PKPOWER AC in Power Cord

PKPOWER AC in Power Cord for Egretech S600 Sonic 600W Portable Power Station User Manual

Model: AC in Power Cord

Brand: PKPOWER

Introduction

This manual provides instructions for the safe and effective use of the PKPOWER AC in Power Cord, designed for compatibility with the Egretech S600 Sonic 600W Portable Power Station.

The power cord features a 6ft cable length and supports an input voltage range of 100-240V.

Product Overview

The PKPOWER AC in Power Cord is a replacement power cable designed to connect your Egretech S600 Sonic 600W Portable Power Station to a standard AC wall outlet for charging or operation.

Safety Information

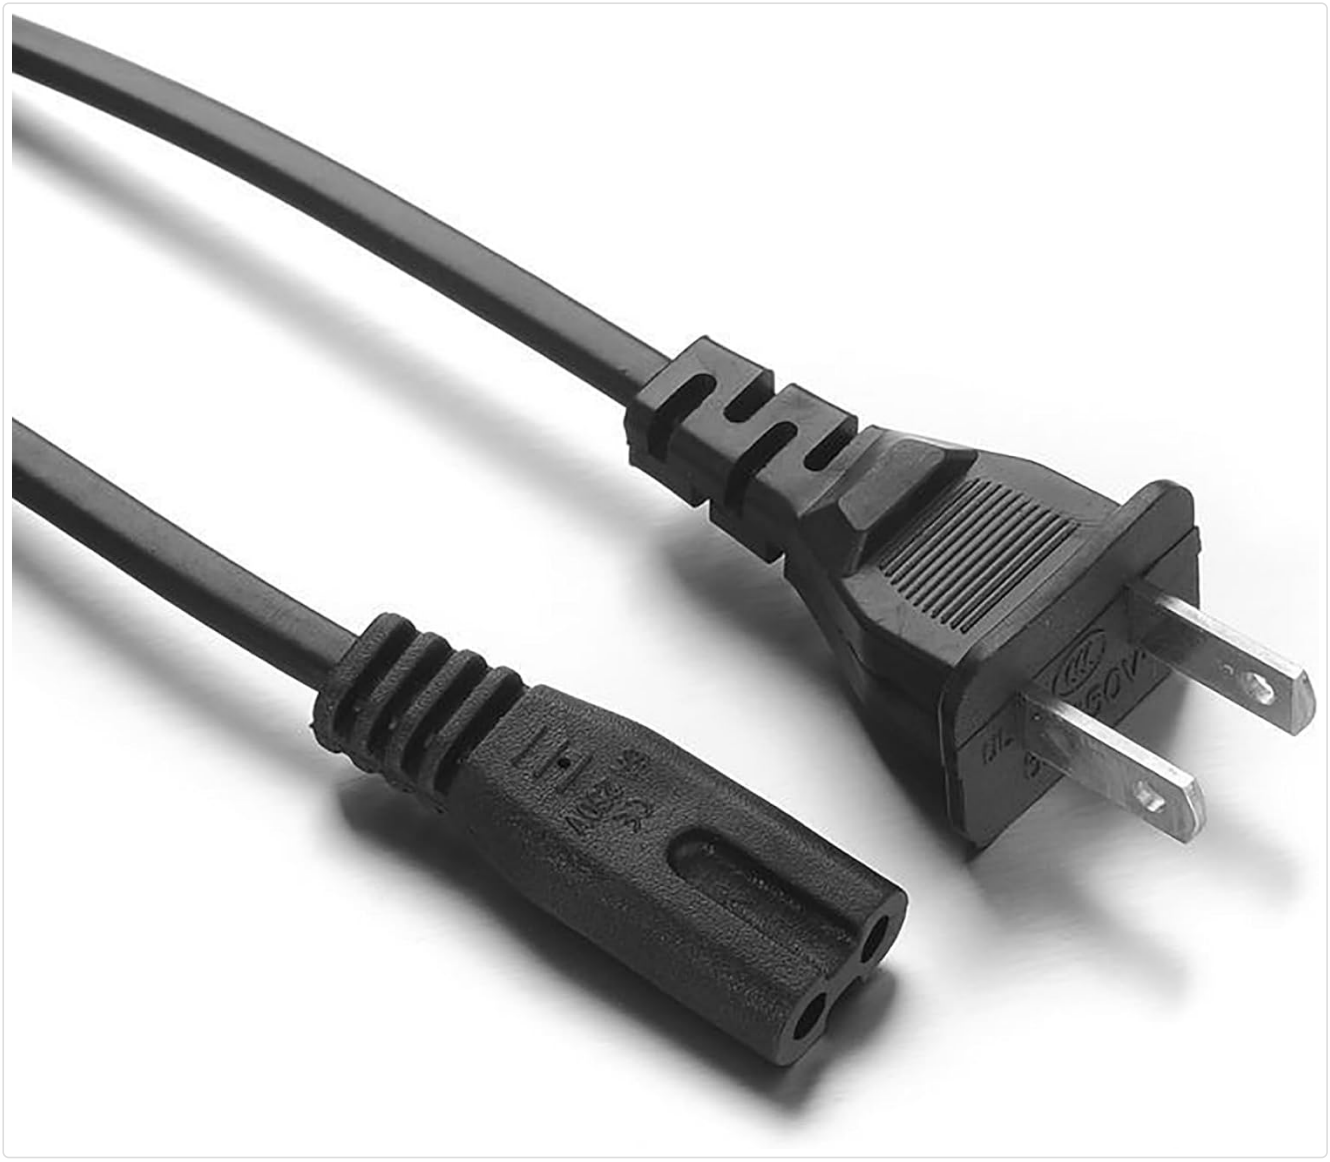
The PKPOWER AC adapter charger has passed FCC testing and holds relevant certificates, ensuring a safe charging experience. This product is manufactured with durable materials for extended lifespan.

Proposition 65 Warning: This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, visit www.P65Warnings.ca.gov.

Setup

Follow these steps to properly set up your AC in Power Cord:

1. Ensure both the Egretech S600 Sonic 600W Portable Power Station and the wall outlet are easily accessible.
2. Identify the AC input port on your Egretech S600 Sonic 600W Portable Power Station.
3. Connect the female end (C7 connector) of the PKPOWER AC in Power Cord to the AC input port of the power station. Ensure a firm connection.



This image shows a close-up of the female C7 connector, which plugs into the power station.

4. Connect the male end (NEMA 1-15P plug) of the PKPOWER AC in Power Cord to a standard 100-240V AC wall outlet. Ensure a firm connection.

This image displays a close-up of the male NEMA 1-15P plug, designed for standard wall outlets.

The power cord is designed for a male-to-female connection, ensuring proper orientation.

An illustration showing both the male NEMA 1-15P plug and the female C7 connector of the power cord, highlighting their distinct shapes.

Operating Instructions

Once the power cord is securely connected to both the Egretech S600 Sonic 600W Portable Power Station and a live AC wall outlet, the power station should begin to charge or operate as intended. Refer to your Egretech S600 Sonic 600W Portable Power Station's user manual for specific charging indicators and operational details.

- **Input Voltage:** The cord is designed to handle input voltages from 100V to 240V AC.

- **Cable Length:** The cable provides a length of 6 feet for flexible placement.

Maintenance and Care

To ensure the longevity and safe operation of your PKPOWER AC in Power Cord, follow these maintenance guidelines:

- **Storage:** Store the power cord in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid sharp bends, kinks, or excessive pulling on the cable, as this can damage the internal wires.
- **Cleaning:** Disconnect the cord from all power sources before cleaning. Wipe the cord and connectors with a dry, soft cloth. Do not use liquid cleaners.
- **Inspection:** Periodically inspect the cord for any signs of damage, such as frayed insulation, exposed wires, or bent/corroded pins. If damage is found, discontinue use immediately and replace the cord.

Troubleshooting

If your Egretech S600 Sonic 600W Portable Power Station is not charging or receiving power when connected with this cord, consider the following:

- **Connection Check:** Ensure both ends of the power cord are securely plugged into the power station and the wall outlet.
- **Outlet Functionality:** Test the wall outlet with another device to confirm it is supplying power.
- **Power Station Status:** Refer to the Egretech S600 Sonic 600W Portable Power Station's manual for its specific charging indicators and troubleshooting steps.
- **Cord Damage:** Inspect the power cord for any visible damage. If damaged, replace it with a new, compatible cord.

This power cord is a passive component. Most operational issues will stem from the power source or the power station itself.

Specifications

Product Specifications

Feature	Detail
Brand	PKPOWER
Compatibility	Egretech S600 Sonic 600W Portable Power Station
Cable Length	6 feet (approx. 1.83 meters)
Input Voltage Range	100-240V AC
Connector Type (Male)	NEMA 1-15P (2-prong US standard)
Connector Type (Female)	IEC C7 (Figure-8)
Connector Gender	Male-to-Female
Color	Black
Item Weight	2 ounces (approx. 56.7 grams)
Product Dimensions (Packaging/Component)	3 x 2 x 0.5 inches (approx. 7.6 x 5.1 x 1.3 cm)
