Gardena 14703-55

Gardena PowerTrim 30 18V Solo Battery Powered Trimmer Instruction Manual

Model: 14703-55

1. Introduction

Thank you for choosing the Gardena PowerTrim 30 18V Solo Battery Powered Trimmer. This manual provides essential information for the safe and efficient operation, assembly, maintenance, and troubleshooting of your new trimmer. Please read these instructions carefully before first use and keep them for future reference. This product is designed for trimming grass and light vegetation in domestic gardens.

2. Safety Instructions

Always observe basic safety precautions to reduce the risk of fire, electric shock, and personal injury. Failure to follow these instructions may result in serious injury.

- **Read the Manual:** Familiarize yourself with all controls and proper use of the trimmer.
- **Wear Protective Gear:** Always wear safety glasses or goggles, long trousers, sturdy footwear, and hearing protection when operating the trimmer.
- **Keep Area Clear:** Ensure no bystanders, children, or pets are within the operating area. Maintain a safe distance.
- **Inspect Before Use:** Check the trimmer for any damaged or loose parts before each use. Do not operate if damaged.
- **Battery Safety:** Use only Gardena recommended batteries and chargers. Do not expose batteries to water, heat, or direct sunlight.
- **Avoid Obstacles:** Be aware of hidden obstacles such as rocks, roots, or wires that could cause the cutting line to break or be ejected.
- **Proper Grip:** Always hold the trimmer firmly with both hands during operation.

- **Disconnect Battery:** Always remove the battery pack before cleaning, maintenance, or when leaving the trimmer unattended.

3. Package Contents

The Gardena PowerTrim 30 18V Solo Battery Powered Trimmer package typically includes:

- Gardena PowerTrim 30 Trimmer Unit
- Safety Guard
- Auxiliary Handle
- Instruction Manual

Note: This is a 'Solo' model. The 18V Power for All battery and charger are sold separately and are not included in this package.

4. Assembly and Setup

Before operating the trimmer, some assembly is required.

1. **Attach the Safety Guard:** Align the safety guard with the trimmer head and secure it using the provided fasteners. Ensure it is firmly attached to protect against debris.
2. **Install the Auxiliary Handle:** Slide the auxiliary handle onto the main shaft. Adjust its position for comfortable operation and tighten the locking mechanism.
3. **Insert the Battery:** Ensure the battery is fully charged. Slide the 18V Power for All battery into the battery compartment until it clicks into place.

5. Operating Instructions

Follow these steps for safe and effective operation of your Gardena PowerTrim 30.

1. **Power On/Off:** Press the power button on the handle to turn the trimmer on. Release the trigger to turn it off.
2. **PowerBoost Function:** For thicker grass or demanding tasks, press the 'PowerBoost' button to temporarily increase cutting power.
3. **Adjusting the Handle and Shaft:** The telescopic handle allows for length adjustment. The auxiliary handle can swivel 360 degrees and slide along the shaft for optimal comfort and reach in various trimming situations.
4. **Trimming Technique:** Hold the trimmer at a slight angle to the ground. Use a sweeping motion to cut grass. Avoid hitting hard surfaces or objects.
5. **Automatic Line Extension:** The trimmer features an automatic tap system for line extension. When the line wears down, gently tap the cutting head on the ground while the trimmer is running to extend more line.
6. **LED Line Indicator:** An LED display on the handle indicates when the 2 mm thick cutting line is becoming too short, prompting you to extend it. The LED also shows the battery charge status.

6. Maintenance

Regular maintenance ensures optimal performance and extends the life of your trimmer.

- **Cleaning:** After each use, remove the battery and clean the trimmer head, guard, and housing with a damp cloth. Remove any grass clippings or debris. Do not use solvents or abrasive cleaners.
- **Line Replacement:** When the 2 mm cutting line is depleted, replace it with genuine Gardena replacement line. Refer to the specific instructions for line spool replacement provided with the replacement part. The thread guard prevents tangling and pinching.
- **Battery Care:** Store batteries in a cool, dry place away from direct sunlight. Charge batteries fully before long-term storage.
- **Storage:** Store the trimmer in a dry, secure location, out of reach of children.

7. Troubleshooting

If you encounter issues with your Gardena PowerTrim 30, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Trimmer does not start	Battery not inserted correctly or discharged; Power button not pressed.	Ensure battery is fully charged and correctly inserted. Press the power button firmly.

Problem	Possible Cause	Solution
Cutting line does not extend	Line tangled or jammed; Spool empty; Automatic tap mechanism blocked.	Remove battery, inspect and clear any tangles. Replace line spool if empty. Gently tap head on ground while running.
Poor cutting performance	Line too short or worn; Wrong cutting technique; Trimmer head clogged.	Extend or replace cutting line. Adjust cutting angle. Clean trimmer head.
LED indicator for line short is on	Cutting line is nearing its minimum length.	Tap the cutting head on the ground while the trimmer is running to extend the line. Prepare for line replacement soon.

If the problem persists after attempting these solutions, please contact Gardena customer support.
