Aeitto 32QT(30L) Dual Zone Blue

Aeitto 32QT Dual Zone Portable Car Refrigerator

USER MANUAL

1. Product Overview

The Aeitto 32QT Dual Zone Portable Car Refrigerator is a versatile cooling and freezing solution designed for travel, camping, RVs, and home use. It features independent dual-zone temperature control, allowing it to function as both a refrigerator and a freezer simultaneously. Its robust design includes energy-saving modes, battery protection, and user-friendly features for enhanced convenience and portability.

Figure 1: Aeitto 32QT Dual Zone Portable Car Refrigerator with dual compartments for various items.

2. Safety Information

Before operating the appliance, please read all safety instructions carefully. Ensure the refrigerator is placed on a stable, level surface. Do not block ventilation openings. Avoid exposing the unit to direct sunlight or heat sources. Always disconnect power before cleaning or performing maintenance. Keep out of reach of children.

3. What's in the Box

- 32 Quart Portable Car Refrigerator
- 12V/24V DC Power Cord
- 100V-240V AC Adapter Cord
- Cutting board
- User Manual

4. Setup

1. **Initial Placement:** Upon delivery, the refrigerator may have been inverted. To ensure proper operation of the compressor, please keep the refrigerator standing upright for 15 hours before using it again.
2. **Power Connection:** Connect the appropriate power cord (DC for vehicle, AC for home) to the refrigerator's power input.
3. **Initial Cooling:** For optimal performance, it is recommended to pre-cool the refrigerator before loading it with items.

5. Operating Instructions

5.1 Dual Zone Temperature Control

The Aeitto car refrigerator features independent temperature control for its dual zones. You can set each compartment to a desired temperature between -4°F (-20°C) and 68°F (20°C). This allows for flexible storage, such as using one side as a freezer and the other as a cooler.

Figure 3: Illustrates the four smart modes for temperature control.

Figure 4: Control panel with temperature display and settings.

5.2 Power Connection & Modes

The refrigerator supports both DC (12V/24V) and AC (100-240V) power inputs. It also features MAX and ECO modes for energy efficiency. MAX mode provides rapid cooling, while ECO mode maintains temperature with lower energy consumption. Three battery protection levels (low, medium, high) prevent vehicle battery drain.

5.3 User-Friendly Features

The unit is designed for convenience with retractable tie rods, sturdy wheels, and integrated handles for easy transport. A built-in utility cutting board is included for food preparation. LED lighting inside improves visibility, and a USB charging port allows you to charge electronic devices. The removable refrigerator door can be reconfigured for different opening methods and simplifies cleaning.

Figure 5: Portability features including retractable handle and wheels.

5.4 Low Noise and Anti-Shaking

Operating at less than 45 dB, the refrigerator ensures a quiet environment. Its 30-degree shockproof function allows for stable operation even on rough roads, making it ideal for various vehicles like trucks, RVs, vans, and SUVs.

6. Maintenance

To ensure the longevity and efficiency of your Aeitto car refrigerator, regular maintenance is recommended:

- **Cleaning:** Clean the interior and exterior regularly with a damp cloth and mild detergent. The removable door and built-in drainage outlet make cleaning easy. Ensure the unit is unplugged before cleaning.

- **Ventilation:** Keep the ventilation grilles clear of dust and debris to ensure proper airflow for the compressor.
- **Storage:** When not in use for extended periods, ensure the unit is clean and dry, and store it in a well-ventilated area.

7. Troubleshooting

If you encounter issues with your Aeitto car refrigerator, refer to the following common troubleshooting tips. For detailed solutions, please consult the full user manual provided with your product.

- **Unit Not Turning On:** Check power connections (DC/AC) and ensure they are securely plugged in. Verify the power source is active.
- **Insufficient Cooling:** Ensure ventilation openings are not blocked. Check temperature settings and adjust if necessary. Avoid overloading the compartments.
- **Unusual Noise:** Verify the unit is on a stable, level surface. Check for any loose items inside or around the compressor area.

8. Specifications

Feature	Detail
Brand Name	Aeitto
Item Weight	41.8 pounds
Product Dimensions	17.3 x 27.9 x 15.4 inches
Capacity	32 Quarts
Refrigerator Fresh Food Capacity	22.5 Liters
Freezer Capacity	6.5 Liters
Installation Type	Built-In
Special Features	Energy Efficient, Freezer Light, Anti-Shake, Large Capacity, Low Noise
Color	Blue
Defrost	Manual
Door Hinges	Reversible
Door Material Type	Plastic
Number Of Doors	2
