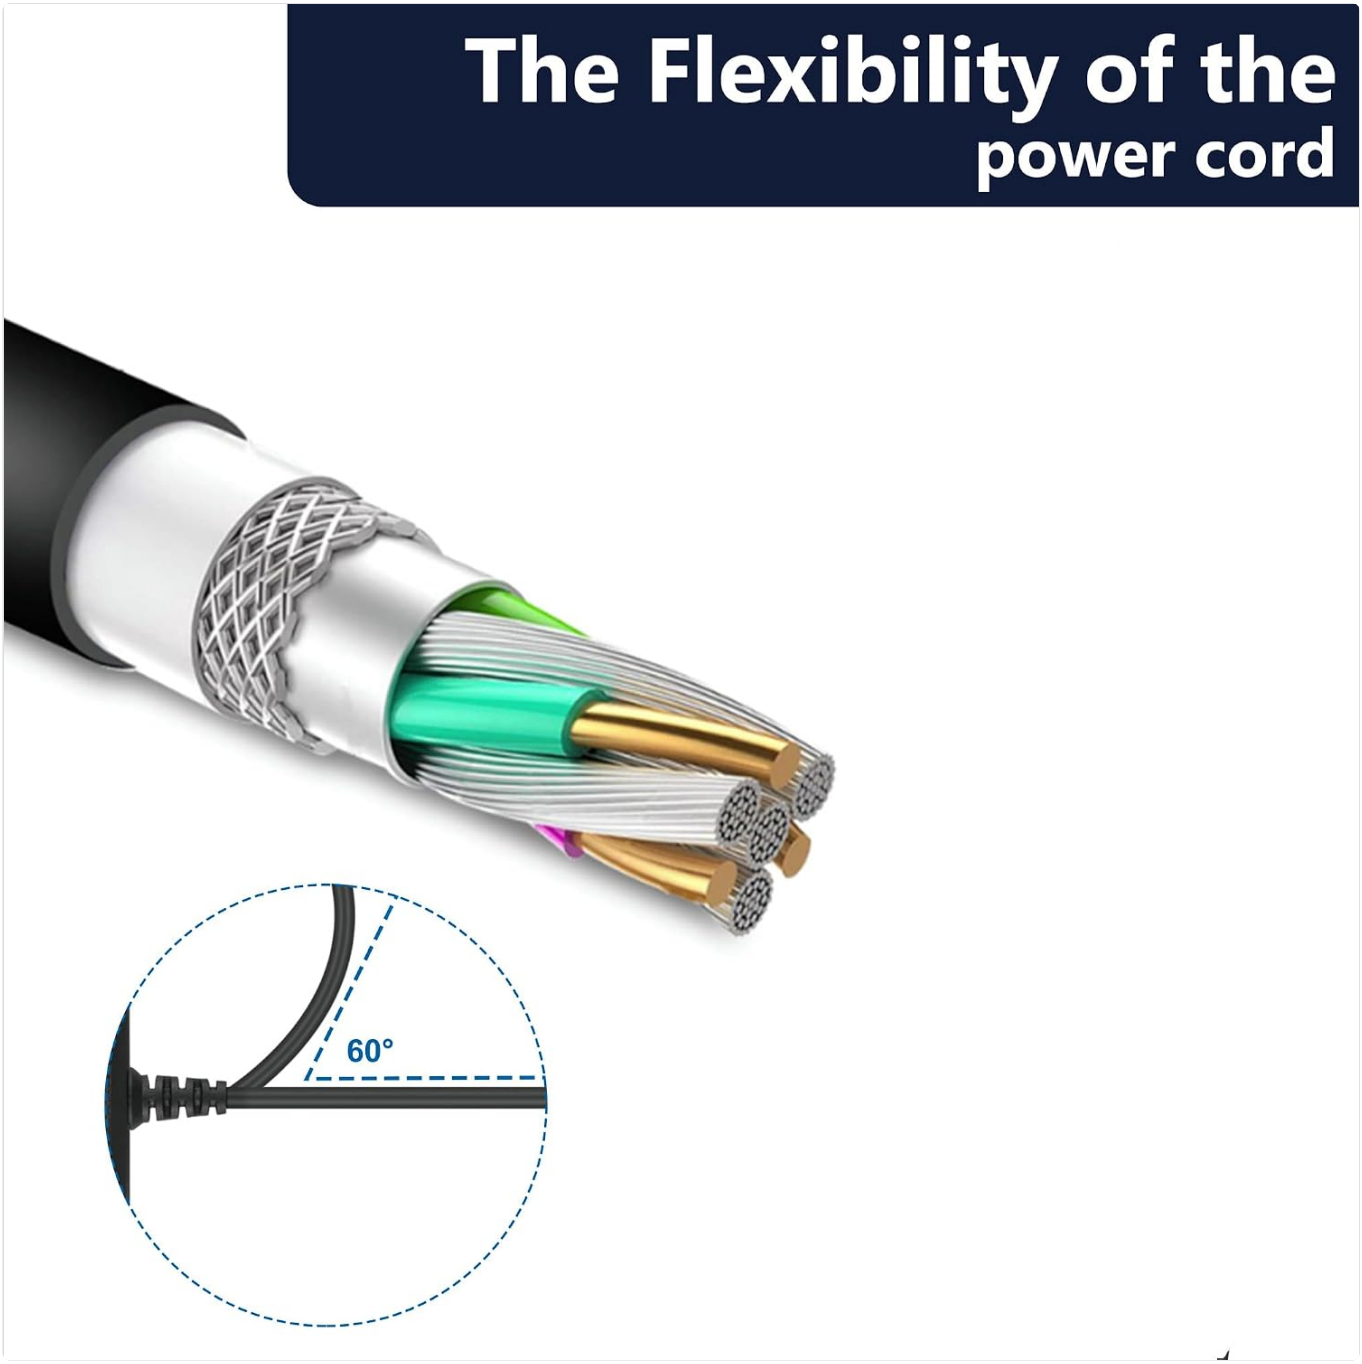

Figure 3.3: Illustration of the power cord's flexibility. The internal structure of the cable is shown, highlighting its durable and flexible design, allowing for a 60-degree bend radius at the connector.

4. Setup

Follow these steps to set up your AC Adapter Charger:

1. **Unpack:** Carefully remove the AC adapter from its packaging.
2. **Inspect:** Check the adapter and cable for any visible damage. Do not use if damaged.
3. **Connect to Device:** Plug the DC output connector of the adapter into the charging input port of your compatible portable solar generator (e.g., ENOFLO G200, HP100, HP200S). Ensure a secure connection.
4. **Connect to Power Outlet:** Insert the AC input plug of the adapter into a standard 100-240V AC wall outlet.

The device should now begin charging. Refer to your solar generator's manual for specific charging indicators.

5. Operating Instructions

Using the PKPOWER AC Adapter Charger is straightforward:

- Once connected as described in the "Setup" section, the adapter will automatically begin supplying power to your device.
- Monitor your device's charging status indicators.
- When charging is complete, first unplug the AC adapter from the wall outlet, then disconnect it from your portable solar generator.

The 6.6-foot cable provides ample length for flexible placement during charging.

6. Maintenance

Proper maintenance ensures the longevity and performance of your AC adapter:

- **Cleaning:** Disconnect the adapter from all power sources before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or solvents.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures when not in use. Avoid tightly winding the cable to prevent damage.
- **Inspection:** Periodically inspect the cable and connectors for any signs of wear, cuts, or damage. Replace the adapter if any damage is found.

7. Troubleshooting

If you encounter issues with your PKPOWER AC Adapter Charger, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging.	• Adapter not properly plugged into outlet. • Adapter not properly connected to device. • Power outlet is not active. • Adapter or cable is damaged. • Device is incompatible.	• Ensure both ends of the adapter are securely plugged in. • Test the power outlet with another device. • Inspect the adapter and cable for damage. If damaged, discontinue use. • Verify your device (ENOFLO G200, HP100, HP200S) is listed as compatible.
Adapter feels hot during use.	• Normal operation (slight warmth). • Poor ventilation. • Overload or internal fault.	• A slight warmth is normal. • Ensure the adapter is in a well-ventilated area. • If excessively hot or emitting smoke/smell, unplug immediately and discontinue use.

If the problem persists after trying these solutions, please contact customer support.

8. Specifications

Model	ANU-0500100A

Input Voltage	100-240V AC
Power Source	Corded Electric
Cable Length	6.6 feet (approx. 2 meters)
Product Dimensions	5 x 2.5 x 1.2 inches (adapter unit)
Item Weight	3 ounces
Compatible Devices	ENOFLO G200, HP100, HP200S Portable Solar Generators
Color	Black
Manufacturer	Shenzhen AiNaU Technology Co.,Ltd

9. Warranty Information

This PKPOWER AC Adapter Charger comes with a**12-month warranty** from the date of purchase. This warranty covers manufacturing defects and ensures the product functions as intended under normal use.
The warranty does not cover damage caused by misuse, accident, unauthorized modification, or improper installation. Please retain your proof of purchase for warranty claims.
