IRONCK HK-MC-08

IRONCK Slim Bathroom Cabinet HK-MC-08 User Manual

Model: HK-MC-08 | Brand: IRONCK

1. Introduction

Thank you for choosing the IRONCK Slim Bathroom Cabinet. This manual provides essential information for the safe assembly, operation, and maintenance of your new cabinet. Please read these instructions carefully before beginning assembly and retain them for future reference.

This slim, freestanding cabinet is designed to maximize storage in compact spaces, featuring adjustable shelves, a smooth-sliding drawer, and a clear acrylic door for easy visibility of contents.

2. Safety Information

WARNING: Failure to follow these safety instructions may result in injury or damage to the product.

- Always secure the cabinet to the wall using the provided anti-tip kit to prevent tipping. This is crucial for stability and safety, especially in households with children or pets.
- Be cautious when using the retractable toilet paper rod to avoid injury. Ensure it is properly installed and retracted when not in use.
- Keep all small parts and packaging materials away from children during assembly to prevent choking hazards.
- Assemble the cabinet on a soft, clean surface to prevent scratches.
- Do not overload shelves or drawers. Distribute weight evenly.
- Regularly check all fasteners to ensure they remain tight.

3. Package Contents

Before assembly, verify that all parts listed below are present and undamaged. If any parts are missing or damaged,

please contact customer support.

- Cabinet Panels (Side panels, top panel, bottom panel, back panels, drawer panels, door panels)
- Adjustable Shelves
- Retractable Toilet Paper Rod
- Hardware Pack (Screws, dowels, cam locks, hinges, drawer slides, handles, shelf pins)
- Anti-Tip Kit (Wall anchor, strap/cable, screws)
- Assembly Instructions (This manual)

4. Assembly Instructions

Please follow these steps carefully. It is recommended to have two people for assembly.

4.1. Unpacking and Preparation

1. Clear a spacious area for assembly.
2. Lay out all components on a soft, clean surface to prevent scratches.
3. Identify all parts against the package contents list.
4. Gather necessary tools (e.g., screwdriver, hammer).

4.2. Cabinet Frame Assembly

1. Attach the bottom panel to the side panels using the provided dowels and cam locks/screws. Ensure the grooves for the back panel are facing correctly.
2. Slide the back panels into the grooves. Secure them with small nails or screws as indicated.
3. Attach the fixed middle shelf and the top panel to the side panels, following the same method as the bottom panel.

4.3. Drawer Assembly

1. Assemble the drawer box using the drawer side panels, front, and back. Slide the drawer bottom into the grooves.
2. Install the drawer slides onto the drawer box and the corresponding cabinet sections. Ensure they are aligned for smooth operation.
3. Attach the drawer handle to the drawer front.

Figure 4.3.1: Illustration of the smooth-sliding drawer mechanism.

4.4. Shelf Installation

1. Insert shelf pins into the desired holes for the adjustable shelves.
2. Place the adjustable shelves onto the pins.

Figure 4.4.1: Adjustable shelves allow for custom storage configurations.

4.5. Door Installation

1. Attach hinges to the cabinet doors and the cabinet frame using the provided screws.
2. Ensure the clear acrylic door is installed in the upper section as intended.
3. Attach door handles.

Figure 4.5.1: The clear acrylic door provides visibility to stored items.

4.6. Retractable Toilet Paper Rod Installation

1. Locate the designated area for the retractable toilet paper rod, typically within one of the open shelf sections.
2. Follow the specific instructions provided with the rod for secure installation. Note: The rod is designed to be removable before final assembly, but once installed, it may not be easily removed without disassembling parts of the cabinet.

4.7. Anti-Tip Kit Installation

IMPORTANT: This step is mandatory for safety.

1. Position the assembled cabinet in its desired location.
2. Attach the bracket from the anti-tip kit to the top rear of the cabinet using the provided screws.
3. Mark the corresponding spot on the wall. Drill a pilot hole and insert the wall anchor (if required for your wall type).
4. Secure the other end of the anti-tip strap/cable to the wall using the provided screw. Ensure the strap is taut.

Figure 4.7.1: Proper installation of the anti-tipping device is essential for safety.

4.8. Final Checks

- Ensure all screws and fasteners are tightened.
- Check that doors open and close smoothly and are aligned.
- Verify the drawer slides in and out without obstruction.
- Confirm the cabinet is stable and securely anchored to the wall.

5. Operating Instructions

5.1. Adjusting Shelves

1. Empty the shelf you wish to adjust.
2. Carefully remove the shelf pins from their current holes.

3. Insert the shelf pins into the new desired holes, ensuring they are level on both sides.
4. Place the shelf back onto the pins.

5.2. Using the Drawer

The drawer is designed for smooth operation. Pull gently to open and push firmly to close. Avoid slamming the drawer to prolong the life of the slides.

5.3. Using the Retractable Toilet Paper Rod

To use the toilet paper rod, gently pull it out from its housing. Place a roll of toilet paper onto the rod, then push it back into place. Ensure it retracts fully when not in use to maintain the cabinet's slim profile.

6. Maintenance

- **Cleaning:** The painted MDF surface is easy to clean. Wipe with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Inspection:** Periodically check all screws and fasteners to ensure they are tight. Re-tighten if necessary.
- **Anti-Tip Kit:** Regularly inspect the anti-tip kit for any signs of wear or loosening. Ensure the cabinet remains securely anchored to the wall.
- **Door Hinges & Drawer Slides:** If doors become misaligned or drawers stick, check the hinge and slide adjustments. Lubricate with a silicone-based spray if needed.

7. Troubleshooting

Problem	Possible Cause	Solution
Cabinet is wobbly/unstable	Loose fasteners; uneven floor; anti-tip kit not installed or loose.	Ensure all screws are tightened. Place shims under the base if the floor is uneven. Install or re-secure the anti-tip kit to the wall.
Drawer does not slide smoothly	Drawer slides misaligned; debris in slides; screws loose.	Check alignment of drawer slides on both the drawer and cabinet. Clean any debris from the slides. Tighten all screws on the slides.
Doors are misaligned or do not close properly	Hinges are loose or improperly adjusted.	Tighten hinge screws. Adjust hinges using the adjustment screws to align the doors.
Retractable toilet paper rod is stuck	Obstruction; mechanism dirty.	Check for any objects blocking the rod's path. Clean the mechanism if necessary. Do not force the rod.

8. Specifications

Feature	Detail
Brand	IRONCK

Feature	Detail
Model Number	HK-MC-08
Color	White
Material	Engineered Wood
Product Dimensions (D x W x H)	30D x 30W x 180H centimetres (11.8"D x 11.8"W x 70.9"H)
