Operating Instructions

This section details the basic operation of your TelPal Corded Landline Phone:

- **Making a Call:** Pick up the handset. You should hear a dial tone. Use the push buttons on the dial pad to enter the desired telephone number. Wait for the connection.
- **Answering a Call:** When the phone rings, simply pick up the handset to answer the incoming call.
- **Ending a Call:** Place the handset back into the cradle on the telephone base to terminate the phone call.
- **Redial Function:** To redial the last number called, pick up the handset and press the 'REDIAL' button located in the center of the dial pad.
- **Flash Function:** The 'FLASH' button, also in the center of the dial pad, can be used for call waiting or transferring calls, depending on the services provided by your landline carrier.
- **Ringer ON/OFF:** On the base of the telephone, locate the switch to turn the ringer ON or OFF according to your preference.
- **Pulse/Tone Switch:** Also on the base, there is a switch to select between Pulse and Tone dialing modes. Most modern telephone systems use Tone dialing. If you experience issues dialing, try switching this setting.

Maintenance

To ensure the longevity and optimal performance of your TelPal Corded Landline Phone, follow these maintenance guidelines:

- **Cleaning:** Use a soft, slightly damp cloth to clean the exterior of the phone. Avoid using abrasive cleaners, solvents, or strong chemicals, as these can damage the finish.
- **Environment:** Keep the telephone away from excessive moisture, direct sunlight, and extreme temperatures.
- **Handling:** Handle the handset and cords gently to prevent damage. Avoid dropping the phone.

Troubleshooting

If you encounter any issues with your TelPal Corded Landline Phone, refer to the following common problems and solutions:

- **No Dial Tone:**
  - Ensure all telephone cords (handset and line cord) are securely connected to their respective ports and the wall jack.
  - Verify that your landline service is active and operational.
  - Check the Pulse/Tone switch on the base of the phone. Try switching it to the other setting.
- **Cannot Hear Caller / Caller Cannot Hear You:**
  - Ensure the handset cord is firmly connected at both ends.
  - Confirm the handset is properly seated in the cradle when not in use.
  - This model typically does not have a volume adjustment. If sound quality is consistently poor, contact your landline service provider.
- **Phone Not Ringing:**
  - Check the Ringer ON/OFF switch located on the base of the telephone. Ensure it is set to the 'ON' position.
