Garvee pMlgNYomAbSlya8eYcYEzAtFN7O

Garvee 10x13 ft Outdoor Retractable Pergola User Manual

Model: pMlgNYomAbSlya8eYcYEzAtFN7O

1. Product Overview

The Garvee 10x13 ft Outdoor Retractable Pergola is designed to enhance your outdoor living space, providing shade and shelter with its adjustable canopy and side mesh screens. Constructed with a durable aluminum alloy frame, this pergola offers both functionality and a modern aesthetic for various outdoor settings.

Key Features:

- **Retractable Canopy:** Features a built-in sliding rail system for easy adjustment of shaded areas. The canopy is made of PA-coated fabric, providing waterproof and UV-resistant properties.
- **Side Mesh Screens:** Allows for customization of privacy and protection from insects.
- **Sturdy Aluminum Structure:** High-quality aluminum alloy frame with a powder-coated finish ensures rust-proof and corrosion-resistant durability.
- **Spacious Design:** Offers ample space for gatherings, dining, or relaxation.
- **Modern Aesthetic:** Gray design complements various outdoor environments.

2. Safety Information

Read and understand all instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Secure Anchoring:** Ensure the pergola is firmly fixed to a stable foundation. Use appropriate anchoring methods for your specific ground type (e.g., stakes for dirt, expansion bolts for concrete/wood deck).
- **Assembly Precautions:** Exercise caution during assembly and disassembly. It is recommended to assemble with multiple people on flat, level ground.
- **Weight Limit:** Adhere to any specified weight limits for the structure.
- **Weather Conditions:** The use of the canopy is not recommended during extreme weather conditions such as strong winds, heavy rain, or snow. Retract the canopy to prevent damage.
- **Regular Inspection:** Periodically check all bolts, screws, and connections to ensure they are tight and secure.

3. Package Contents

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, contact Garvee customer support.

Component	Description	Quantity
Aluminum Posts	Main vertical support columns	4
Aluminum Beams	Horizontal support beams for the frame	Varies
Retractable Canopy Fabric	PA-coated, waterproof, UV-resistant fabric	1 set
Side Mesh Screens	Privacy and insect protection screens	Varies
Sliding Rail System Components	Rails, glides, and ropes for canopy operation	1 set
Anchoring Hardware	Stakes for dirt ground, bolts/screws for assembly	1 set
Tools	Basic assembly tools (e.g., Allen wrenches)	1 set
Instruction Manual	This document	1

Note: The product is packaged in 1 box.

4. Assembly Instructions

The metal pergola with canopy is designed for straightforward installation. All components are pre-labeled and accompanied by illustrated step-by-step instructions. We recommend assembling it with multiple people on flat ground.

Pre-Assembly Checklist:

- Clear a flat, level area for assembly.
- Unpack all components and verify against the package contents list.
- Ensure you have any additional tools required (e.g., a ladder, drill for expansion bolts if needed).

Step-by-Step Assembly:

1. **Assemble the Frame:** Connect the main aluminum posts and beams according to the provided diagrams. Ensure all connections are secure but do not fully tighten bolts until the entire frame is upright.
2. **Install Sliding Rails:** Attach the sliding rail system components to the frame.
3. **Attach Canopy Fabric:** Carefully install the retractable canopy fabric onto the sliding rail system. Ensure it moves smoothly.
4. **Install Side Mesh Screens:** Attach the side mesh screens to the designated areas on the pergola frame.
5. **Final Tightening:** Once the entire structure is assembled and aligned, fully tighten all bolts and screws.
6. **Anchoring:** For added stability, anchor the pergola to the ground. Stakes are included for dirt ground. For hard surfaces like concrete or wood decks, expansion bolts (not included) are required.

5. Operating Instructions

Retractable Canopy:

The pergola features a retractable canopy that allows you to adjust the amount of shade. To operate:

- **To Extend:** Gently pull the designated rope or handle to slide the canopy fabric along the rails until it reaches the desired position.
- **To Retract:** Pull the rope or handle in the opposite direction to gather the canopy fabric, exposing more sunlight.

The canopy is designed with a carabiner system to secure the tarp when fully deployed, preventing it from swaying in the wind.

Image: Close-up view of the sliding removable canopy mechanism, highlighting its functionality.

Side Mesh Screens:

The side mesh screens can be opened or closed to provide privacy or additional shade as needed. Follow the specific attachment and retraction methods outlined in your assembly guide.

Weather Considerations:

In extreme weather conditions such as heavy rain and snowfall, it is recommended to quickly pull the towing rope to retract the canopy to protect the product from damage.

6. Maintenance

Regular maintenance will prolong the life and appearance of your Garvee pergola.

- **Cleaning the Frame:** Clean the aluminum frame with a mild soap and water solution. Rinse thoroughly with clean water and dry with a soft cloth to prevent water spots. Avoid abrasive cleaners or harsh chemicals.
- **Cleaning the Canopy Fabric:** The PA-coated fabric can be cleaned with a soft brush and mild soap and water. Allow it to air dry completely before retracting or storing. Do not machine wash or tumble dry.
- **Seasonal Care:** During periods of heavy wind, snow, or prolonged non-use, it is advisable to retract the canopy and, if possible, remove and store the fabric indoors to protect it from the elements.
- **Hardware Check:** Periodically inspect all nuts, bolts, and screws to ensure they remain tight. Tighten as necessary.

7. Troubleshooting

Common Issues and Solutions:

- **Pergola Feels Unstable:**
  Solution: Ensure all bolts and screws are fully tightened. Verify that the pergola is properly anchored to the ground using the appropriate hardware for your surface type. If on dirt, ensure stakes are fully inserted. If on hard surfaces, confirm expansion bolts are securely installed.
- **Canopy Does Not Retract/Extend Smoothly:**
  Solution: Check the sliding rails for any obstructions or debris. Ensure the canopy fabric is correctly threaded through the rail system and not snagged. Lubricate the sliding mechanisms if necessary with a silicone-based spray.
- **Missing Parts During Assembly:**
  Solution: Double-check all packaging materials. If parts are genuinely missing, contact Garvee customer support immediately with your purchase details and the specific part numbers required.
- **Water Accumulation on Canopy:**
  Solution: While the canopy is waterproof, prolonged heavy rain can cause pooling if not properly tensioned or if drainage holes are blocked. Ensure the canopy is fully extended and properly tensioned. Clear any debris from drainage points. Retract the canopy during heavy rainfall.

8. Specifications

Attribute	Detail
Brand	Garvee
Model Number	pMlgNYomAbSlya8eYcYEzAtFN7O
Material	Aluminum
Frame Material	Aluminum
Style	Modern
Product Dimensions	58.66"L x 19.21"W x 8.86"H (Packaged)
Floor Area	130 Square Feet (Approx. 10x13 ft)
Item Weight	90.3 Pounds
Water Resistance Level	Waterproof
Ultraviolet Light Protection	UV
Assembly Required	Yes
Color	Blue + White
UPC	199108704665
