BinpLax CP404BK01A-TC-BC

BinpLax 12x20 FT Heavy Duty Galvanized Steel Carport Canopy

Model: CP404BK01A-TC-BC

Introduction

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your BinpLax 12x20 FT Heavy Duty Galvanized Steel Carport Canopy. Designed for all-weather protection, this structure offers a robust shelter for vehicles, equipment, and various outdoor activities. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Safety Information

Always follow the assembly instructions provided. Secure the shelter to the ground using the included heavy-duty stakes to prevent it from moving in strong winds or heavy snowfall. Do not attempt to assemble or disassemble the shelter in windy or wet conditions. Regularly inspect the shelter for any signs of wear or damage and perform necessary maintenance to ensure its continued safety and stability.

Setup and Assembly

The BinpLax carport is designed for straightforward assembly. It will be delivered in three separate parcels, which may not arrive simultaneously. Please check the specific logistics details for each package using the provided tracking numbers. Ensure all components are present before beginning assembly.

Structural Reinforcement

The carport features a galvanized steel framework with an additional 10 horizontal metal frames for a robust cross-frame structure. This design enhances its capacity to endure strong winds and heavy snowfall.

Base Installation

For optimal stability, the metal carport is equipped with heavy-duty ground stakes suitable for various surfaces including soil, cement, gravel, asphalt, wood, and sand. The bottom brackets are designed not to touch the ground, allowing installation over minor obstacles. Anchor bolts are included for securing the carport to concrete surfaces.

Additional Features

The carport includes 3 top brackets for improved wind and snow resistance, and 5 ceiling hooks for suspending lanterns or other lightweight decorations.

Operating Guidelines

The BinpLax carport provides an extra-large functional space measuring 241.7" in depth, 144.2" in width, and 105.5" in height. Its open layout facilitates easy access and versatility.

Weather Protection

The carport roof is designed with an innovative stacked tile installation method, ensuring each galvanized sheet is securely fastened to prevent leakage. This design provides 100% anti-leak protection, 99% UV resistance, and strong wind and snow resistance.

Versatile Use

This carport is suitable for a variety of applications, including sheltering cars, trucks, boats, and tractors. It can also serve as a backyard shed, a space for patio parties and events, or for farm use and firewood storage.

Care and Maintenance

To ensure the longevity and continued performance of your carport, regular inspection and maintenance are recommended.

- **Regular Inspection:** Periodically check all bolts, screws, and connections to ensure they are tight and secure.
- **Cleanliness:** Keep the roof panels free of excessive debris, leaves, or snow accumulation to prevent structural strain.
- **Damage Check:** Inspect the galvanized steel framework and roof panels for any signs of rust, dents, or other damage. Address any issues promptly to prevent further deterioration.
- **Ground Stakes:** Verify that ground stakes remain firmly anchored, especially after severe weather conditions.

Troubleshooting

If you encounter any issues with your BinpLax carport, consider the following common troubleshooting steps:

- **Stability Concerns:** Ensure all ground stakes are properly installed and tightened. For concrete surfaces, verify anchor bolts are securely fastened.

- **Leakage:** Check the roof panels for any gaps or loose fastenings. The stacked tile design is intended to be leak-proof; ensure proper overlap and secure installation.
- **Missing Parts:** If parts are missing upon delivery, refer to the customer support section for assistance. Remember that the product ships in three separate parcels.

For issues not resolved by these steps, please contact customer support.

Specifications

Feature	Detail
Brand	BinpLax
Model Number	CP404BK01A-TC-BC
Product Dimensions (L x W x H)	241"L x 144"W x 105"H (20.08 ft L x 12 ft W x 8.75 ft H)
Material	Alloy Steel (Frame), Galvanized Metal (Roof Panels)
Frame Material	Metal
Water Resistance Level	Waterproof
Ultraviolet Light Protection	Yes (99% UV Resistant)
Assembly Required	Yes
Color	Black
UPC	799413411847
