**ALTSON WLHJZD-W LED Portable Selfie Light**

## INTRODUCTION

For content producers, vloggers, and anybody else who wishes to get the ideal illumination for selfies, video chats, and live streams, the ALTSON WLHJZD-W LED Portable Selfie Light is an essential tool. With its 10 brightness settings and three customizable light modes, this small and lightweight LED light was designed for convenience and lets you tailor the lighting to any setting.

It guarantees bright, natural illumination with a CRI of 97+, giving your pictures and films a polished appearance. It has a USB Type-C port and can run on a single charge for up to 2.5 hours. This portable light is a great option for improving makeup application, online meetings, and low-light photography. The ALTSON WLHJZD-W, which was introduced on May 1, 2023, and is reasonably priced at \$14.95, is guaranteed to be dependable and long-lasting for 24 months.

Price	\$14.95
Battery Life	2.5 Hours
Connectivity Technology	USB
Light Modes	3 Light Modes & 10 Brightness Levels
Best Light Effect	CRI 97+
Hardware Interface	USB Type-C
Product Dimensions	2.8 x 0.78 x 3.9 inches
Item Weight	7.7 ounces
Item Model Number	WLHJZD-W
Batteries Required	1 Lithium Polymer battery
Date First Available	May 1, 2023
Manufacturer	ALTSON
Warranty	24 Months

### WHAT'S IN THE BOX

- Selfie Light
- Manual

### FEATURES

- **High CRI 97+ Lighting:** Provides accurate and vivid colors by using natural and expert lighting.
- **Three Light Modes:** To accommodate various settings, this device offers White, Natural, and Warm light settings with a range of 2500K to 6500K.

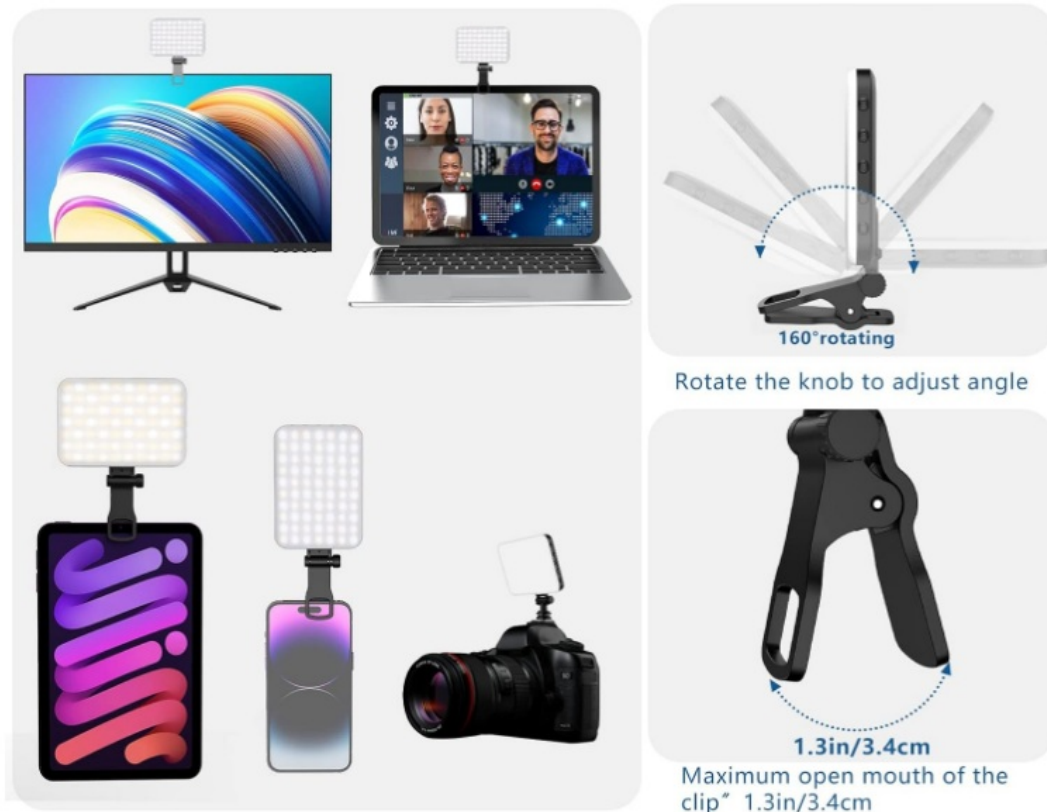

## 3-Color Lights & 10-Level Brightness

- **Adjustable Brightness:** You can adjust the illumination for photos, movies, and selfies with 10 brightness settings.
- **Integrated 60 LED Beads:** Provides even, gentle lighting for images and movies of high quality.
- **Multi-Device Compatibility:** Provides versatility by working with cameras, laptops, computers, tablets, phones, and tripods.

# Universal Compatibility

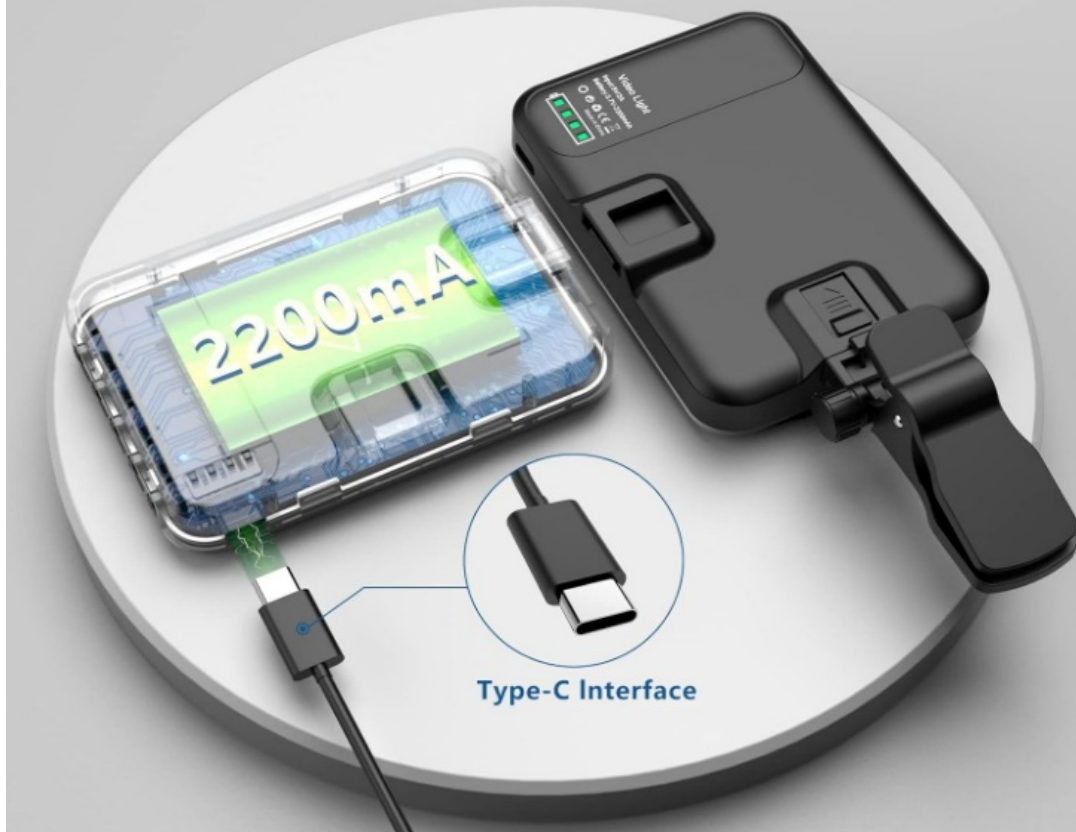

Fit with multiple devices, including laptops, desktops  
tablets, cellphones, and camera (1/4" Hot Shoe Mount Included), etc

- **Rotatable Light Panel:** This panel may be rotated 160 degrees to provide the ideal lighting effect.
- **Includes Mounting Accessories:** A 1/4-inch thread adapter and a hot shoe mount for cameras, tripods, and selfie sticks are included.
- **Rechargeable Battery:** A 2200mAh battery can run at 10% brightness for up to 15 hours or 50% brightness for up to 4 hours.

# Built-in 2200mAh Battery

With 39.3" long Type-C charging cable, the battery is environmentally rechargeable.

- **USB Type-C Charging:** Fast charging and little downtime are guaranteed via USB Type-C charging.
- **Compact & Lightweight:** Measuring just 7.7 ounces and measuring 2.8 x 0.78 x 3.9 inches in the pocket, it is incredibly portable.
- **Perfect for Content Creators:** Fits YouTube, Snapchat, TikTok, FaceTime, Zoom meetings, vlogging, and more.
- **Simple Clip-On Design:** Easily fastens to monitors, laptops, or phones for steady illumination.
- **Multipurpose Use:** Serves as a reading lamp, a fill light for photos, or a light for video conferences.
- **Long Battery Life:** With efficient power use, the battery lasts 2.5 hours at full brightness.

## SETUP GUIDE

- **Open the package:** Make sure you have the following accessories: storage pouch, 1/4-inch nut adapter, USB-C cable, clip, LED light, and hot shoe mount.
- **Charge the Light:** Before using the 2200mAh battery for the first time, make sure it is fully charged using the USB Type-C cable.
- **Power On:** To activate the light, press the power button.
- **Select a Light Mode:** To adapt to your surroundings, switch between the White, Natural, and Warm light settings.
- **Adjust Brightness:** There are ten brightness levels available to select from using the brightness slider.
- **Connect to a Laptop or Phone:** For video chats and selfies, attach the light to the screen of your laptop,

tablet, or smartphone.

- **Use as a Camera Light:** Use the ¼-inch thread adapter and hot shoe mount to connect it to a tripod or camera.
- **Rotate for Ideal Lighting:** Modify the 160° rotation to focus light in the appropriate areas.
- **Test Lighting Position:** To achieve equal lighting and reduce shadows, try different angles.
- **Track Battery Life:** Use the USB Type-C connector to recharge the battery when it becomes low.
- **Use for Video Recording:** Perfect for live streaming, YouTube, and TikTok.
- **Optimize for Zoom Meetings:** For video calls, connect to your laptop or monitor to provide a polished lighting effect.
- **Utilize as a Makeup Light:** Ideal for applying makeup in low light levels.
- **Detach After Use:** When you're done using the light, turn it off and take it off of your tripod or device.
- **Store Correctly:** To avoid damage during transit, keep in the pouch that comes with it.

## CARE & MAINTENANCE

- **Turn Off When Not in Use:** By shutting off the light when not in use, you may extend the life of your battery.
- **Charge with the Right Cable:** To avoid damaging the battery, always use a USB Type-C cable.
- **Avoid Overcharging:** To stop battery wear, unplug the device after it is fully charged.
- **Clean Frequently:** To get rid of dust and smudges, use a gentle microfiber cloth.
- **Keep in a Secure Location:** To avoid scuffs or damage, use the storage pouch.
- **Handle Carefully:** To avoid damaging internal components, do not drop the lamp.
- **Avoid Water:** Avoid exposure to dampness or rain as it is not waterproof.
- **Avoid Blocking Air Vents:** To avoid overheating, make sure there is enough ventilation.
- **Examine Battery Performance:** If the battery's lifespan noticeably decreases, think about getting a new one.
- **Steer Clear of Direct Sunlight:** Extended exposure to heat can degrade batteries.
- **Secure Mounting:** Before using, make sure the tripod adapter or clip is securely fastened.
- **Test Before Important Uses:** Prior to making video calls, recording, or streaming, check the brightness levels.
- **Rotate Gently:** To prevent breaking, do not apply too much pressure to the 160° rotating joint.
- **Firmware Update:** Verify the manufacturer's website to see if any LED lights have firmware upgrades available.
- **Use on a Stable Surface:** To keep it from toppling over, set it on a level surface if it's on a desk.

## TROUBLESHOOTING

Issue	Possible Cause	Solution
Light not turning on	Battery drained	Recharge using a USB Type-C cable
Light flickers unexpectedly	Loose connection or power fluctuation	Ensure a stable power connection
Not charging properly	Faulty cable or adapter	Try using a different USB Type-C cable or power source
Uneven brightness	Dirt or dust on LED surface	Clean the light panel with a soft cloth
Short battery life	Battery degradation or high brightness usage	Lower brightness settings and ensure a full charge
Light gets too hot	Continuous high brightness usage	Allow the light to cool before using again
USB port not responding	Port blockage or internal damage	Inspect and clean the port; contact support if necessary
CRI output seems lower than expected	Low battery affecting light performance	Charge fully before use for optimal brightness
Device not stable when mounted	No proper support	Use a stable stand or compatible clip
Light doesn't change modes	Button malfunction	Restart the device or check for a stuck button

PROS & CONS

PROS	CONS
Compact and lightweight design for easy portability	Limited battery life of 2.5 hours
Three light modes with ten brightness levels for customization	Not waterproof, limiting outdoor use in wet conditions
High CRI of 97+ for natural and accurate lighting	Requires a USB power source for charging
USB Type-C connectivity for fast and efficient charging	No built-in clip or stand, may require additional accessories
Affordable price with a 24-month warranty	Battery is not replaceable

WARRANTY

The ALTSON WLHJZD-W LED Portable Selfie Light is backed by a **24-month manufacturer's warranty**. This warranty covers defects in materials and workmanship, ensuring customers receive a reliable and high-quality product. If any issues arise under normal usage conditions, customers can contact ALTSON for repair, replacement, or refund.

FREQUENTLY ASKED QUESTIONS

Why is my ALTSON WLHJZD-W LED Portable Selfie Light not turning on?

Ensure the battery is fully charged, the USB Type-C cable is properly connected, and try resetting the device by holding the power button for a few seconds.

Why does my ALTSO WLHJZD-W LED Portable Selfie Light not stay on for 2.5 hours?

The battery life may decrease due to higher brightness levels or frequent use. Try using a lower brightness setting to extend battery life.

Why is my ALTSO WLHJZD-W LED Portable Selfie Light flickering?

Flickering may indicate low battery power or a loose USB connection. Charge the battery fully and ensure the cable is securely connected.

What should I do if my ALTSO WLHJZD-W LED Portable Selfie Light is not charging?

Check if the USB Type-C cable and adapter are functioning, try using a different charger, and ensure the charging port is clean and undamaged.

Why is the ALTSO WLHJZD-W LED Portable Selfie Light dim even at maximum brightness?

This could be due to a low battery, dust accumulation on the LED, or a faulty LED chip. Charge the battery fully, clean the light, and restart the device.

What is the battery life of the ALTSO WLHJZD-W LED Portable Selfie Light?

The ALTSO WLHJZD-W offers up to 2.5 hours of battery life on a full charge.

What connectivity technology does the ALTSO WLHJZD-W LED Portable Selfie Light use?

The ALTSO WLHJZD-W features a USB Type-C interface for charging.

How many lighting modes are available on the ALTSON WLHJZD-W LED Portable Selfie Light?

The ALTSON WLHJZD-W provides 3 light modes with 10 adjustable brightness levels for perfect lighting control.
