ZeaCotio Self Cleaning Litter Box

ZeaCotio Open-Top Self-Cleaning Litter Box User Manual

Model: MINIC-BOX0507

Introduction

The ZeaCotio Open-Top Self-Cleaning Litter Box is an advanced automatic cat litter system designed to simplify pet care and maintain a clean home environment. This manual provides essential information for the proper setup, operation, and maintenance of your new litter box.

Figure 1: ZeaCotio Open-Top Self-Cleaning Litter Box with app interface on a phone.

Key features include a spacious open design suitable for various cat sizes, dual safety sensors for pet protection, smart app connectivity for remote monitoring and control, and a hassle-free installation and cleaning process.

Figure 2: Illustration of the spacious half-open design, showing a cat comfortably inside the litter box, alongside the 15L waste bin, fragrance box, and trash bags.

Setup and Installation

Setting up your ZeaCotio litter box is designed to be quick and efficient with its user-friendly snap-on design. Follow these steps for initial assembly:

1. **Unpack Components:** Carefully remove all parts from the packaging. Ensure all components listed in the packing list are present.
2. **Assemble Base and Main Unit:** The main unit and base connect with a snap-on mechanism. Align the components and press firmly until they click into place.
3. **Install Waste Bin and Liner:** Insert the provided trash bag into the waste bin located at the bottom of the unit. Ensure the bag is properly secured.

4. **Add Litter:** Fill the litter compartment with clumping cat litter. Do not overfill; refer to the MAX/MIN indicators inside the litter compartment.
5. **Power On:** Connect the power adapter to the unit and plug it into a wall outlet. The indicator lights on the front will illuminate.

Figure 3: Visual guide for installation and disassembly: 1. Open the latch, 2. Remove the top cover, 3. Remove the globe and thoroughly clean it. Reminder: Before reassembling, please wipe and air dry the surface of the base.

Operating Instructions

The ZeaCotio litter box offers both automatic and manual operation modes, along with smart app control for enhanced convenience.

Automatic Operation

The litter box is equipped with sensors that detect when your cat uses the box. After a preset delay (allowing litter to clump), the unit will automatically initiate a cleaning cycle. This ensures a fresh litter bed for your cat at all times.

Manual Control Buttons

The front panel of the litter box features three control buttons:

- **Wi-Fi Button:** Used for connecting the device to your home Wi-Fi network for app control.
- **Cleaning Button:** Initiates a manual cleaning cycle. Press this button to start a cycle immediately.
- **Waste Bin Empty Button:** Activates the waste disposal mode, preparing the unit for emptying the waste bin.

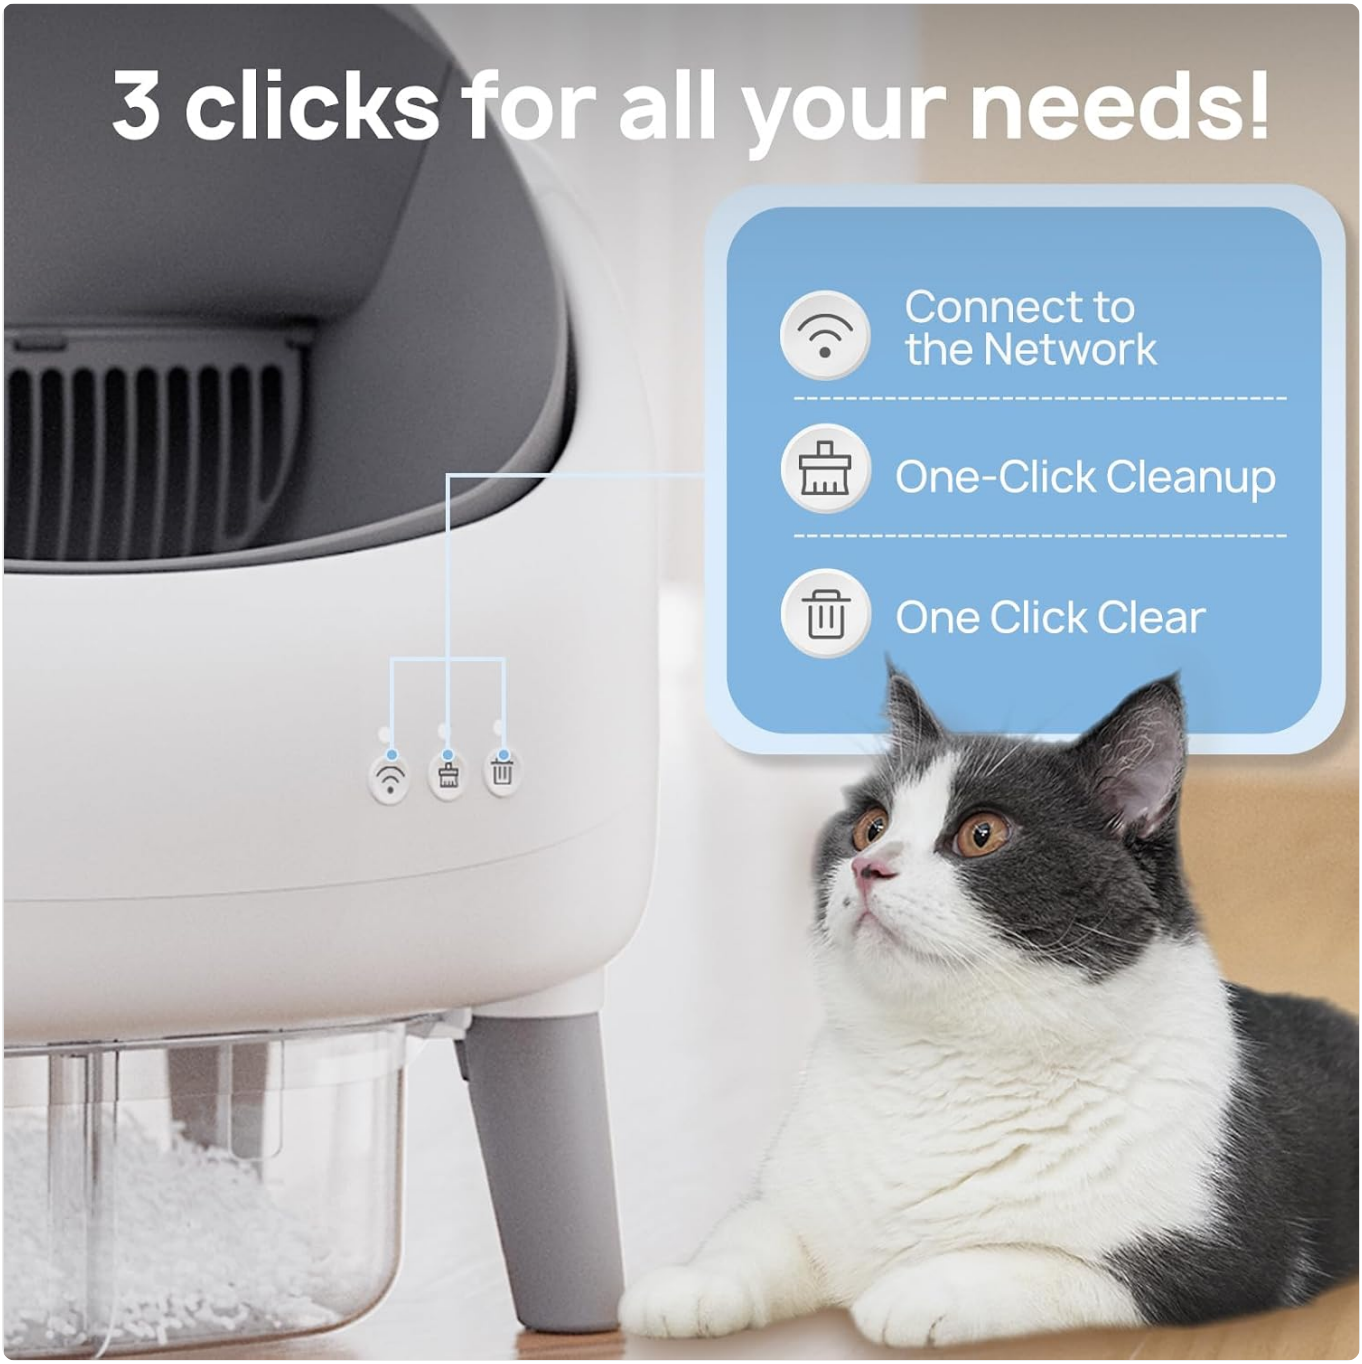

Figure 4: The three intuitive buttons for network connection, one-click cleanup, and one-click clear (waste disposal).

Smart App Connectivity

Download the dedicated smart app to unlock full control and monitoring capabilities. The app allows you to:

- Monitor the litter box status in real-time.
- Receive alerts when the waste bin is full.
- Track activity logs to observe your pet's habits.
- Adjust settings and review historical data.
- Initiate cleaning cycles remotely.

Figure 5: Remote real-time monitoring and control via the smart app, making cat ownership easier.

Safety Features

Your cat's safety is a top priority in the design of this litter box. It incorporates advanced sensor technology to ensure a worry-free experience.

- **Dual Safety Sensors:** The litter box automatically pauses the cleaning process if any movement is detected, resuming only once your cat has safely exited the unit. This prevents any potential harm during operation.
- **Gravity Sensor:** Accurately identifies cat weight, cat entry and exit, records toileting data, and monitors cat health.
- **Infrared Sensor:** Provides real-time monitoring of cats approaching, intelligently suspending operation to prevent fright or pinching.

Figure 6: Dual sensor protection efficiently detects cat activity and stops working automatically for safety.

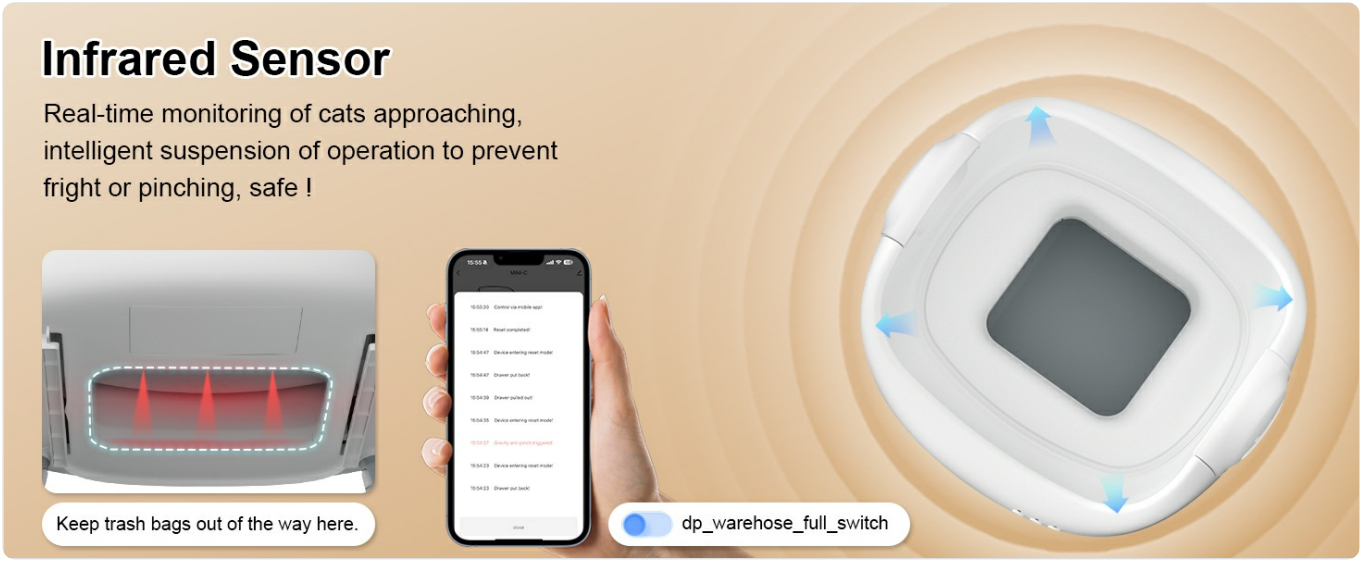

Figure 7: Illustration of the gravity sensors on the feet for weight detection and infrared sensors for real-time monitoring of cat presence.

Maintenance

Regular maintenance ensures optimal performance and hygiene of your litter box. The design facilitates easy cleaning.

Waste Disposal

The waste bin should be emptied regularly, depending on the number of cats and their usage. The app will notify you when the bin is full. To empty:

1. Press the Waste Bin Empty button on the unit or in the app.
2. Pull out the waste drawer from the bottom of the unit.
3. Tie and remove the full trash bag.
4. Replace with a new trash bag and slide the drawer back into place.

Liner and Filter Cleaning

The internal liner and high-performance filter are removable for thorough cleaning:

- **Removable Washable Liner:** The liner can be easily removed and washed to eliminate odor residue and ensure deep cleaning.
- **High-Performance Filter:** The filter is designed for easy compatibility with clumping cat litter and can be removed for cleaning to maintain efficient waste separation.

Figure 8: The removable washable liner allows for easy and thorough cleaning, helping to eliminate odor residue.

Figure 9: The high-performance filter is removable for easy compatibility with clumping cat litter, ensuring effective separation of waste.

For deep cleaning, disassemble the unit as shown in Figure 3. Wipe and air dry all surfaces before reassembly.

Specifications

Feature	Detail
Item Weight	22 pounds (10 Kilograms)
Item Dimensions (LxWxH)	21.6 x 20 x 21 inches
Model Name	MINIC-BOX0507

Color	Grey-white
Material	Plastic
Weight Limit	27 Pounds
Litter Box Type	Automated Self-Cleaning Litter Box
Target Audience	House-cats, Cats

Troubleshooting

If you encounter any issues with your ZeaCotio litter box, please refer to the following common troubleshooting tips:

- **Unit Not Responding:** Ensure the power adapter is securely plugged into both the unit and a working electrical outlet. Check if the indicator lights are on.
- **Cleaning Cycle Not Initiating:** Verify that the litter level is within the MAX/MIN indicators. Ensure no obstructions are present in the litter bed or the sifting mechanism. Check if the waste bin is full and needs emptying.
- **App Connectivity Issues:** Confirm your Wi-Fi network is active and the litter box is within range. Restart both the litter box and your smartphone. Ensure the app is updated to the latest version.
- **Odor Problems:** Ensure the waste bin is emptied regularly. Clean the removable liner and filter as per maintenance instructions. Consider using the integrated fragrance box if available.
- **Excessive Noise:** Check for any foreign objects or obstructions in the rotating mechanism. Ensure the unit is placed on a flat, stable surface.

For persistent issues not resolved by these steps, please contact customer support.

Warranty and Support

ZeaCotio stands behind the quality of its products. Your Open-Top Self-Cleaning Litter Box comes with a manufacturer's warranty covering defects in materials and workmanship under normal use.

For detailed warranty information, product registration, or to contact our dedicated support team, please visit the official ZeaCotio Store on Amazon or refer to the contact information provided with your product packaging. Our support team is ready to assist you with any issues or questions, ensuring your litter box continues to perform at its best.

Answered questions about this manual

Why is my ZeaCotio Self-Cleaning Litter Box (MINIC-BOX0507) getting stuck in the closed position, preventing my cat from accessing it?

If your ZeaCotio Self-Cleaning Litter Box (Model MINIC-BOX0507) is staying in a "closed" position (where the globe has rotated and not returned to the open home position), it is likely due to a safety...
