ALPINE EV-40MR-T 4 Component Speaker System for Tesla

Product Information

Specifications

- **Component:** 4 Component Speaker System
- **Designed for:** Tesla cars
- **Woofer Single body diameter:** 4" (165mm)
- **Alto screw hole spacing:** 1: 98.6mm, 2: 81.7mm
- **Installation diameter:** 102mm
- **Installation depth/plug-in installation:** 44mm
- **Installation height:** 5.8mm
- **Unit weight:** 219g
- **Maximum rated power (RMS):** 40W
- **Maximum peak power (Peak):** 160W
- **Impedance:** 4Ohm (DCR 3Ohms)
- **Sensitivity:** 90dB SPL (1W @ 1m)
- **Frequency response:** 100Hz – 18kHz
- **Resonance Frequency:** 100Hz

Product Usage Instructions

Precautions

- **Prohibited:** Indicates a prohibited action (must not be performed).
- **Mandatory:** Indicates a mandatory operation (must be performed).
- **Warning:** Indicates that it should draw your close attention. In case of problems, please stop using the device immediately. Continued use may result in personal injury or damage to the product. Please return the product

to the authorized Alpine dealer or nearby Alpine service center for repair.

- **Caution:** Please regularly clean the item with a soft, dry cloth. For tough stains, use only water to dampen the cloth as other solvents may result in dissolution.

Installation

- The product is only suitable for 12V negative-grounded vehicles. Use within other types of vehicles may create a fire or electrical hazard. Please contact a professional for wiring and installation.
- This product requires professional expertise to wire and install. Please contact the dealer from whom you bought the product to install it safely.
- Please do not disassemble or refit. Doing so may result in product damage, fire, or electrical hazard.
- Small items like bolts or screws must be kept out of the reach of children. If ingested, please seek immediate medical attention to avoid serious injury.
- Please do NOT use functions that may distract you while driving. Any device function that may influence your attention must be used only when the vehicle is stopped completely. To use these functions, make sure to stop your vehicle in a safe area first. Otherwise, it may result in an accident.
- While driving, you must maintain the volume at a level that allows outside noise to remain audible. It is very dangerous not to hear an emergency vehicle alarm or road warning signal (such as a railway crossing) and may result in an accident. Moreover, excessively loud volume may create permanent hearing damage or hearing loss.

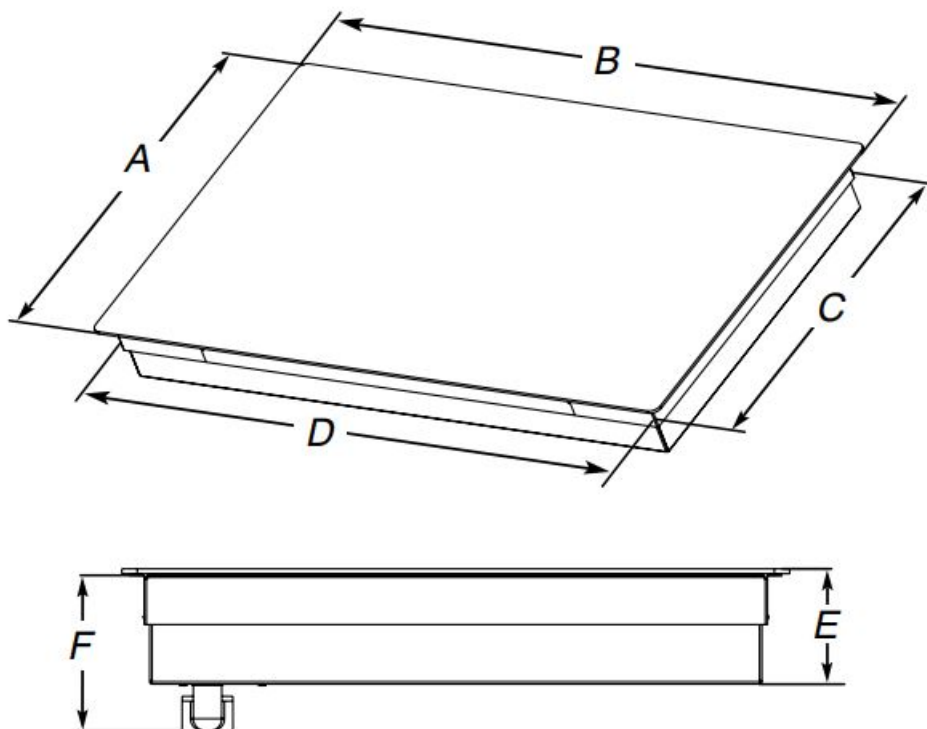

Maintenance

Please regularly clean the item with a soft, dry cloth. For tough stains, use only water to dampen the cloth as other solvents may result in dissolution.

System Matching

This product is specially designed for Tesla cars and is not suitable for other vehicles.
