AlorAir-R WiFi Connection App

Product Information

The AlorAir-R is a smart dehumidifier that can be controlled using the AlorAir-R mobile app. It features a simple and smart design, making it easy to use and operate. The dehumidifier model used in the instructions is the STORM LGR Extreme.

Product Usage Instructions

- 1. Download and install the AlorAir-R app from the App Store (for Apple users) or Google Play Store (for Android users).
- 2. Sign up and log in to your account within the app.
- 3. Follow the steps provided in the app to locate your dehumidifier model (STORM LGR Extreme).
- 4. On the dehumidifier, press the MENU key to switch off the hotspot.
- 5. Reset your device by simultaneously pressing the PURGE key and the MENU key for 3-5 seconds. Once you hear a beep, the WI-FI icon on the upper right of the board will start flashing.
- 6. Turn on your phone's Bluetooth and return to the app. Click the Switch button to connect to the Bluetooth-BK-alorair.
- 7. Connect to your home Wi-Fi network. Make sure to enter the correct password, as an incorrect password will result in connection failure.
- 8. If the connection is successful, you can now start controlling the device through the app.
- 9. If the connection fails, follow the app's prompts to troubleshoot and restart the connected device.

10. To add a new device, enter the device list within the app and click the + button to continue adding new devices.

App

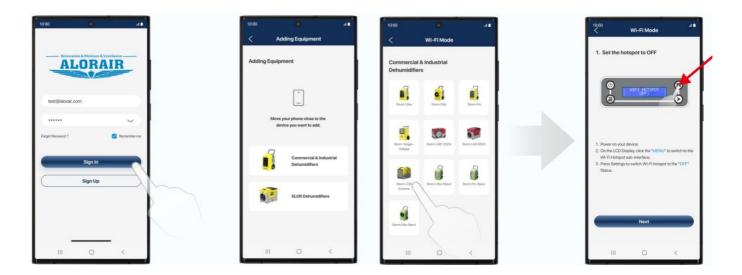

Download and install AlorAir-R from the App Store or Google Play Store.

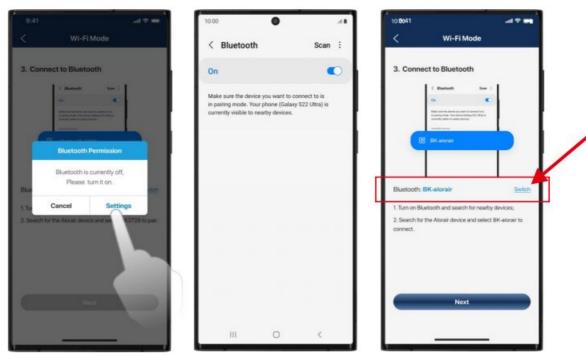

How it works

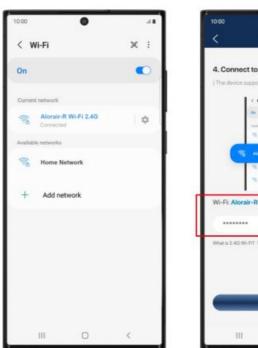

- 1. Sign up and loggin your account.
- 2. Find your dehumidifier model.
 - Let's take STORM LGR Extreme as an example
- 3. Follow the steps on the App, press the "MENU" key of the board to switch the hotspot to "OFF".

- 4. Follow the App steps to reset your device
 - Press the "PURGE" key and the "MENU" key at the same time for 3-5 seconds.
 - After the system beeps, the WI-FI icon will start flashing on the upper right of the board.

5. Turn on your phone's Bluetooth, return to the app, click the "Switch button", and connect to the Bluetooth-BK-alorair.

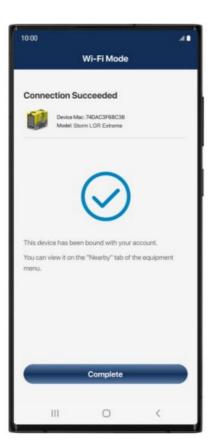

- 6. Connect to the home Wi-Fi.
 - Wrong password will cause subsequent connection failure.

Connection Success

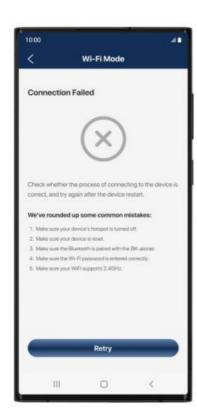

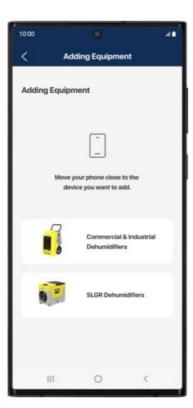

• Once the app has finished Connection, you can start controlling the device

Connection Failure

• If it fails, follow the APP prompts to troubleshoot and restart the connected device.
