**DURACELL 1806380**

# DURACELL Work Light with Rotating Base

**1500 Lumens, Rechargeable, 3-Pack (Model: 1806380)**

## Introduction

This manual provides essential information for the safe and effective use of your DURACELL 1500 Lumen Rechargeable Work Light 3-Pack. These versatile lights are designed to illuminate your workspace with a rotating base, powerful magnetic attachment, and a convenient carabiner for easy setup. Each light features a rechargeable lithium-ion battery and includes a USB-C cable for charging. Please read this manual thoroughly before operating the product and retain it for future reference.

## Safety Information

- Do not look directly into the LED light when it is illuminated, as this may cause temporary vision impairment.
- Keep the work light away from flammable materials and liquids.
- Do not disassemble, modify, or attempt to repair the unit. Contact customer support for assistance.
- Use only the provided USB-C cable or a certified equivalent for charging.
- Do not expose the battery to extreme temperatures, direct sunlight, or fire.
- This product is water resistant, not waterproof. Do not submerge in water.
- Keep out of reach of children.

## Package Contents

Your DURACELL Work Light 3-Pack includes:

- 3 x DURACELL 1500 Lumen Rechargeable Work Lights
- 3 x USB-C Charging Cables
- 1 x User Manual (this document)

## Product Features

- **High Brightness:** Up to 1500 lumens of LED illumination.
- **Rechargeable Battery:** Integrated Lithium-Ion battery for cordless operation.
- **Rotating Base:** 180-degree rotating base allows for angled light direction.
- **Magnetic Attachment:** Powerful magnets on the base for secure mounting to metallic surfaces.
- **Carabiner:** Integrated carabiner for hanging the light in various locations.
- **Durable Design:** Water resistant construction for use in various environments.

Image: A side view of the work light illustrating its 180-degree rotating base for adjustable light angles.

## Setup

1. **Initial Charge:** Before first use, fully charge the work light. Connect the provided USB-C cable to the charging port on the light and the other end to a USB power source (e.g., wall adapter, computer USB port). The charging indicator will show the charging status.
2. **Positioning:** Utilize the integrated features for optimal placement:
    - **Magnetic Base:** Attach the light to any ferrous metal surface.
    - **Carabiner:** Hang the light from hooks, ropes, or other suitable fixtures.
    - **Rotating Base:** Adjust the angle of the light by rotating the base up to 180 degrees to direct illumination precisely where needed.

## Operating Instructions

1. **Power On/Off:** Press the power button located on the back of the unit to turn the light on.

2. **Brightness Modes:** Each press of the power button cycles through different brightness modes (e.g., High, Medium, Low) and potentially a flashing mode, before turning off. Continue pressing until the desired brightness is achieved or the light turns off.
3. **Adjusting Light Direction:** Once positioned, rotate the light head on its base to direct the beam. The 180-degree rotation allows for flexible lighting angles.

## Charging

The work light is powered by an internal Lithium-Ion battery. To charge:

- Locate the USB-C charging port on the unit.
- Insert the USB-C cable into the port.
- Connect the other end of the cable to a standard USB power source (e.g., 5V/1A USB wall adapter, computer USB port).
- A charging indicator (typically LED lights) will show the battery's charge status. Refer to the markings near the charging port for specific indicator behavior (e.g., solid lights for full charge, blinking for charging).
- Charging time may vary depending on the power source and battery level.

## Maintenance

- **Cleaning:** Wipe the exterior of the light with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the work light in a cool, dry place away from direct sunlight and extreme temperatures. For long-term storage, it is recommended to charge the battery every 3-6 months to maintain battery health.
- **Battery Care:** Avoid fully depleting the battery frequently, as this can reduce its lifespan. Recharge when the battery indicator shows low power.

## Troubleshooting

| Problem | Possible Cause | Solution |
|---|---|---|
| Light does not turn on. | Battery is depleted. | Charge the work light fully using the provided USB-C cable. |
| Light turns off by itself after cycling through modes. | This is normal operation; the light cycles through modes and then turns off. | Press the power button repeatedly until the desired mode is reached. If it turns off, press again to restart the cycle. |
| Light does not charge. | Faulty cable or power source; charging port issue. | Try a different USB-C cable and a different USB power source. Ensure the cable is securely connected. If the issue persists, contact customer support. |
| Light output is dim. | Low battery; incorrect mode selected. | Recharge the battery. Cycle through the brightness modes to ensure the highest setting is selected. |

## Specifications

| Feature | Specification |
|---|---|
| Brand | DURACELL |
| Model Number | 1806380 |
| Light Source Type | LED |
| White Brightness | 1500 Lumens |
| Power Source | Battery Powered |
| Battery Cell Composition | Lithium Ion |
| Water Resistance Level | Water Resistant |
| Product Dimensions (each) | 3.94 x 3.94 x 3.94 inches |
| Item Weight (each) | Approximately 0.88 lbs (2.64 lbs for 3-pack) |
| UPC | 810156210341 |
