VEVOR DTC-909

VEVOR Pet Stroller Model DTC-909 Instruction Manual

Model: DTC-909 | Brand: VEVOR

1. Introduction

This manual provides detailed instructions for the safe and effective use of your VEVOR Pet Stroller, Model DTC-909. Please read all instructions carefully before assembly and operation to ensure the safety of your pet and yourself.

2. Safety Information

- Do not exceed the maximum weight capacity of 160 lbs (72.5 kg).
- Always secure your pet inside the stroller using the internal leash attachment.
- Engage the rear wheel brakes when the stroller is stationary to prevent unintended movement.
- Ensure all wheels are properly installed and locked before use.
- Regularly inspect the stroller for any signs of wear or damage, especially to the wheels, frame, and fabric.
- Do not leave pets unattended in the stroller.
- Avoid using the stroller on extremely rough or uneven terrain that may compromise stability.
- Keep hands and fingers clear of moving parts during folding and unfolding.

3. Package Contents

Upon opening the package, verify that all components are present:

- 1 x VEVOR Pet Stroller (Main Frame with Fabric Enclosure)
- 4 x Wheels (2 front, 2 rear)
- 1 x Adjustable Handle
- 1 x Removable Inner Pad
- Instruction Manual (this document)

4. Assembly Instructions

Follow these steps to assemble your VEVOR Pet Stroller:

1. **Unfolding the Frame:**
   Carefully unfold the main stroller frame until it locks into the upright position. Ensure all locking mechanisms are

engaged securely.

Image: The VEVOR Pet Stroller fully unfolded, showing its upright position and overall structure.

2. **Attaching the Wheels:**
   Insert the front and rear wheels into their respective slots on the stroller frame. Listen for a click to confirm they are securely fastened. The larger 12-inch wheels are for the rear, and the smaller 7-inch wheels are for the front.

Image: A close-up view of the stroller's wheels, highlighting the 7-inch front wheels and 12-inch rear wheels, along with the link brake system.

3. **Installing the Handle:**
   Attach the adjustable handle to the designated points on the rear of the stroller frame. Press the white buttons on the handle to adjust it to your preferred height. Ensure it clicks into place at the desired setting.

Image: A detailed view of the adjustable handle mechanism, showing how to press the white switch to change the handle's height for comfortable pushing.

4. **Placing the Inner Pad:**
   Place the removable inner pad at the bottom of the pet compartment for added comfort and easy cleaning.

5. Operating Instructions

5.1 Pet Entry and Exit

The stroller features multiple entry points for your pet's convenience:

- **Front Opening:** Unzip the front mesh panel to allow your pet to walk in or out.
- **Rear Opening:** The rear panel also unzips, providing another entry/exit point.
- **Top Sunroof:** For larger pets or those who enjoy looking out, the top mesh panel can be unzipped, allowing them to extend their head.

5.2 Securing Your Pet

Always use the integrated leash attachment inside the stroller to secure your pet and prevent them from jumping out during transit.

5.3 Braking System

The stroller is equipped with a reliable link brake system on the rear wheels. Press down on the brake lever located near the rear wheels to engage the brakes and ensure the stroller remains stationary. Lift the lever to release.

5.4 Maneuverability

The front wheels feature 360° swivel capability, allowing for easy steering and navigation. The large EVA wheels (7" front, 12" rear) and shock-absorbing springs provide a smooth ride over various terrains.

5.5 Folding for Storage/Transport

To fold the stroller, first remove the handle by pressing the side buttons. Then, locate the folding mechanisms on the frame and follow the instructions to collapse the stroller into a compact size for storage or transport in a vehicle.

6. Maintenance

- **Cleaning:** The 600D Oxford fabric is durable and resistant to scratches and bites. For general cleaning, wipe down the fabric with a damp cloth and mild soap. The removable inner pad can be cleaned separately.
- **Wheel Care:** Keep wheels free of debris. Periodically check wheel axles for smooth rotation and lubricate if necessary.
- **Frame Inspection:** Regularly check the alloy frame for any signs of rust or structural damage. Ensure all screws and fasteners are tight.
- **Storage:** Store the stroller in a dry, cool place when not in use to prolong its lifespan.

7. Troubleshooting

Problem	Possible Cause	Solution
Stroller difficult to push or steer.	Wheels may be locked, dirty, or damaged.	Check if brakes are disengaged. Clean wheels of debris. Inspect for damage and replace if necessary.
Stroller does not fold correctly.	Folding mechanisms not fully disengaged or obstructed.	Ensure all release buttons are pressed and there are no obstructions. Refer to assembly section for folding steps.
Pet seems uncomfortable or anxious.	Unfamiliarity with the stroller, lack of ventilation, or rough ride.	Introduce pet gradually. Ensure mesh windows are open for airflow. Check wheels for smooth operation.

8. Specifications
