ocioc 44 inch Ceiling Fan with Lights and Remote (Model 90141) - Instruction Manual

Brand: ocioc | Model: 90141

1. Introduction

Thank you for choosing the ocioc 44 inch Ceiling Fan with Lights and Remote. This manual provides essential information for the safe and efficient installation, operation, and maintenance of your new ceiling fan. Please read these instructions thoroughly before beginning installation and keep them for future reference. This fan features a super quiet and energy-efficient DC motor, reversible airflow for year-round comfort, customizable 3-color temperature dimmable LED lighting, and a modern 5-blade design for powerful airflow.

2. Safety Information

- Always disconnect power at the main circuit breaker before installation or servicing.
- All wiring must be in accordance with national and local electrical codes. If you are unfamiliar with wiring, consult a qualified electrician.
- Ensure the installation site can support the fan's weight (approximately 15-20 kg).
- Do not bend the blade holders during installation, balancing, or cleaning.
- Keep hands clear of the fan blades when the fan is operating.
- This fan is suitable for indoor and covered outdoor use.

3. Package Contents

Verify that all components listed below are included in your package:

- Fan Motor Assembly
- 5 Fan Blades
- LED Light Kit / Lamp
- Remote Control
- Mounting Bracket
- Screw Pack (various screws, washers, wire nuts)

4. Setup / Installation

Follow these steps for proper installation. For a visual guide, please refer to the official installation video provided below.

1. **Attach Fan Blades:** Secure each of the 5 fan blades to the fan motor assembly using the provided screws. Ensure they are firmly attached.
2. **Connect Light Kit:** Connect the wires from the LED light kit to the corresponding wires on the fan motor assembly. Ensure connections are secure.
3. **Install Mounting Bracket:** Secure the mounting bracket to the ceiling junction box. Ensure the bracket is properly anchored and can support the fan's weight.
4. **Electrical Wiring:** Connect the fan's electrical wires to your household wiring. Connect the controller's black wire to the live wire and the white wire to the neutral wire. Ensure the ground wire is also connected. Use wire nuts to secure all connections.

5. **Hang Fan:** Carefully lift the fan assembly and hang it onto the mounting bracket's hook, allowing hands-free wiring.
6. **Secure Fan to Bracket:** Once wiring is complete, align the fan assembly with the mounting bracket and secure it with the provided screws.
7. **Attach Canopy:** Slide the canopy up to the ceiling and secure it to cover the wiring and mounting bracket.

5. Operating Instructions

Your ocioc ceiling fan is operated using the included remote control. Ensure batteries are installed correctly in the remote.

Fan Functions:

- **Fan Speed:** Select from 6 adjustable fan speeds (1-6) to control airflow.
- **Reverse Function:** Use the reverse button to change the direction of the fan blades. Forward mode (counter-clockwise) creates a cooling breeze for summer, while reverse mode (clockwise) circulates warm air in winter.
- **Timer:** Set the fan to automatically turn off after 2, 4, or 8 hours.

Light Functions:

- **On/Off:** Turn the LED light on or off.
- **Color Temperature (3CCT):** Cycle through three color temperature options: warm light (3000K), natural light (4000K), and cool white (6500K).
- **Dimming:** Adjust the light brightness from 10% to 100% to suit your preference.
- **Memory Function:** The fan's light features a smart memory function. Keep a preferred color temperature setting for 7 seconds, then turn off the light for another 7 seconds to save it. The light will recall this setting when turned on again.

6. Maintenance

Regular maintenance ensures the longevity and optimal performance of your ceiling fan.

- **Cleaning:** Clean the fan blades and motor housing periodically with a soft, damp cloth. Do not use abrasive cleaners or solvents that may damage the finish.
- **Tighten Screws:** Periodically check all screws and connections to ensure they are secure. Loose connections can cause noise or wobbling.
- **Light Source:** The integrated LED light is designed for long-term use and does not require frequent bulb replacement. If the light fails, contact customer support.

7. Troubleshooting

If you experience issues with your fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; Loose wire connections; Remote control battery low.	Check circuit breaker and wall switch; Verify all wire connections are secure; Replace remote control batteries.
Light does not work	Loose wire connection to light kit; Faulty LED driver.	Check light kit wiring; Contact customer support for LED driver replacement.
Fan wobbles	Loose blades or mounting screws; Unbalanced blades.	Ensure all blade and mounting screws are tight; Use a balancing kit (not included) to balance blades if necessary.
Remote control not responding	Remote battery low or incorrectly installed; Remote not paired with fan.	Replace remote batteries; Refer to remote pairing instructions (usually involves turning power off/on and pressing a button on the remote within a few seconds).
