Owner's Manual Use Case

IDCM Product Description:

- Module which controls 3 interior displays.
- Module runs on an android platform.

- Control of this module will be done from the interior displays.
- Module will have the capability to connect to Bluetooth, and will arbitrate the audio in the interior cabin.

Procedure to use Bluetooth Audio:

- Connect user's mobile phone to the vehicle system via Bluetooth.
- Connect user's headset or earphone to IDCM via Bluetooth.
- Turn on user's headset or earphone, and enable Bluetooth function.
- Touch "BT" button on the interior display.
- IDCM searches connectable devices and shows the list of them.
- Choose the user's headset or earphone.

The user controls the operation (selecting audio source, volume control, playback/stop, etc.) by user's mobile phone.

Type Approval

Country	
United States of America	This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: 1. This device may not cause harmful interference, and 2. this device must accept any interference received, including interference that may cause undesired operation.
	FCC CAUTION Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
	This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter
	This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines as this equipment has very low levels of RF energy
	1. This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: 2. This device may not cause interference. 3. This device must accept any interference, including interference that may cause undesired operation of the device.

Canada	1. L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : 2. L'appareil ne doit pas produire de brouillage; 3. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement. This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment and meets RSS-102 of the ISED radio frequency (RF) Exposure rules as this equipment has very low levels of RF energy. Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'ISDE puisque cet appareil a un niveau très bas d'énergie RF
