BIOS Living Deluxe Pill Splitter

BIOS Living Deluxe Pill Splitter User Manual

Model: Deluxe Pill Splitter

1. Introduction

Thank you for choosing the BIOS Living Deluxe Pill Splitter. This device is designed to help you accurately and safely divide medication tablets for precise dosing or easier consumption. Crafted from food-grade plastic with a stainless steel blade, it offers a reliable solution for your medication management needs.
This manual provides important information on the safe and effective use, maintenance, and care of your pill splitter. Please read it thoroughly before first use and retain it for future reference.

2. Safety Information

WARNING: Keep out of reach of children. The blade is sharp and can cause injury.

- Always handle the pill splitter with care.
- Ensure the clear protective blade guard is in place when the device is not in use.
- Do not attempt to split pills that are too large for the splitting platform or are not intended to be split. Consult your pharmacist or physician if unsure.
- Inspect the device for any damage before each use. Discontinue use if any part is broken or compromised.
- Clean the device according to the "Maintenance and Care" section to prevent cross-contamination.

Legal Disclaimer: *Actual product packaging and materials may contain more and different information than what is shown on our website. We recommend that you do not rely solely on the information presented and that you always read labels, warnings, and directions before using or consuming a product.*

3. Parts Identification

Familiarize yourself with the components of your BIOS Living Deluxe Pill Splitter:

Figure 2: Key components of the pill splitter.

- **Beveled Stainless Steel Blade:** The sharp edge designed for precise cutting.
- **Clear Protective Guard:** A transparent shield that covers the blade when the splitter is open, enhancing safety.
- **Non-Slip Splitting Platform:** A textured surface designed to hold pills securely in place during the splitting process.
- **Exterior Grip:** Textured areas on the outside of the splitter for a secure and comfortable hold.

4. Setup

The BIOS Living Deluxe Pill Splitter requires no assembly. It is ready for use directly out of the packaging.

1. Remove the pill splitter from its packaging.
2. Before first use, wash the non-blade components with warm, soapy water, rinse thoroughly, and allow to air dry. Do not immerse the entire unit in water, especially the blade area.
3. Ensure the device is completely dry before use.

5. Operating Instructions

Follow these steps to safely and effectively split your medication:

Figure 3: Demonstrating the ease of use of the pill splitter.

1. **Open the Splitter:** Gently lift the top lid of the pill splitter until it is fully open, exposing the blade and the splitting platform.
2. **Position the Pill:** Carefully place the pill onto the non-slip splitting platform. Ensure the pill is centered and stable, aligning it with the blade's path for an even split.
3. **Close and Split:** While holding the base firmly with one hand, slowly and steadily bring the top lid down with the other hand. Apply gentle, even pressure until the blade cuts through the pill.
4. **Retrieve Pill Halves:** Once the pill is split, open the lid completely. Carefully remove the two halves of the pill from the platform.
5. **Clean After Use:** Refer to the "Maintenance and Care" section for cleaning instructions.

Note: *Not all pills are suitable for splitting. Consult your healthcare professional or pharmacist before splitting any medication.*

6. Maintenance and Care

Proper care will ensure the longevity and hygiene of your pill splitter:

- **Cleaning:** After each use, open the splitter and carefully brush away any pill residue from the platform and around the blade using a soft, dry brush or cloth. For a more thorough cleaning, wipe the non-blade components with a damp cloth and mild soap. Rinse with a clean, damp cloth. Do not immerse the entire unit in water.
- **Drying:** Ensure all parts are completely dry before closing the splitter or storing it.
- **Storage:** Store the pill splitter in a clean, dry place, away from direct sunlight and extreme temperatures. Keep it out of reach of children.
- **Inspection:** Periodically inspect the blade for any signs of dullness or damage. If the blade becomes dull or the device is damaged, it is recommended to replace the unit.

7. Troubleshooting

Problem	Possible Cause	Solution
Pills are not splitting evenly.	Pill not centered; pill too hard/soft; blade dull.	Ensure pill is perfectly centered on the platform. Some pills are not designed to be split. If the blade appears dull, replace the splitter.
Pill crumbles when split.	Pill too brittle; incorrect pressure applied.	Apply slow, steady pressure. Some pills are not suitable for splitting due to their composition. Consult your pharmacist.
Lid feels stiff or difficult to close.	Residue build-up in hinge; foreign object.	Clean the hinge area thoroughly. Ensure no pill fragments are obstructing the mechanism.

8. Specifications

Figure 4: Physical dimensions of the BIOS Living Deluxe Pill Splitter.

- **Model:** Deluxe Pill Splitter
- **Material:** Food-Grade Plastic, Stainless Steel Blade
- **Color:** Clear
- **Dimensions (L x W x H):** 9.43 x 4.54 x 3.63 cm (approximately 3.7 x 1.8 x 1.4 inches)
