VEVOR GS302

VEVOR Pet Stroller (Model GS302) Instruction Manual

For models: GS302

Important Safety Information

Read all instructions before assembly and use. Adhering to these guidelines ensures the safety and longevity of your VEVOR Pet Stroller.

- Do not exceed the maximum weight capacity of 35 lbs (16 kg).
- Always secure your pet inside the carrier using the internal safety leash provided.
- Ensure all wheels are locked using the rear brakes when the stroller is stationary.
- Never leave pets unattended in the stroller.
- Regularly inspect the stroller for any signs of wear, damage, or loose parts.
- Keep the stroller away from open flames, heaters, and extreme temperatures.
- This stroller is designed for pets only. Do not use it for children or other purposes.

Package Contents

Verify that all components are present before beginning assembly:

- Stroller Frame (1)
- Detachable Pet Carrier (Basket) (1)
- Front Wheels (2 sets)
- Rear Wheels (2 sets)
- Rear Wheel Covers (2)
- B-type Clips (2)
- Screws (5)
- Instruction Manual (1)

Setup and Assembly

1. Attaching the Wheels

Attach the front and rear wheels to the designated slots on the stroller frame. Push firmly until you hear a click, indicating they are securely locked. The front wheels are designed for 360° rotation, allowing for easy maneuverability.

Product Size

2. Attaching the Pet Carrier

Position the detachable pet carrier onto the stroller frame. Secure it by fastening the Velcro straps at the back of the carrier to the frame. Ensure the front ends of the carrier slide onto the designated poles on the frame for added stability. Double-check that the carrier is firmly attached before placing your pet inside.

3. Folding and Unfolding

To fold the stroller for compact storage, locate the release button on the handle. Press the button and rotate the handle forward, allowing the frame to collapse. Secure the folded frame with the integrated folding hook. To unfold, release the hook and extend the frame until it locks into its upright position.

Operating Instructions

1. Placing Your Pet in the Carrier

Open the mesh window or zipper to allow your pet to comfortably enter the carrier. Utilize the internal 3-point harness to secure your pet, preventing any accidental escapes and ensuring their safety during travel. The breathable mesh windows provide ample ventilation and a clear view for your pet.

2. Using the Brakes and Wheels

The stroller is equipped with 360° rotating front wheels for effortless navigation and smooth turns. To stop and secure the stroller, engage the rear brakes by pressing down on the brake levers located near the rear wheels. Always ensure both brakes are engaged when the stroller is stationary to prevent unintended movement.

3. Detachable Carrier Functionality

The pet carrier can be easily detached from the stroller frame. This allows it to be used independently as a portable pet carrier or secured in a car seat, providing a safe and cozy space for your pet during car journeys. This versatile feature adapts to various travel needs.

4. Storage and Accessories

Utilize the convenient storage basket located beneath the carrier for carrying pet snacks, toys, and other personal items. The handle also includes integrated cup holders for your beverages, enhancing convenience during walks.

Maintenance

1. Cleaning

The 600D Oxford fabric of the carrier can be spot cleaned with a mild soap and water solution. Allow the fabric to air dry completely before reassembling or storing. Regularly wipe down the alloy frame with a damp cloth to remove any dirt, dust, or debris.

2. Wheel Care

Keep the EVA foam wheels free of dirt, mud, and other debris. Periodically check the wheel axles for smooth rotation and lubricate them with a silicone-based spray if necessary to maintain optimal performance.

3. Storage

When not in use, fold the stroller for compact storage. Store it in a dry, cool place away from direct sunlight and extreme temperatures to prevent material degradation and prolong its lifespan.

Troubleshooting

1. Stroller is difficult to maneuver:

- Check if the front wheels are locked. Unlock them to enable 360° rotation.
- Ensure wheels are free of debris and rotate smoothly. Lubricate if needed.

2. Carrier feels unstable:

- Verify that the Velcro straps at the back of the carrier are securely fastened to the frame.
- Confirm that the front ends of the carrier are properly seated on the frame poles.

3. Stroller does not fold easily:

- Ensure the release button on the handle is fully pressed.
- Check for any obstructions preventing the frame from collapsing smoothly.

Specifications

Feature	Detail
Product Dimensions (L x W x H)	31.89" x 18.11" x 38.19" (81 x 46 x 97 cm)
Folded Size	13" x 22" x 37" (33 x 56 x 94 cm)
