ZeaCotio towel warmer

ZeaCotio 28L Large Towel Warmer User Manual

Model: towel warmer

1. Introduction

Thank you for choosing the ZeaCotio 28L Large Towel Warmer. This versatile bucket-design warmer is engineered to provide perfectly heated towels, bathrobes, and blankets, enhancing your comfort and daily routine. Featuring an intuitive LED display and adjustable heat timer settings (20, 40, or 80 minutes), it offers a luxurious spa-like experience in your own home. Its generous 28L capacity accommodates multiple items, making it ideal for various uses.

2. Safety Instructions

Please read all safety instructions carefully before using the towel warmer to prevent injury or damage.

- Do not immerse the unit in water or any other liquid.
- Do not operate the warmer with a damaged cord or plug.
- Ensure the power outlet matches the voltage requirements of the warmer.
- Keep out of reach of children and pets. This appliance is not intended for use by persons with reduced physical, sensory, or mental capabilities unless supervised.
- Always unplug the warmer when not in use and before cleaning.
- Do not block the ventilation openings.
- Use only dry items inside the warmer. Do not place wet or damp items directly into the unit.
- Do not attempt to disassemble or repair the unit yourself. Contact qualified service personnel.

- Place the warmer on a stable, flat, heat-resistant surface.

3. Package Contents

Verify that all components are present in the package:

- ZeaCotio Towel Warmer Unit
- User Manual
- Aroma Tablet (optional, for fragrance diffusion)

4. Setup

Setting up your ZeaCotio Towel Warmer is quick and easy:

1. Unpack all components from the box.
2. Place the towel warmer on a flat, stable, and dry surface in your bathroom or desired location. Ensure it is away from water sources.
3. Plug the power cord into a standard electrical outlet.
4. The unit is now ready for use.

5. Operating Instructions

The ZeaCotio Towel Warmer features a user-friendly digital display and smart touch panel for easy operation.

5.1. Heating Items

1. Open the lid of the towel warmer.
2. Place dry towels, bathrobes, blankets, or other garments neatly inside the 28L capacity bucket. The spacious interior can accommodate multiple items, such as one bathrobe, four blankets, or six towels.
3. Close the lid securely.

5.2. Powering On and Setting Timer

- Press the **ON/OFF** button on the touch panel to power on the unit. The LED display will illuminate.
- Press the **TIME** button to cycle through the preset heating durations: 20 minutes, 40 minutes, or 80 minutes. The selected time will be displayed.
- The warmer will begin heating immediately after a time setting is selected. Experience perfectly heated towels in as little as 1 minute.

Image 5.2: The control panel highlighting quick heating (60 seconds) and keep warm (80 minutes) features.

5.3. Delay Start / 24-Hour Reservation

- To set a delayed start time (reservation), press the **DELAY** button.
- Use the **TIME** button to adjust the delay duration up to 24 hours. The warmer will automatically start heating after the set delay period.

5.4. Child Lock Feature

- The warmer is equipped with a child lock mechanism for safety. To unlock the lid, press the 'Push to Unlock' button or mechanism located on the lid.

6. Maintenance

Proper maintenance ensures the longevity and optimal performance of your towel warmer.

- Always unplug the unit before cleaning.
- Wipe the exterior of the warmer with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Ensure the interior is free of lint or debris.
- Do not submerge the unit in water.
- Store in a dry place when not in use for extended periods.

7. Troubleshooting

If you encounter any issues with your towel warmer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Warmer does not turn on.	Not plugged in; Power outage; Faulty outlet.	Ensure the power cord is securely plugged into a working outlet. Check your circuit breaker. Try a different outlet.
Items are not getting warm.	Lid not closed properly; Incorrect timer setting; Overloaded unit.	Ensure the lid is fully closed. Verify the timer setting is active. Do not overload the warmer; ensure items are loosely placed.
Display is not working.	Power issue; Malfunction.	Unplug the unit for 5 minutes and plug it back in. If the issue persists, contact customer support.
Unusual smell during operation.	New unit smell; Dust/debris inside.	A slight odor is normal for new appliances during initial use. Ensure the unit is clean and free of debris. If the smell is strong or persistent, discontinue use and contact support.

8. Specifications
