## KEEPEEZ MBF060

# KEEPEEZ 3LB Ceramic Bread Pan Instruction Manual

**Model:** MBF060

**Brand:** KEEPEEZ

### Introduction

This manual provides essential information for the proper use and maintenance of your KEEPEEZ 3LB Ceramic Bread Pan, Model MBF060. This pan is designed as a universal replacement part for 3LB KEEPEEZ Bread Machines, ensuring healthy and convenient bread making.

*Image: KEEPEEZ 3LB Ceramic Bread Pan. This image displays the bread pan with its non-stick ceramic coating and metal handle, ready for insertion into a bread machine.*

## Key Features

- **Unique Non-Stick 3LB Ceramic Pan:** Constructed from high-quality metal with a premium ceramic coating for easy cleaning. It is BPA-Teflon-PTFE Free, promoting healthy cooking.
- **Thoughtful Design:** Features an improved bread pan handle that prevents sticking when removing bread. The bottom knob design allows for easy removal of the bread pan with a slight turn.

## Compatibility

This KEEPEEZ 3LB Ceramic Bread Pan (Model MBF060) is the original and absolutely suitable replacement part for **KEEPEEZ 3LB bread machines**. It is **not suitable** for bread makers from other brands.

## Setup and Installation

1. **Inspect the Pan:** Before first use, ensure the bread pan is clean and free from any packaging materials.
2. **Install Kneading Blade:** Verify that the kneading blade is correctly installed onto the shaft at the bottom of the bread pan.
3. **Place Pan in Bread Machine:** Carefully lower the bread pan into the bread machine's baking chamber. Ensure it is seated securely and twist it gently to lock it into place.

4. **Add Ingredients:** Follow your recipe's instructions for adding ingredients to the bread pan. Typically, liquids are added first, followed by dry ingredients, with yeast placed last.

## Operating Instructions

Once the bread pan is securely installed and ingredients are added, close the lid of your KEEPEEZ 3LB bread machine. Select the desired program, crust color, and loaf size according to your bread machine's instructions. The bread machine will then automatically handle the mixing, kneading, rising, and baking processes.
When the baking cycle is complete, the bread machine will typically beep to alert you. Use oven mitts to carefully remove the hot bread pan from the machine. Gently shake the pan to release the bread loaf onto a cooling rack.

## Care and Maintenance

- **Cleaning:** The premium ceramic coating makes the pan easier to clean. After each use, allow the pan to cool completely. Wash the pan and kneading blade with warm, soapy water and a soft sponge. Avoid abrasive cleaners or scouring pads that could damage the non-stick surface.
- **Drying:** Thoroughly dry all parts before storing to prevent water spots or rust.
- **Storage:** Store the bread pan in a dry place, away from direct sunlight and extreme temperatures.

## Troubleshooting Tips

- **Bread Sticking:** If bread sticks to the pan, ensure the pan is properly cleaned and lightly greased before adding ingredients. The thoughtful design with the improved handle and non-stick coating should minimize this issue.
- **Pan Not Locking Securely:** Ensure the pan is correctly aligned with the base of the bread machine and twisted firmly to engage the locking mechanism.

## Product Specifications

| Specification | Detail |
|---|---|
| Model Number | MBF060 |
| Brand | KEEPEEZ |
| Material | High-quality metal with premium ceramic coating |
| Capacity | 3LB |
