ALPINE Software Update Procedure Instructions

INE-F904D / X903D / X803D / X703D / INE-W720D Series software update procedure

Update procedure for audio update – Step 1

The firmware must be updated with two USB devices. First, please download the **"Firmware_standardAUDIO_USB-Stlckl.zip"** and follow the instructions. The INE-F904D X903D / X803D / X703D **/** INE-W720D can be updated via USB connection (see connection diagram below). Before starting the update, please check following notes. The download file is compressed in zip format. The contents of the download need to be extracted to a freshly formatted USB device (FAT32). The update takes 10 to 15 minutes.

**Update file contents/storage place (for all types of units)**

Notes

- Do NOT use the compressed file for updates, otherwise, the Unit cannot recognize the files.
- Do NOT change folder names and file names, otherwise, the Unit cannot recognize the files.
- Do NOT store the folder inside another folder.
- Do NOT store any other folders/files on the USB device.
- Do NOT remove the USB device while updating.
- Do NOT update while driving.
- Do NOT press any buttons while updating.
- Do NOT turn off the vehicle's ignition or head unit's power switch while updating.

Modem vehicles will shut down the ignition (ACC) after some time if the engine is not running. If you are not sure if this applies to your car, leave the engine idling while the update is in progress.

Connection

Alpine Head Unit
USB connector

USB extension cable   USB device

Install update software (USB 1)

1. Store the downloaded and extracted files **"Firmware_standardAUDIO_USB-Stickl.zip"** on the empty USB device in the Root Folder (see left figure).
2. Connect the USB device to the USB connector of the Alpine Head Unit. Please see the lower left figure
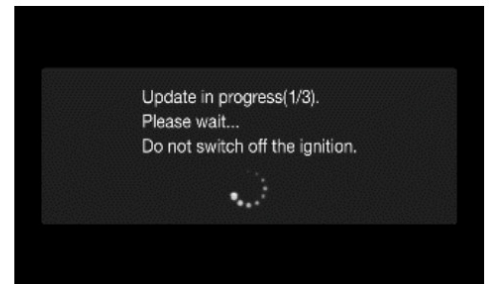

3. Press the **"OK"** button when an update message appears on the screen. The process will now install the new software data to your Alpine Head Unit.

Update will be completed in around 4 minutes.

4. Press the **"OK"** button again when the next update message appears on the screen.

The update will be completed in around 10 minutes. 'Update in progress' steps are 1/3 4 2/3 4 3/3″
