## FAQs

### 1. Can I use this controller with other DJ software?

- The DDJ-GRV6 is designed to work with *rekordbox* and *Serato DJ Pro*. Other software may be compatible but may not support all features (such as Stems or Groove Circuit).

### 2. What is the Groove Circuit and how does it work?

- The Groove Circuit enables real-time manipulation of drum tracks. You can swap drum loops, apply effects, and create unique remixes during your set B&H Photo Video .

### 3. Does the DDJ-GRV6 support mobile devices?

- Yes, the controller supports *rekordbox* for iOS/Android, giving you the flexibility to DJ with a mobile setup B&H Photo Video .
